

## Budget Priced Lingerie Good Value = Good Quality

"Luxite" RAYON GOWNS—Full cut, rayon knit gowns—Cruise Blue and Coral—at only— **2.95 ea.**

A finer gown in rayon knit—also made by "Luxite" in gay Fiesta Red and Circus Yellow. Sizes 32-40.

**3.95**

Rayon Bed Jackets—3-4 sleeves. Peter Pan Collar. Pearl button trim. Cruise Blue, Regatta White. S.M.L.

**2.95**

Smart tailored Pyjamas in fine broadcloth — long wearing—colorfast. Sizes S.M.L. Colors, Red, Paddy Green, Pink, Yellow, Blue, Pale Green.

**3.95 and 5.95**

**MOORE & MEELOD Limited**

## Canada To Have New Steel "Nickel"

OTTAWA, April 7 — (CP) — Canada is going to have a new type of nickel—made of steel. Prime Minister St. Laurent announced in the Commons today passage of an order-in-council authorizing the mining of a new coin of steel in chromium finish to the value of five cents to be issued on and after July 1, 1951, as a substitute of the further issue of the pure nickel coin.

That means new nickels are to be made of steel. The reason, officials said, is the shortage of nickel.

The same situation arose in 1944 and 1945 when the same sort of chromium-plated steel coin came into existence.

In 1942 and 1943, the five-cent piece was made of copper and zinc. There were 14,000,000 of that combination and most of them have been reclaimed.

The mint's annual output of nickels runs to roughly 12,000,000.

## IN MEMORIAM

In loving memory of Mrs. William Leith MacLean, who passed away April 9th, 1948.

He that dwelleth in the secret place of the Most High shall abide under the shadow of the Almighty.

Inserted by Willard, Blanche and Family.

High tide at 12:50 A. M. and 2:21 P. M.

Sun rises at 5:41 A. M. and sets at 8:49 P. M.

Summerside tide eighteen minutes later than Charlottetown.

## Tells How To Put Baby To Sleep

LONDON, April 7—(Reuters) — Solution to a problem which plagues every parent—how to get babies to sleep and how to keep them asleep—was offered by a medical man today.

Professor R. S. Illingworth, child health expert of Sheffield University, writing in the British Medical Journal, advised:

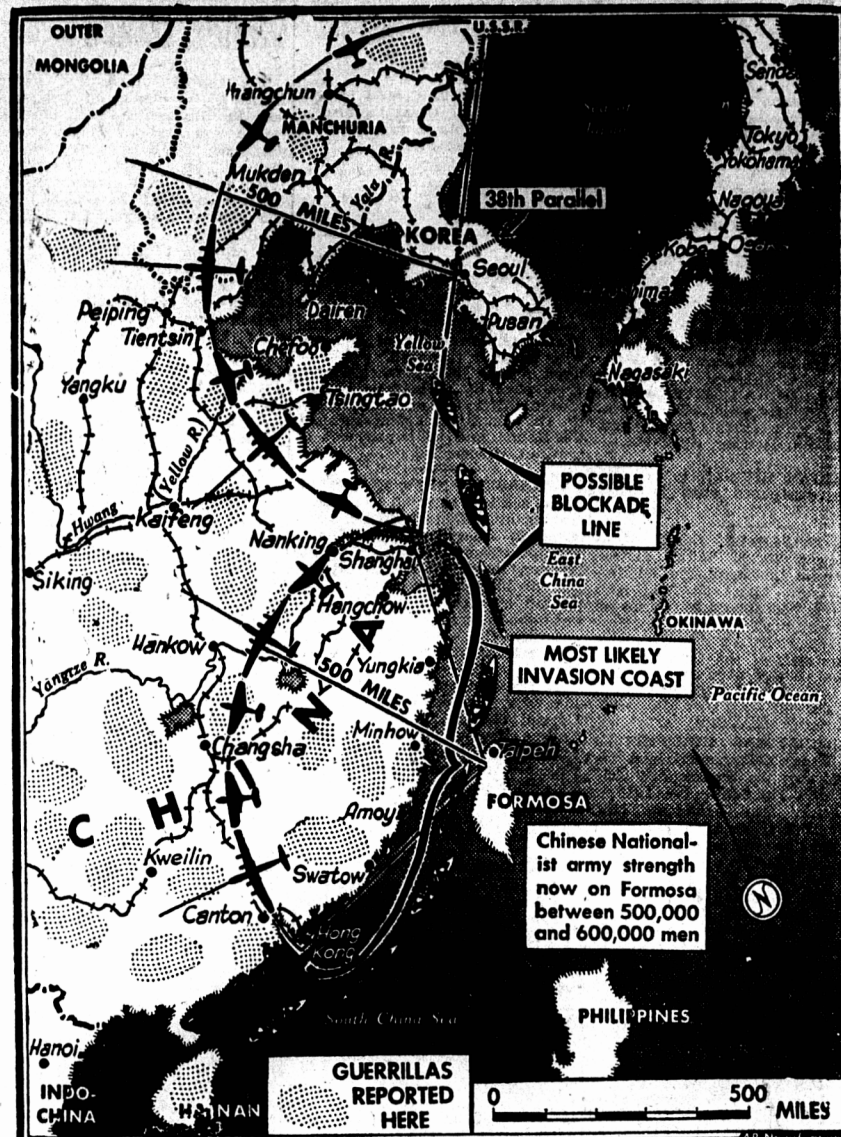

1. Put baby to bed when he is tired rather than at any set time.
2. If he wakes up refreshed after a short nap and can't get off to sleep, bring him downstairs until he gets tired again.
3. Never threaten to send a child to bed as punishment.
4. Don't tell him to go to sleep. It's the surest way of keeping him awake.
5. Never mention his bad bedtime behaviour while he is there.
6. Don't rock him to sleep. A young child may learn to associate sleep with rocking and later refuse to go off without it.

LONDON, April 6 —(Reuters)— Joseph Lerner, 73-year-old furrier, was charged today with receiving a £3,000 (\$9,000) mink coat stolen two weeks ago from the apartment of film star Tyrone Power and his wife, Linda Christian.

WASHINGTON, April 6 —(AP)— The American Council on Education said today college officials, in a country-wide poll, have voted more than 4 to 1 in favor of universal military training.

OAKLAND, Calif., April 6 —(AP)— Henry J. Kaiser, 68, industrialist, and Alyce Chester, 34, today announced their intention to marry. The two met in the long struggle to save the life of Kaiser's first wife, Bess, who died last month.

## Is Invasion Of China Possible

By JOHN L. SPRINGER

There is talk again of invading China.

Gen. Douglas MacArthur started the new speculation with his statement calling on the Chinese Reds to surrender or face "expansion of military operations" to their "coastal areas and interior bases."

While this might mean many things, including bombing raids, numerous persons construe it as threatening to send invasion forces right onto the Chinese mainland. This idea has been discussed before — during World War II, for example, when much of China was in Japanese hands — and the prevailing military view has been that such an operation would be almost suicidal. There are just too many Chinese, and they breed faster than even modern weapons can kill them.

Still, the possibility of invasion should not be overlooked entirely. The Chinese Reds say the Americans plan such an "aggression", and the defeated Chinese Nationalists based on Formosa say they will invade and get back onto the mainland in a comeback drive. Any invasion, therefore, probably would be a reopening of the Chinese civil war. And according to military observers, it could not take place for perhaps two years. The 600,000 Chinese on Formosa lack the supplies to launch a successful drive now. According to General Chou Chih-jou, chief of staff of the Chinese Ministry of National Defense, they need ammunition, guns, tanks, fighter and bomber planes, assault boats — in effect, just about everything.

Since the Nationalists can get such supplies only in the United States, the decision to invade or not will be made, in the final analysis, in Washington. The State Department's reaction to MacArthur's surrender statement has been interpreted as meaning that it is not in sympathy with the

invasion idea. The big objection is, of course, the tremendous size of the enemy. Millions of men would be needed to make an invasion successful and once war got underway on the mainland, it easily could drag on for decades. While Chiang's forces claim that millions of guerrillas are harassing the Reds within China, few persons doubt that any invasion would prolong Chinese civil war enormously. In lieu of invasion, American military opinion appears to favor a blockade of China's eastern seaboard. The Chinese Reds, of course, have no navy worth mentioning in the same breath with the U. S. fleet, so that a U.S. blockade would be cheap in terms of American lives.

## The Neighbors

HEROES ARE MADE—NOT BORN. J.R. WILLIAMS

**At every step...  
she counts on NICKEL**

Hundreds of everyday uses for Nickel have been developed by the Nickel industry through a planned program of research. Today a large share of Canada's Nickel production is being diverted from peacetime uses into channels for preparedness. So the Nickel mine facilities, greatly expanded over the past decade, are again being operated at peak capacity. There is actually more Nickel now being delivered by Canada to the free world than in any peacetime year.

**CANADIAN NICKEL**

"The Romance of Nickel" a 60-page book fully illustrated, will be sent free on request to anyone interested.

To obtain these soft, delicate shades of the finest fabrics, Nickel alloy equipment is used for dye vats and utensils. It does not throw delicate colors off shade.

Beautiful silver-plated ware is stamped from Nickel Silver, an alloy of nickel, copper and zinc, then silver plated.
