THREE GREAT MEN.

Representatives of Three Great Nations.

ONE OF THEM DEVISED PAINE'S CELERY COMPOUND

A Medicine That is the Wonder of the Age.

THE ABLEST MEDICAL MEN RECOMMEND IT.

Makes People Well When Other Prescriptions Fail.

Three men have done a mighty work for the profession of medicine, and they will ever be remembered as true benefactors of the human race.

Right Honorable Lord Lister, President of the Royal Society, Professor E. Phelps, M. D., of Dartmouth College, and Professor Charles Richet, of the University of Paris, are men that have lived to benefit mankind.

Professor Edward E. Phelps, who gave the world his famous Paine's Celery Compound, has gone to his well earned reward, but his great medicine still saves men and women every day. Thousands live to-day who owe life, health and vigor to Paine's Celery Compound, the mighty disease banisher. The weak, nervous, sleepless, rheumatic, neuralgic, dyspeptic and constipated are soon made hale and vigorous, and the deadly dangers of liver and kidney troubles are quickly dissipated.

There is now no necessity for continuing in agony and danger when such a rescuing agent as Paine's Celery Compound is held out to sufferers. Paine's Celery Compound assuredly cures; its thousands of magnificent testimonials in the past are sufficient proof. Have you tried it?

Visit Paton's Fancy Sale and Bazaar Saturday afternoon and evening.

Decorations worth seeing, all lit up by electric lights; on Saturday night at Paton's.

A Tale of the Sea.

Two American captains were recently relating their experiences on different voyages. One of them told the following story: "About 1 p. m. on March 2 my ship was proceeding under full sail when a cloud about the size of a man's hand was observed on the horizon. It came on, and as it neared the ship we discovered that it was composed of locusts. They settled on the sails, and you couldn't see a bit of canvas for them. When they flew away, there was not a stitch of canvas left on the yards." "Ah," said the other captain, "I can quite believe that, for at about 3:30 p. m. on March 2 my vessel was proceeding under full sail when we observed a small cloud on the horizon. As it approached the ship we discovered that it was a cloud of locusts, and as they passed our vessel we saw that every man Jack of them had a pair of No. 1 canvas trousers on."—Brazil Nut.

SICK HEADACHE
Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Heartly Eating. A perfect remedy for Dizziness, Nausea, Drunkenness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Substitution the fraud of the day.

See you get Carter's,

Ask for Carter's,

Carter's Little Liver Pills.

PERSONAL CHATS.

Uncle Jimmie Green, who died recently in Ellsworth, O., was present at the battle of Waterloo.

Nathan B. Moore of Bingham, Me., has tramped the woods of that state for over 71 years and has killed nearly 300 moose.

The New York chemist, Professor Emmens, claims that he can settle the financial question by transmuting into gold all of the silver that is brought to him.

Prince Bismarck is an enthusiastic admirer of the bicycle. He approves of women riding and regrets he is too old and stiff to take part in the sport himself.

Corbett, the prizefighter, is said to have bought a house for \$29,000 in New York and to have paid for it. From which it would appear that a man may possibly win in a losing fight.

While President Faure of France was in Peterhof, Russia, he slept in a bed which was made and designed especially for the first Grand Duchess Olga Nicholaievna, daughter of Nicholas I.

Miss Twiss, eldest daughter of Horace Twiss, married the editor of The Times, and on becoming a widow married his successor, John Deane. Her father thus happily described the double event, "She took The Times and supplement."

Professor James A. Breasted of the department of Egyptology at the University of Chicago, received recently direct from Deshasha, Egypt, a consignment of antiquities of unusual value. Among them is the mummy of Mery, priestess of Hathor.

Dr. Hu King Eng and Miss Wang are to be the Chinese delegates to the woman's congress to be held in London in 1898. The former, who is known as the "Miracle Lady," on account of her success in the art of healing, obtained her degree of doctor of medicine at the Women's Medical college in Philadelphia.

Milton Barney, the oldest living pioneer in Michigan, was born in Hanover township, N. Y., on March 24, 1819. With his parents he emigrated to Michigan in 1833 and has lived at Battle Creek ever since. His father, Nathaniel Barney, drove the first stage between Battle Creek and Marshall when the country was alive with Indians.

SIZES.

- The nail is 2 1/2 inches long.
A nautical knot is 6,100 feet.
A size in cuffs is half an inch.
A quarter of cloth is 9 inches.
A square 16mo. page is 4 1/2 by 3 1/2.
The royal 24mo. page is 5 1/2 by 3 1/2.
A box 5 by 5 feet holds 5.92 barrels, a 6 foot box 8.53 barrels.
A box 22 inches by 12 1/2 and 8 inches deep will hold a bushel.
A cent bronze piece is three-quarters of an inch in diameter.
A box 22 inches by 13 and 24 inches deep will contain a barrel of 2 1/2 heaped bushels.
A thousand shingles laid 4 inches to the weather are required to cover 100 superficial feet of roof.
Tacks are from a quarter to a half inch, though, when accidentally stepped on, this length seems to be multiplied by 100. A pound of the smallest sized contains 16,000 tacks.
Fourpenny nails are 1 1/2 inches long and 300 to the pound. Sixpenny fence nails are 2 inches and 80 to the pound. Fine three penny nails are 1 1/4 inches and 760 to the pound. Twentypenny nails are 4 inches and 24 to the pound. Fiftypennies are 5 1/2 inches, and 12 weigh a pound.
A size in hats is one eighth of an inch. According to the English method, the smaller diameter of the head is taken as the starting point. One-eighth of an inch increase in the shorter diameter makes a little more than three-eighths in the circumference. The French and German hatmakers have a rule slightly different from this.

NOVELTIES.

Dainty furnishings for the writing desk come in burned and carved leather. Some of the new paper knives have silver blades, with handles of polished stag horn. New cases for small articles in silver are covered with moire silk and lined with satin. Little powder boxes containing tiny powder puffs are made up in gold, silver and steel. There are some exceedingly attractive tete-a-tete sets, bowls and vases, in Japanese porcelains. The American Beauty rose and its foliage furnish a charming design for the decoration of some of the new flat ware.—Jewelers' Circular.

ITEMS OF INTEREST.

Recent surveys show that over one-sixth of the state of Oregon, something over 10,000,000 acres, is covered with dense forests. In the tiling of the delivery room of Chicago's splendid new public library the great dramatist's name is spelled Shakespeare, while in the reference section it is spelled Shakespeare. Carter's fancy goods and toy bazaar is open upstairs everybody invited.

THE WRITERS.

James Lane Allen, the novelist, will soon visit England.

The London World reports that Rudyard Kipling, who has been cycling in Dorsetshire with Thomas Hardy, is negotiating for the purchase of a house and grounds at Rodwell, near Dorchester.

Sir Edwin Arnold has further cemented his marriage with his Japanese wife by having the marriage ceremony performed in English, according to the English law. The Japanese rite consists of the two people drinking a cup of tea.

W. S. Gilbert, the noted humorist, is the possessor of one of the most beautiful houses near London. The author of "Pinafore" always works in his library seated not at a desk, but in a comfortable armchair, with a writing pad on his knee.

Maurus Jokai has gifts of the tongue as well as of the pen. He was introduced to Kaiser Wilhelm when the latter visited Budapest, but was called away to speak to the Archduchess Maria Josef. Returning, he said in apology, "Your majesty must excuse me, but my allegiance to ladies comes even before my allegiance to monarchs."

PROGRESS.

A new wagon wrench has a screw clamp on one side, by which it is attached to the hub of the wheel, the wheel being turned around to unscrew the nut.

To assist in building wire fences a new device has a frame mounted on a wheel, with spindles to carry three or more reels of wire, so that all the wires can be strung at the same time.

A compound called naphthosalicin has been patented in France, intended as a disinfectant in laundries. It consists of naphthol and salicylic acid, rendered soluble in boiling water by borax.

To assist persons in escaping from a building on fire a chair is fitted with two frictional bearing plates operated by a hand lever to grip a rope as it slides through guides attached to the chair.

A recently patented water motor has an endless upright chain of buckets mounted on two axes, with a stream of water at the top to fill the buckets as they start down, the length of the chain determining the power of the motor.

Gautier, the Amateur Artist.

Like Thackeray, Victor Hugo and some other famous writers, Theophile Gautier began life with the determination to become an artist. It was as an art student that he wore his famous red waistcoat and attended the theaters in order to applaud Victor Hugo. Later in life the main use that he made of his acquisitions was in drawing fancy heads of his heroines, and he possessed the ability to portray varied types of character no less with the crayon than with the pen. Engravings from several of his sketches were used as frontispieces or vignettes on the title pages of his books.

It is as a painter in words that Gautier will long be remembered. In fact, he may be said to have created that kind of literary art. But it is probable that he would never have been able to produce the delightful word paintings in his "Emaux et Camées," his "Fortunatus" and other stories and his books of travel if he had not practiced with crayon and brush and learned the language of the studios.—Art Amateur.

For further particulars, apply to PROWSE & SONS, Murray Harbor South. November 28th 1897. 21 & wk 11 dec 18

Bright Babies
Bright babies are made brighter with BABY'S OWN SOAP. Its absolute purity insures a healthy skin, and its fragrance is delightful. No soap is so good for babies as BABY'S OWN SOAP. Imitations of it abound—most of them though looking like BABY'S OWN SOAP, are dangerous for use on children. THE ALBERT TOILET SOAP CO., Manufacturers, Montreal.
