

Fact and Rumor.

Lazy Men are not generally of much use, but they may occasionally do others a good turn.

In boring an artesian well in Monroe county, Miss., a petrified log was struck at a distance of 214 feet.

The photographers never secured a negative of Marwood, the hangman. He refused £50 for a single sitting.

A schoolboy remarks that when his teacher undertakes to "show him what is what," he only finds out which is which.

Mr. Fawcette says that an English capitalist who may have bought with tolerable judgement shares in public companies thirty years ago is probably now richer than the owner of land purchased at the same time for the same money.

Barbadoes by far the most prosperous of the West Indian colonies, a circumstance chiefly due to the intense attachment of the negroes to their native land. The population is over 1,000 to the square mile, and the negroes, consequently, have to work for a living; hence the planters' prosperity.

One of the greatest dignitaries of Spain is the white donkey. He is attended with quite as scrupulous care as that bestowed by the Indian natives on the white elephant. There is employed a special compadre to such a jackass, whose function it is to play the guitar to the animal when he is laid.

It was said of a certain Governor of New York State that such was his passion for pardoning that when a barber who had the misfortune to cut him exclaimed, "Beg pardon, Governor," he promptly replied, "Certainly; just put your hand into my inside pocket and take one, I always carry a few pardons about with me already signed."

The herring fisheries of Scotland employ 500,000 people, one-seventh of the population. The boats represent a money value of \$3,600,000. The annual yield of cured fish has arisen from 90,000 barrels early in the century to 1,290,000, and has trebled in fifty years, while in the same period the value of the nets has increased 75 per cent.

The Chinese Mandarins show great avidity after everything written about their country. Interpreters go every day to the tribunals to translate European newspapers. Detailed reports were telegraphed to Peking of those sittings of the French Chamber in which Tonquin was discussed. The Marquis of Tseng sent one telegram costing upwards of 5,000 piasters (\$25,000).

In the children's carnival in Saratoga, one little girl was dressed to represent a gold mine, and she looked like a forty-pound nugget. Her shoes were gilded, her stockings were of gold-coloured silk, her pantalettes were bordered with bullion fringe, and her gown was a mass of gilded silk bunched up so that it looked like a rough irregular chunk gold.

The Great French Remedy, Dr. LeDuc's Periodical Pills.

For the cure of Leucorrhoea or White's Ecessive or painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, Pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily; or in very enfeebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.
