

### PRESIDENT PULLS BEAGLES EARS AGAIN

President Johnson, with the First Lady at his side, pulled the ears of one of his two pet beagles, "Her", after walking the dogs around the White House grounds today. The pet

## Government Is Under Fire For Labor Strife Handling

OTTAWA (CP) — Opposition frontbenchers raked the government Monday for its handling of Great Lakes labor strife, charging in the Commons that racketeering and persecution of scabbers still is going on despite federal intervention.

The three maritime union trustees appointed last fall to clean up the Seafarers' International Union of Canada drew a large share of the criticism.

Opposition Leader Diefenbaker, backed by several colleagues, called for a parliamentary inquiry into what the

### PERMANENT SPEAKER

Fulton has Program To Speed Commons

GENEVA PARK, Ont. (CP) — E. Davis Fulton, leader of the Conservative party in British Columbia and former federal justice minister, Monday proposed a three-point reform program to help Parliament "get on with the business of the country."

He said the House of Commons must:

- Give its committees much more scope and authority to examine departmental spending proposals and to conduct non-partisan studies.
- Authorize "gratuitous-increased" research and administrative help for members of Parliament.
- Accept both a permanent speaker and a system of time-allocation for debate on major legislation.

Mr. Fulton spoke to the 33rd Couchiching conference of the Canadian Institute of Public Affairs. He said the duties of Parliament do not change even though the political situation changes. He said the program was a system designed for two or three Canadians have without a clear mandate for their government, but they still demand leadership.

He believed his proposals still would leave time in the House for MPs to "talk, to demand, to inquire, to require explanation, to criticize, occasionally to withhold or delay consent until all aspects have been considered."

Mr. Fulton said Lowell Murray, his former executive secretary who followed him to B.C. to become director of organization for PCs there, has resigned his post to seek employment elsewhere.

He said Mr. Murray spent 10 days with him at his Kamloops, B.C. home and left Thursday for Ottawa and Halifax.

### Fulton Denies He'll Resign

TORONTO (CP) — David Fulton Monday denied reports that he plans to resign his post as Progressive Conservative leader in British Columbia and return to federal politics.

"There's not a shred of truth in it," Mr. Fulton said in a telephone interview from Geneva Park, Ont., where he is attending a Canadian Institute on Public Affairs conference.

Mr. Fulton, a former justice and works minister, resigned in 1963 to lead the B.C. Conservatives, but he and his entire slate of 45 candidates failed to win a seat during the B.C. provincial elections later in the year.

Mr. Fulton said Lowell Murray, his former executive secretary who followed him to B.C. to become director of organization for PCs there, has resigned his post to seek employment elsewhere.

He said Mr. Murray spent 10 days with him at his Kamloops, B.C. home and left Thursday for Ottawa and Halifax.

## Appeals Reused In Greece

CP from AP-Reuters  
NICOSIA — Archbishop Makarios, Greek-Cypriot president of Cyprus Monday rejected United Nations demand for freedom of movement of UN forces in all parts of the island.

In a reply to UN Secretary-General U Thant's urgent request that UN observers be allowed in sensitive areas, Makarios said UN observers in this case should be allowed in potential Turkish invasion-launching ports.

"The stationing of United Nations observers in Cyprus would be an understanding measure if United Nations observers were also to be stationed at Turkish ports where an armada for invading Cyprus has been concentrated," the archbishop said.

"The stationing of the day Makarios flew to Athens and held a 3 1/2-hour conference with Greek Premier George Papandreu.

**REAFFIRM VIEWS**

At the end of the meeting a communique was issued showing the two leaders had reaffirmed a "complete identity of views on the handling of the Cyprus problem."

## Priests Show Extremism 'Cannot Be Justified'

By MARVIN R. PINE  
ROCHESTER, N.Y. (AP) — Governor Nelson A. Rockefeller said Monday the racial violence in the Lake Ontario city, which has left four dead and 350 injured, is "clear evidence of extremism that cannot be justified."

Rockefeller added, after a tour of Rochester's riot-torn area, that his reaction was one of "shock and great sadness."

"As a governor," he said, "I deplore this kind of violence. It cannot be justified to achieve progress in a democratic society," he asserted.

The state government made its remarks at a press conference outside an army where hundreds of New York National Guardsmen and state police are quartered.

The troubled areas were quiet Monday, but the city remained an armed camp. Race rioting that broke out Friday night continued through the weekend and police were braced for more trouble, with 1,500 National Guardsmen standing by for duty if needed.

## Meeting Commons Honors Sir Winston

By RAYMOND E. PALMER  
LONDON (AP) — Sir Winston Churchill bowed to age and memories, took his seat in the House of Commons at question time Monday for the last time.

He first entered the House 64 years ago as a speechy former war correspondent of 23, fresh from his escape from a Boer prison camp and still lamed by the African war.

Today, at 89, he leaned heavily on a walking stick. Two fellow members — Sir Rold Dudley-Williams and Capt. L. P. Orr — helped him to his usual place in the seat below the gangway.

A crowd of several hundred saw him enter the House. They cheered and clapped as the old warrior alighted from his car.

Prime Minister Sir Alec Douglas-Home and the nation's then opposition Labor Leader Harold Wilson and Liberal Leader Jo Grimond, signed the roll of honor with Douglas-Home, will speak.

**THE MOTION READS:**

"Sir Winston Churchill: That this House desires to take this opportunity of marking with respect and honor the 80th birthday of the Rt. Honorable Gentleman the member for Southport and Southampton on record its unbounded admiration and gratitude for his services to his country and to the world; remembers above all his inspiration to the British people when they stood alone and his leadership until victory was won; and offers its grateful thanks to the Rt. Honorable Gentleman for these outstanding services to this House and to the nation."

"That a committee be appointed to prepare a memorial to the Rt. Honorable Gentleman to convey to him the thanks of this House."

After adoption of the motion Tuesday, the committee, led by the prime minister, will call on Sir Winston at his home at Hyde Park Gate and convey its

# General Election Seen To Be By November

## Little Hope Is Seen Now On Aircraft Repair Job

OTTAWA — The gloom over the future of Enamel and Heating Products of Charlottetown deepened here Monday as Health Minister, MP for Queen's, questioned Defence Production Minister C. M. Drury further about the situation at the Islande Industrial plant.

Mr. Macquarrie asked Mr. Drury if, following his meeting last week with two members of the P.E.I. cabinet, the minister was now in a position to give assurance of further aircraft repair and rework work for the Charlottetown plant.

"I had a long discussion with the representatives of the government of Prince Edward Island, and I think during the course of it I persuaded them that the suggestion just made by the honorable member was quite impractical," Mr. Drury replied.

Last week Industry Minister Leo Rostler and Health Minister Robert McNeil met with Mr. Drury and were told that there would be no further Sabre jet planes sent to the Charlottetown plant for overhaul. However, the P.E.I. ministers urged that Vodnos from Chatham, New Brunswick, helicopters from Shearwater and any Sabres that are to be sold to foreign countries, be sent to the plant. Mr. Drury promised to give these suggestions some consideration.

However, Mr. Drury's statement (Continued on Page 3 Col. 7)

## Malaysian PM Visiting Canada

By STEWART MACLEOD  
OTTAWA (CP) — Malaysian Prime Minister Tunku Abdul Rahman arrived here Monday night for a three-day visit to Canada during which he is expected to discuss possible Canadian aid for the federation, against an aggressive Indonesia.

"Canada has been a very good friend of Malaysia," said the tunku shortly after he stepped off the transport department aircraft that brought the 15-member Malaysian party to Ottawa from Washington.

## Moon Shot Delay Is For 24 Hours

CAPE KENNEDY, Fla. (AP) — Noise interference in a ground-based guidance transmitter Monday forced a 24-hour postponement of an attempt to launch the Ranger 7 spacecraft on a picture-lanching mission to the moon.

The launching was rescheduled for today in a period between 12:50 p.m. and 2:58 p.m. EDT.

The launch crew had a similar short "window" in which to launch the Atlas-Agena booster rocket on the desired course Monday and could not correct the trouble in time to meet it.

The countdown on the rocket had advanced to within 25 minutes of liftoff when the problem developed.

The National Aeronautics and Space Administration said a high noise level, something like "a lot of people" and the noise of a television set, was said the troop made the choice in 1960.

Since then each girl has saved \$50, with the troop contributing another \$50 for expenses.

"The idea of hearing French spoken made us choose Quebec. We thought it would be different. It is."

## Girl Scouts Like Canada

QUEBEC (CP) — For 26 girl scouts from Lexington, Mass., Canada proved more attractive than the New York World's Fair or a trip to Washington.

"We decided on Canada mainly because we would be going out of the country," explained Joan Peper, 15, who said the troop made the choice in 1960.

Since then each girl has saved \$50, with the troop contributing another \$50 for expenses.

"The idea of hearing French spoken made us choose Quebec. We thought it would be different. It is."

## Canada, U.S. To Be On Collision Course

By JAMES NELSON  
OTTAWA (CP) — The unsettled political situation in Canada and the constitution of the United States may be steering the two countries on a collision course so far as election campaigns are concerned.

Observers see a distinct possibility that Canadian voters may be called to the polls this autumn at about the same time as U.S. voters cast their ballots for Congress and the presidency.

While there may only be an outside chance that a Canadian election will be called for Monday, Nov. 2, political sources here shudder at the thought of conflicting stresses and strains that would be involved. The U.S. election, by law, is Tuesday, Nov. 3.

With U.S. newspapers, magazine and radio and television broadcasts spilling over into Canada, the average Canadian could be swamped with the vote appeals of Lester B. Pearson, John G. Diefenbaker, Lyndon B. Johnson and Barry M. Goldwater, not to mention T. C. Douglas, Robert Thompson, Earl Warren and any minority candidates who are entering the presidential race.

Not since the turn of the century, when Sir Wilfrid Laurier's Liberal party were confronted in power in Ottawa, have there been Canadian and U.S. elections so close to each other. The closest was in 1940, when Canadians voted in the March and Americans in November.

Liberal party sources are insisting the government has no thought of calling an election. They concede, however, that a "tentative decision" was reached on the subject of a possible election in the month of each other. The closest was in 1940, when Canadians voted in the March and Americans in November.

## Irish Moss Plant To Be Substantial

A "very substantial plant" for the processing of Irish moss will be built in western Prince Edward Island with a grant from the Atlantic Development Board, Premier Walter R. Shaw said last evening.

Final approval of the project was given here yesterday at a meeting of ADB officials, several cabinet ministers and Mr. Shaw.

The premier said the site for the plant will be selected "without too much delay." An ADB official is travelling in Prince County today to inspect several potential locations, he added.

A LARGE ONE

Shaw said the project may involve the federal fisheries department and cost figures are not yet available. He indicated, however, that the plant will be a large one with modern equipment.

The premier, commenting on the Irish moss industry in the province, said it currently involves "a lot of people" and is of "vital assistance to fishermen."

## Fire In Labrador Is 'Out Of Control'

WABUSH, Labrador (CP) — A giant forest fire in Labrador is burning out of control although it is moving slowly.

Short periods of rain and lower winds and temperatures surrounded by high barren ridges as the fire now is surrounded by large areas offered a brief respite to weary firefighters Monday who have been battling the blaze for more than three weeks.

The fire is burning an area made up of small valleys surrounded by high barren ridges. In the valleys, stands of timber are being consumed while foot-high reindeer moss on the ridges carry the fire rapidly from valley to valley.

The main obstacle to the fire's progress is the area of Lake Ashuanipi. The fire surrounded Shims Lake Sunday and now has reached the last part of the eastward movement.

**SMOKE THINNING**

Clouds of smoke which hung over the area were thinned, Chief Forest Ranger Joseph Doyle said in St. John's Monday. Spotter planes were able to direct ground fighting from the air. The planes were grounded because of poor visibility.

The fire started from more than 20 small fires set by lightning strikes about three weeks ago. These fires turned each other until they were a formidable wall of flames.

At one point, when firefighters were not sure of the size of the fire, a group of Labrador Indians were set down from a plane to sever several hundred pounds of fire fighting equipment.

After the plane had left, the fire swooped down a hillside toward them and they just ran. They were not sure of the size of the fire and themselves in a lake before the fire reached its shore.

## BALLET DANCERS MEET PREMIERS

Leading politicians and leading dancers met Saturday evening for a short ceremony during which a bronze plaque was presented to Confederation Centre by the Royal Winnipeg Ballet. Led to right Jim Clouston, Premier LeDrew and Premier Sheaw.
