The Convention Area number 2, of Queen's County has donated scholarships to the students stand (Continued on page 11, Col. 4)

## Parkdale On The Spot, Gov't Comes To Rescue

Postponement of the sale of Village of Parkdale bonds until early this fall has been made necessary due to the current loan diversion program being carried out by the Federal Government. In the meantime the commissioners of the Village have requested the Provincial Government to guarantee an overdraft at the Bank until such time as their bonds can go on the market.

Premier Matheson said yesterday, the Government had granted the request of the Parkdale Commissioners. He noted that the Village has already started its sewer and water installation and would be put in a most awkward position if work were held up at this time. Early in July negotiations were completed for the sale of Parkdale Village bonds but a day or two before the sale was to have been completed the loan conversion program of the Ottawa Government was announced. The brokers acting on behalf of the Village Commissioners advised postponement of the sale. They noted that the conversion program would be wound up by September 15 and promised to carry out their original bargain "early in the fall".

## Find Tiny Tot Alive And Well

POINT DU CHENE, N.B. (CP) — Three-year-old Diane Leger of Lewisville, N.B. near Moncton, missing since Wednesday night, was found alive and apparently well Thursday afternoon about a quarter-mile from where she was last seen on a beach here. The little girl, clad only in a bathing suit, was found lying in a clump of elgrass by Henry Perry of Point du Chene who heard her crying "Mama, mama." He took Diane to the cottage where she and her family are spending the summer. A doctor examined her and reported no apparent ill-effects aside from hunger. Diane went to the beach with an older brother and sister but failed to return with them about 8 p. m. Her disappearance touched off one of the biggest searches ever held in this area. Hundreds of volunteers and RCMP scoured the area, aided by a police dog, several boats and a private plane.

## BOTTLE-FED TOP SMOKERS

LONDON (AP) — Smokers who can't stop smoking may have been weaned too early, according to a survey by Harvard specialists reported Thursday in Lancet, British medical journal. Men who were bottle-fed babies find it harder to stop smoking than those who were breast-fed, the survey showed, and most of the men questioned who could not stop smoking said they had sucked their thumbs in childhood. All 252 men questioned in the survey were Harvard graduates.

## Steel Hike No Effect On Dosco

MONTREAL (CP) — An official of the Dominion Steel and Coal Corporation said Thursday that the steel price increases announced by major United States steel producers would not have any general effect "at present" on Dosco operations. A. C. MacDonald, chairman of Dosco's management committee, said in a statement that Canadian steel prices were established by cost factors in this country. The U.S. producers announced Wednesday and Thursday, price increases of \$4.25-\$4.50 a ton.

## Princess Has Rose, Fountain, Hospital Named In Honor

TORONTO (CP) — Princess Margaret swept gracefully through a jammed four-hour schedule of activities here Thursday and by the time she left in late afternoon a new hospital had been named in her honor. The rose, developed in a seven-year, \$50,000 research program by Newark, N.J. grower, was called Princess No. 54-381. A bouquet of the blooms was presented to Margaret during a city hall ceremony by Linda Phillips, seven-year-old granddaughter of Toronto's mayor Phillips. The fountain is in the Canadian National Exhibition grounds where Margaret stopped before a grandstand crowd of 20,000 en route from a luncheon at the Royal York Hotel to Parkdale Station in the city's west end. Margaret alighted from her long, black open-topped convertible and in a brief ceremony pushed a button which started the new fountain gushing. It was a remote-controlled operation and the princess didn't see the fountain until her car left the grandstand and proceeded through the exhibition grounds.

## Eleven Cars Of Train Derailed

MILWAUKEE (AP) — Eleven cars of the Milwaukee Road's Olympian Hiawatha passenger train were derailed Thursday, injuring about 25 to 50 persons. Authorities reported no fatalities. The cars left the rails near the Milwaukee suburb of Oak Creek. A Milwaukee Road spokesman said the cause of the derailed train was not determined. The train was bound from Chicago to Seattle.

# Lebanon Crisis Eased But Not Eliminated, Is View

## MADE PARLIAMENTARY HISTORY

OTTAWA — Liberal Alan Macnaughton, (right) Montreal Mount Royal, Wednesday celebrated his 55th birthday by becoming the first Opposition member in Canadian parliamentary history to be named chairman of a Standing Commons committee.

He is congratulated by Richard Bell (PC-Carleton) who nominated him chairman of the public accounts committee.

## UNLESS UN ALLOWED TO ACT

# Dulles Sees Grave War Danger In Middle East

WASHINGTON (AP) — State Secretary Dulles said Thursday the world faces grave danger of war unless the United Nations should be allowed to act against indirect aggression in the Middle East. At the same time, Dulles pledged the United States would withdraw its troops from Lebanon whenever it is asked to do so by a duly constituted Lebanese government.

At a press conference, Dulles said an emergency summit talks should concentrate on the problem of indirect aggression — by which he meant Communist subversion of existing regimes. Dulles said the other chief value of a summit parley would be to expose what he called the falseness of Soviet Premier Khrushchev's charge that U.S.-British troop landings have imperiled Middle East peace.

Dulles faced a barrage of questions mainly about arrangements for a summit parley. In his replies Dulles: 1. Backed Prime Minister Macmillan's proposal that a summit meeting begin about Aug. 12 within the framework of the 11-member UN Security Council. He said President Eisenhower will send Khrushchev a reply today to the Russian premier's latest summit proposal. 2. Agreed to New York or some European city as a site. He ruled out Moscow because of what he called outrageous demonstrations against the U.S. Embassy there two weeks ago. 3. Turned a cold shoulder to Khrushchev's demand that India's Prime Minister Nehru be included as a participant. Dulles said Jordan and Lebanon, both directly involved in the Middle East crisis, should be represented.

## N.B. Priest Dies At Baltimore

BALTIMORE (CP) — Rev. John E. Burke, 77, a native of Saint John, N.B., and a member of the Roman Catholic Paulist order who was ordained nearly 50 years ago, died here Wednesday. Death came at the Seton Institute after an illness of about four months. Father Burke, who preached the funeral eulogy for Sir Wilfrid Laurier in 1919, was rector of St. Peter's Church in Toronto during the 1920s and also was rector of the Newman Club at the University of Toronto. Later he was superior of the Paulist major seminary in Washington, D.C., and lectured widely at missions and retreats in Canada and the United States.

## U.K., France Send Divergent Summit Views To Khrushchev

LONDON (AP) — Britain and France sent divergent plans for a Middle East summit meeting to Premier Khrushchev Thursday, in effect returning the ball to him. The two allies disagreed on a date and auspices for such a meeting. The United States held off until today amid indications President Eisenhower favors the British proposal. Prime Minister Macmillan wants a special summit session of the UN Security Council to open Aug. 12 — in New York, Geneva or elsewhere. He is asking UN headquarters in New York to act at once to arrange the meeting and said he is willing to attend. Late Secretary Dulles told a Washington press conference the United States considers Aug. 12 as an agreeable date for opening a summit session. He said the meeting presumably could go ahead without Premier de Gaulle if the French leader decided to stay away. De Gaulle proposed that the conference open in Geneva Aug. 18. He objected again to summit talks within the UN framework. Instead he accepted the original Soviet proposal for a meeting of the big four powers plus India, with UN Secretary-General Dag Hammarskjold sitting in. Though a Geneva session opening Aug. 18 is de Gaulle's first choice, he said any other date and any other European city would serve.

## Conciliator Named In Civic Wage Dispute

An effort will be made to bring about a working agreement between the Commission of Sewer and Water Supply and members of the Charlottetown Civic Employees Union in the near future. Appointed conciliation officer between the two parties is Dr. J. Brendan O'Grady, professor of English at St. Dunstan's University. Premier A. W. Matheson, who made the announcement yesterday, said the Government has not appointed a conciliator between the City Council and member of the Civic Union. The Premier said the action in this case was delayed because the Government had been informed that the City Council "has not definitely refused" to continue negotiations. "There seems to be a stalemate in this situation," Mr. Matheson added.

DR. O'GRADY

## Prices Support Act For P.E.I. Potatoes Is Urged

OTTAWA — (Special) — A New Brunswick Liberal M.P., Herd J. Robichaud, Thursday called on the Federal Government to include Prince Edward Island potatoes under the Agricultural Prices Support Act. Producers in the province had been told five months ago by

Prime Minister Diefenbaker that such action would be taken if necessary. Mr. Robichaud said with 600 cars of potatoes as yet unsold, the "time for that action is now." The previous government had "looked after the potato farmer with support prices and guaranteed prices.

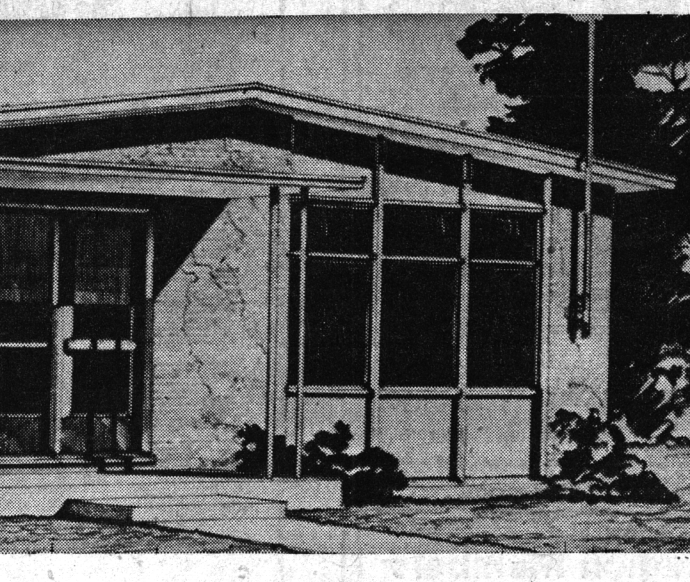

## U.S. Announces 'Improved' Atomic, Hydrogen Weapons

WASHINGTON (AP) — The United States Thursday reported development of new types of atomic and hydrogen weapons that can be put to deadly use more quickly than earlier models. The Atomic Energy Commission said in its semi-annual report to Congress: "Weapons models have been improved and new types of weapons — smaller, more efficient, more rugged, and more immediately ready — have been developed to meet the requirements of the armed forces..." (toward) preserving the peace."

and development programs are aimed at producing weapons of greatly reduced radioactive fallout in a variety of sizes for strategic, tactical and defensive use. Commission spokesmen declined to amplify on what is meant by weapons "more immediately ready" and more rugged than their forbears. But atomic scientists outside the AEC speculated that bombs and missile warheads have been developed with their arming devices already built in, rather than requiring the addition of such a device before the weapon could be fired.

## NEW P.O. FOR BORDEN

OTTAWA, The federal Department of Public Works has awarded a contract in the amount of \$18,227.97 to Robert H. Rankin, General Contractor of Summerside, P.E.I., for the construction of a new Post Office building at Borden, P.E.I. Specific completion date for the project is February 1959. The new one-storey building will be located on the south side of Borden Avenue and the Trans-Canada Highway, and west of the existing R.C.M.P. Barracks. It will be a basementless, brick faced structure with an approximate frontage of thirty-two feet on Borden Avenue and a depth of approximately thirty-two feet. Interior finish of the walls and ceilings will be painted plaster, with a plywood dado lining the walls. Floors are to be covered with linoleum. A driveway off Borden Avenue on the west side of the building will be the service entrance to the large trucking yard at the rear. Plans and specifications were prepared by the architectural staff of the Building Construction Branch of the Department of Public Works in Ottawa.

NEW P.O. FOR BORDEN
