

THE HIGHWAYMAN.

PAT BEARNEY being, we suppose, since our recent exposure of his peccolations, too neatly-mouthed to trust to his own pen, has got a certain bilious-looking fellow, whom we could name if we chose, to write an impertinent letter which appeared in Hazard's Gazette of Wednesday, and the Islander of Friday last.

We had considered it not improbable that Bearney might have escaped public notice until the meeting of the Supreme Court in January next, when his appearance in the criminal's dock—which, we presume, must be enlarged for his reception—will be positively his last appearance before the public. As the letter referred to concludes with one or two matters recommended to us as subjects for the pen editorial, we will answer them briefly, though it may be, more to the point than the partnership of rogues anticipated.

With respect to the crime of perjury, and the dangerous consequences to society of its going unpunished, we can imagine no more awful instance of it than that of Bearney swearing, as he has done, for several years in succession, when making his returns to the Government, that he honestly and faithfully expended the public money, while, at the time he swore, he was conscious of having fraudulently applied much of it to his own private purposes; and the consequence of such swearing would, if the oath were credited, induce people to believe that the sun rose at midnight, that white was black, and even that Bearney had paid Carroll for the oatmeal with his own funds.

As to the evil effects on the human mind of drinking, and of delirium tremens on an editor, Pat and his friend can get a full elucidation of that subject from the experienced editor of Hazard's Gazette; and should his memory be defective, we would suggest a reference to the publisher of the Islander, who sold his books for drink, and some of whose connexions occasionally afford overflashing testimony to the ill effects of excessive absorption—which, in some cases we could mention, manifest themselves in a determination not to keep their friends in suspense as to their fate, although so far from recognizing the necessity of their respective families hanging together, they are never so much cut up as just after having been cut down.

The third subject for meditation—female virtue and bastardy laws—can be beautifully treated by some of the more prominent of Bearney's new friends—the Tories; and their illustrations can be drawn from the front ranks of the faction, and need not be confined to one sex. If bastardy laws were in force, we could point out some fitting objects requiring their application, from him whose bodily presence alone is pollution, to

"Lorenzo, a young palmer in love's eye," whose numerous pledges are best described in the old song,

Some were black and some were blacker,
Some were the colour of a chew of tobacco.

NORMAL SCHOOL SOIREE.

Proceedings at the Soiree, held for the Inauguration of the Charlotte-Mecklenburg Normal School, on Wednesday, 1st October, 1856; and the speeches delivered upon the occasion.

On our arrival at the building in which the business of the Charlotte-Mecklenburg Normal School is to be conducted, we were at first agreeably impressed by the imposing dimensions and substantial appearance of the edifice, externally considered, and by the convenience and sufficiency of the play-ground or gymnasium attached thereto; as compared with the erection and its adjuncts which formerly occupied the site, and which were, in the beginning, presumably, or rather pretentively, (if we may coin a word) dignified by the appellation of "The College" and "The College Grounds," and, until the decline and fall of the Institution generally known thereby. Let us here observe, however, that we mean not to speak irreverently of the dead. The institution which moral, intellectual, social and legislative progress and improvement have swept away, had its uses. It was, no doubt, as limited in beneficial operation as it was stunted with respect to pecuniary means; but it cannot be disputed that much good, although in a very small way, proceeded from it.

But to return to the present edifice. On our proceeding into the interior—before the assembling of the company—our attention was first arrested by the appropriateness of the rooms for the educational purposes for which they are designed. The Class or School rooms are lofty, capacious and airy; and have evidently been designed with a due regard for the health of those who may be daily assembled therein. The building, in fact, both externally and internally considered, and in all its parts, is not only highly creditable to the Superintendent of Public Works, Silas Barnard, Esq.; but, in addition to our Colonial Building, Asylum, Hospital, and Mayor's or Police Court—all indicative of the presence of the ever-active spirit of improvement amongst us—will be a lasting credit to the Colony.

We next remarked, with much pleasure, the very excellent arrangements which had been made for the reception and accommodation of the expected company at the tea-tables. These reflected much credit on the Committee of Management. There was nothing about them of extravagant or needless display; but every thing was neat, appropriate and strictly in conformity with good taste.

At half-past three the company—or rather as many as could be accommodated at once—were summoned to the tea-tables, fourteen in all. At each of these a lady presided; and, in acknowledging the services of these presiding genii of the Soiree—if we may be allowed most respectfully so to term them—it is awarding them but a scanty tribute of respect and gratitude, to say that they—one and all—acquitted themselves of their temporary functions with a grace, politeness and consideration truly engaging to those to whom they ministered the delightful, soothing and cheering beverage of tea.

As soon as the first section of the company had left the tea-tables, another was summoned in its stead; and the members thereof were received and served by the fair hostesses in as courteous and pleasing a manner as had characterized their reception of, and attention to, their first guests.

The ladies who gave their services and countenance on this occasion, have thereby—considering the vast, the inestimable importance of the object to be promoted by the Soiree—entitled themselves to the grateful consideration and respect of the whole community.

Upon this occasion, the prominent services of but a limited number could be accepted; but, from the well-known philanthropy and public spirit of the Ladies of Charlotte-Mecklenburg and its vicinity, it cannot be doubted that many, besides those who officiated at the inauguration of our Model and Normal School, would have been proud and delighted to have had equal opportunities, with the ladies above referred to, to manifest their regard for right education, and the interest which they take in every thing having a direct tendency to promote it.

Before the arrival of His Excellency Sir Dominick Daly, the Lieutenant Governor, many, both ladies and gentlemen, had assembled irregularly in the principal room of the institution; and His Excellency, on his entrance, was received by them with silent but marked respect.

ladies. It was truly gratifying to all the friends of Education present, who had been actively interested in securing success for the Soiree, but particularly to such of them as had been the promoters of the legislative measures which have led to the great improvement which has lately been made in the condition of our Island District Teachers, and to the creation of the Institution about to be inaugurated,—to mark the large and respectable attendance of Teachers, some of whom had travelled from 80 to 100 miles, to be present at the inauguration of an Institution, the operations of which, it is earnestly to be hoped, will, in the process of a few years, effect a most material change for the better in the daily routine of our public schools.

Tea being over, the company withdrew for some time to the play-ground, to allow the making of some necessary re-arrangements previously to the completion of the programme of the Soiree, by the intellectual entertainment to be afforded by the speeches to be made in the submitting and seconding of certain Resolutions. On the return of the company to the principal room, they found a temporary platform occupied by His Excellency, the Honble. the Colonial Secretary and two or three other distinguished gentlemen. His Excellency, on being motioned to the Chair by the Hon. the Colonial Secretary, assumed the same; and the Meeting was duly organized, the Honble. the Colonial Secretary and J. Lawson, Esquire, the City Recorder, being on His Excellency's left, and the Honble. Mr. Lord and John MacNeill, Esquire, on his right hand.

The Resolutions submitted to, and unanimously and applaudingly adopted by the Meeting, are as follows:— 1st. Resolved, That the system of Free Education now in successful operation in this Colony, under which one-sixth of the whole population is receiving instruction,—and of which the Normal School is a necessary and vital element, is deserving of the support of all interested in the welfare of the rising generation. Proposed by Honble. W. Swabey, and seconded by John Lawson, Esquire.

2d. That this Meeting congratulates the country on the establishment of a Normal School in this Colony.—Proposed by J. M. Stark, Esquire, and seconded by J. McNeill, Esquire.

3d. That the thanks of this Meeting are due to the Ladies who have kindly presided at the tables this evening. Proposed by William Monk, Esquire, and seconded by John Kenny, Esq.

4th. That the thanks of this Meeting are due to the Committee of Management for their excellent arrangements for this Soiree. Proposed by the Hon. the Colonial Secretary, and seconded by the Hon. Mr. Lord.

His Excellency, on motion, having then left the Chair, and His Worship the Mayor, being called thereto, it was proposed by the Hon. Mr. Whelan, and seconded by B. Davies, Esq.— Resolved, That the thanks of this Meeting are due to His Excellency Sir Dominick Daly, for his able conduct in the Chair.

[N. B. The speeches delivered on the occasion are in course of preparation for the press; and we hope to be enabled to lay them all before our readers in our next issue.—Ed.]

UNITED STATES.

THE WAR IN KANSAS.—ST. LOUIS, Sept. 20.—The steamer Polar Star, from Kansas, 15th inst., reports that Capt. Robinson, with a company of 52 Pro-slavery men, attacked a Free State force at Grasshopper Falls, on the 15th, killing two of their men, and capturing their provisions, ammunition and horses.

On the 16th, Col. Harvey, with 200 Free State men, attacked Robinson, who had fortified himself in a log house at Hickory Point. After fighting two hours, losing 12 men and having several wounded, Col. Harvey proposed an armistice of 30 days, which was accepted. Capt. Robinson lost three men killed, and had many wounded. Leavenworth was deserted. Gov. Geary was at Leocompton.

BALTIMORE, Sept. 21.—A shocking affair occurred last night at Lombard's Mill, at the eastern extremity of Baltimore. Two Italian organ-men were found secreted in the ice-house of Col. J. Morybur Turner, by Turner, and a neighbor named Thomas Wollen. Supposing the designs of the Italians to be robbery, Turner treated them accordingly, when one of the Italians drew a dirk, and stabbed him and Wollen in the left breast, the instrument entering their lungs, and producing, probably, fatal wounds. Another friend of Turner was also stabbed in the arm, producing a serious wound. Intense excitement prevailed among the residents, and it was difficult to restrain them from lynching the perpetrators on the spot. Both men have been sent to jail. It is supposed the Italians merely went into the house for lodging. The injured men are not expected to survive.

CHICAGO, Sept. 19th.—FERRY ACCIDENT.—TEN LIVES LOST.—The South Branch ferry-boat came in collision with a schooner to-day, and capsized. She was filled with passengers, ten of whom were drowned.

IMPORTANT FROM MEXICO.—Philadelphia, Sept. 18.—Private advices from Mexico, via Havana, mention reports of a serious difficulty between that country and the British Minister, and that the latter had demanded his passports. Orders had been transmitted to Havana for the British squadron there to proceed to Vera Cruz, to enforce the demand of England. The commander of the British steamer Tartar, at Havana, was collecting a naval force, and would sail immediately.

NEW BRUNSWICK.

BOAT RACE BETWEEN NEW BRUNSWICK AND NEW YORK.—NEW BRUNSWICK BOAT VICTORIOUS.—A telegraph despatch was received from Mr. Walter Welsh, at Boston, on Saturday evening, stating that the race, with four-oared gigs, which took place that day, resulted in favour of the Sand Cove boat, by one minute and five seconds. The distance, we believe, was six miles, and the stakes were \$1000 a-side. We have not heard the time made by the winning boat.—New Brunswick.

MIRAMICHI, Sept. 20.

FIRE.—We are sorry to have it to record that the Saw Mill, in Upper Nelson, owned by Rowland Crocker, Esq., was burned to the ground early on the morning of Wednesday last.—Gleaner.

The ship "Henrietta," of Glasgow, John Buttershell, master, timber laden, from Quebec for Belfast, put in here on Monday last, in a waterlogged condition, having experienced heavy gales on the 8th, 9th and 10th inst., off the Magdalene Islands. The ship is now discharging in order to ascertain the damage and repair.—Times.

LOCAL NEWS.

On Monday, the 29th September, as a young man, named Charles Macdonald, son of Mr. Donald Macdonald, Charlotte-Mecklenburg Royalty, was leading a young horse—which was drawing a cart—on his father's farm, the beast took fright, and the man lost all control of him; he still, however, retained his hold, in hope of checking the animal; after a while, passing between a stack and the barn, he shied, and the unfortunate young man was jammed between the end of the shaft and a corner of the barn. The ribs on the right side were literally crushed in pieces; medical aid was promptly on the spot, but the internal injuries received were such that no hope of recovery was held out. He lingered until one o'clock on the following day, when death put a period to his sufferings. Deceased was universally esteemed for his amiable disposition and strict propriety. Verily, "in the midst of life we are in death."—Adv.

CHARLOTTETOWN RACES.—The Races for 1856 came off, as advertised, at the old Course, on the 25th and 26th September. The several matches were unusually well contested; the first race on the second day, between Mr. Thorne's "Lord Raglan" and Mr. J. Laird's "Snatcher," elicited general admiration. Annexed will be found the return of the Stewards:—

FIRST DAY. 1st race—(2 year olds)—Donald MacMillan's horse "Noble." 2d do.—(3 year olds)—Thomas Parsons's "Don." 3d do.—(all ages)—James Laird's "Snatcher." 4th do.—(trotting match)—Mr. MacInnis's Bay Pony. 5th do.—(welter race)—James Laird's "Snatcher." SECOND DAY. 1st race—(all ages)—John Thorne's "Lord Raglan." 2d do.—(all ages)—Mr. MacInnis's mare "Jenny Nettle." 3d do.—(all ages, for Ladies' Purse)—James Laird's horse "Snatcher." 4th do.—(plate for beaten horses)—Lauchlin MacMillan's horse "Doll."—Advertiser.

Prices Current.

Table with columns for CHARLOTTETOWN MARKETS, OCTOBER 4. Provisions, Poultry, Fish, Lumber, Vegetables, Grain, and other goods with their respective prices.

Liver Complaint.—Mr. James Alderton, of Three Rivers, was for 15 years afflicted with a disordered liver, nausea and a foul stomach; in addition to these distressing complaints, he was visited by frequent bilious attacks, rendering him entirely unfit for business; he was told nothing in the world would thoroughly cure him, although he had spent a complete fortune in medicine and advice. At last he was recommended to try Holloway's Pills, which he commenced using; gradually the worst symptoms of his disorder disappeared; and after eight weeks steady adherence to the directions of Professor Holloway, he was entirely cured, and admits that he never before throughout his life enjoyed such good health as he does at present.
