

Roxburgh's Booming Voice Gettin' Ready For Action

By JACK SULLIVAN
Canadian Press Sports Editor

The House of Commons may never be the same after Jack Roxburgh takes his seat among the back-benchers. His booming voice will probably be heard all over Parliament Hill. Roxburgh, veteran farmer, hockey official and world traveler and neophyte politician, intends to have his say. And Health Minister J. Waldo Monieith may as well know now that he'll be Roxburgh's prime target.

The 61-year-old Roxburgh is hardly the stuff chess on the sports beat expect to hear from the president of the Canadian Amateur Hockey Association and a director of the International Ice Hockey Federation. Surely you're going to get a word in for sports?

"It was a good, clean fight," he roared. "I was up against a good man and a good friend (defeated Progressive Conservative J. Evans Knowles). Someone had to win and I'm proud it was me."

Fine, Jack, old boy, but that

Doctors, Druggists Warned Of Contraceptives Danger

By JOHN E. BIRD
OTTAWA (CP) — Canadian doctors and druggists will receive a "warning letter" telling them of possible side effects on some women of two oral contraceptives now being sold in Canada, it was disclosed here.

However, Dr. C. A. Morrell, director of the food and drug division of the federal health department, said in an interview there is no evidence that the drugs Enovid and Orthovum can cause thrombophlebitis—blood clots that can lead to death.

He said the warning letter to doctors and druggists is "usual procedure" following reports that use of a particular drug has produced side effects. It will be sent out this week.

A similar procedure was followed in 1961 after German reports said that the drug thalidomide caused congenital malformations when taken by pregnant women. The baby-deforming drug was later withdrawn from sale in Canada.

FOLLOWS REPORTS
Dr. Morrell said the warning letter to doctors and druggists follows reports from the United States and Britain of fatal cases of thrombophlebitis among women who used the drug, Enovid. Six women are reported to have died in the U.S. and one in Britain.

However, Dr. Morrell stressed there is no evidence that the drug caused the deaths.

Dr. Morrell said the warning also included the drug Orthovum because "it is so similar in its composition that it might be looked upon with suspicion."

Enovid can be obtained by prescription in Canada, the U.S. and Britain but it is under investigation by the two latter countries to determine whether there is any relationship between the drug and blood clotting.

NO CASES
Dr. Morrell said no alleged cases of blood clotting have been reported as a result of using Orthovum but the drug
