At the polling for a member of Parliament in Wexford borough, to fill the vacancy caused by Healy's resignation, considerable animosity was shown towards the Liberal candidate, O'Connor Don, and he was hooted at as he drove through the streets. Mr. Sexton, M. P. for Sligo, who was present in the interests of Redmond, Parnellite candidate, implored the people to preserve order, but, notwithstanding his interference, windows of the O'Connor Don committee rooms were smashed. Many policemen arrived in town during the afternoon to assist in maintaining order. The election resulted in a victory for Redmond with 307 votes against 26 for the O'Connor Don. After the result of the polling had been declared O'Connor Don drove along the main street under escort. The party were pelted by the mob, and the police charged the crowd with bayonets. Several persons were wounded, one being pierced through the lung; 30 policemen were injured, 12 seriously. Some of the policemen were isolated, knocked down and trampled upon. Healy and Sexton finally undertook to restore order and the police were withdrawn. In a speech in the evening, Healy said the police had behaved unwisely.

[SPECIAL DESPATCHES TO THE EXAMINER.]

INVINCIBLE HANLAN.

He Defeats Ross Easily.

TORONTO, July 19.

More than fifty thousand people assembled yesterday at Ogdensburg, N. Y., to witness the great race for the world's championship, between Hanlan and Ross. The most intense excitement prevailed, and, during the day there was much speculation as to which would be the successful man. The general feeling, however, was that Hanlan would again be victorious, though Ross had many backers. At the word

GO, the two men started off together, Hanlan almost immediately shooting to the front. For a short time the race as was expected was close, both men determined

TO DO THEIR UTMOST.

Hanlan gradually forged ahead, and succeeded in winning easily by more than a quarter of a mile. It is said that Ross was not feeling so well as usual during the day. Hanlan was confident of winning. A great deal of money changed hands.

ANOTHER ACCOUNT.

OGDENSBURG, July 18.

The result of to-day's race will leave no doubt in any one's mind that Hanlan possesses an indisputable right to the title of the world's aquatic champion—a title which has been in dispute for some time, as many thought the stout New Brunswicker would beat over a good course.

AN IMMENSE CROWD GATHERED

to witness the race, probably more persons than ever gathered on any other such occasion. Courtney being Ross' choice as a referee, there was a good deal of quarrelling during the early part of the day, as Hanlan had some suspicion that Courtney would secure Ross some unfair advantage. The difficulty was bridged over at last by Hanlan doing as he ought to have done at first

ACCEPT THE SITUATION.

The early part of the day was dark, and a strong breeze blew straight up the course, making the water too lumpy for shells. As time wore on the water improved, and at 3 o'clock the referee's boat left the wharf and steamed over the course. The men were anxious to get to work, both being in splendid condition. About six o'clock the referee went over the course a second time in his own boat, and on his return notified the scullers to come to the start. Both men

APPEARED ON THE COURSE

soon after being signalled for. Ross won the toss for position taking the outside. Hanlan wore his colors, a red cap and blue shirt, and Ross was in white. The disparity in the size of the men was very noticeable. It was just 6.59 when the word

"GO"

was given. The water was in fair condition. Both men caught the water together and rowed along, almost even, to the quarter, Hanlan's bow tip being a few feet ahead. Hanlan made the first half in 3 minutes and 15 seconds, and was evidently slowly going to the fore. The stroke was 32 for Hanlan and 28 for Ross. The mile was made by Hanlan in 7 minutes and 7 seconds. The mile-and-a-half in 10 minutes, 58 seconds. About here

HANLAN STOPPED

for a second and then pushed along swiftly to the turn, increasing his lead at every stroke. Both rowed about 28 up to the turn. Hanlan took seven seconds to make the turn. Ross taking 24, and turning awkwardly. The return trip was a mere procession. When Ross finally straightened out, Hanlan was very nearly an

EIGHTH OF A MILE AHEAD

and he called out to the Referee's boat to come nearer, as he was lonesome. He finished nearly a quarter of a mile ahead, having stopped at two and a half miles and taken a drink of water. The record is put down at 28 min. Some saying it was only 27 min. and 2 sec.

The report was telegraphed all over the country, an hour after the race, asking who won, as the first report sent out had stated Ross had won; the cause of this being that signals were wrongly given from the water. As Hanlan drew up to the referee's boat and heard the official announcement, he said: "Send out that

BIG FOOL COURTNEY

till I make an exhibition of him." He then rowed over to Ross and shook hands with him. Pools averaged four to one on Hanlan. The St. John press speak thus: There seemed to be little doubt in the public mind that Hanlan was the best man in the world, but Ross had many friends, and yesterday when Hanlan declared he would not row with Courtney as one judge, people thought it was an excuse to avoid meeting his rival. As evening drew on the crowd around the telegraph office became very large and about 8 o'clock the report came that Ross had won, having

ROWED THE CHAMPION DOWNS

in four lengths, in the unprecedented time of twenty-six minutes. The scene on the streets, where there were gathered thousands of people,

BAFFLES DESCRIPTION.

The mass cheered to the echo, and frantic excitement prevailed. In the midst of this excitement a new message came telling how a mistake had been made by a reporter from the shore, and it was scarcely credited for some time. Many and loud were the complaints against the Western Union officials for sending out the false report.

Cairo Infected.

CAIRO, July 19.

Yesterday there were sixty deaths from cholera here, and the plague is hourly increasing. The cordons placed around the infected districts have been abandoned as useless.

Want of Confidence.

LONDON, July 19.

Lord Hartington has given notice that it is his intention to propose a vote of want of confidence in the Gladstone Administration, whether the Suez Canal agreement be withdrawn or not.

The Kolapore Cup.

LONDON, July 19.

The competition for the Kolapore Cup at Wimbledon was won by England. Canada stood second on the list.

Telegraph Notes.

At the Great Yarmouth meeting to-day, in the race for all ages the Maiden plate was won by Keene's colt, Potosi.

The London Standard says the opinion of Liberals concerning the canal agreement has modified and the Government is now more hopeful.

The London Post says that M. Tissot, the French ambassador now on furlough, will not return to London, and that his successor has been appointed.

The British ship Westminster, from Quebec for Liverpool, was abandoned water-logged in lat. 48 north, lat. 6 west. The crew arrived at Liverpool.

The London Daily News says the Conservatives state that Stafford Northcote will propose a vote of want of confidence in the ministry even if the canal agreement is withdrawn.

A strict enforcement of quarantine regulation has been ordered at San Francisco against all vessels which have cleared from or touched at ports infected with cholera, small-pox or yellow fever.

In an interview again, yesterday, DeLesseps said negotiations with British Government in regard to the canal had not been dropped, but had been simply left as they were when his son left London.

In the shooting of the St. Leger prize at Wimbledon, yesterday, five contestants, including Hinman, of the American team, and Young and Gibbs of the English team, scored 48 points out of a possible 50.

A cyclone blast, on the 17th inst., demolished Loftin & Evans' large pork packing establishment at Noblesville, Ind., and carried away the cupola of the Presbyterian Church and unroofed several business buildings.

The National Zeitung approves of the protest of the English people against the Suez canal agreement, and proposes that all the maritime powers buy the canal and place it under the control of an international commissioner.

A meeting of the Panama Canal Company was held at Paris on the 17th inst. The report of DeLesseps was read. He repeated his former statement that the canal would be finished at the end of 1883. The report also stated that the chief government engineer would assume the direction of active work on the canal which would shortly be undertaken. Referring to the Suez Canal project DeLesseps said: "We have negotiated loyally, without the relinquishing of any of our rights."

In the House of Lords on the 17th, Lord Granville, Foreign Secretary, stated that on the grounds of expediency he justified the agreement made by the Government with M. DeLesseps, whose absolute monopoly of the power to construct the canal across the Isthmus was not admitted in the negotiations. Lord Salisbury was surprised to hear that the concession of DeLesseps gave him power to bar the passage between the two seas. He argued that neither the Sultan nor Khedive was competent to make such a grant.

Twelve deaths occurred at Cairo, Wednesday, and forty-two at Menzaleh. The sanitary commissioner has rejected the proposal to isolate Alexandria. Special despatches from Cairo state that there were ten deaths from cholera on Monday. The cordons around the infected district have all been abandoned. Several cases of cholera have developed at Palma, Majorca. Many families are fleeing thence to the mainland of Spain. The Government has introduced a bill in the Cortes for a credit of \$1,000,000 pesetas to Jeffray the cost of the adoption of all possible measures against the introduction of cholera into Spain.

At Wimbledon on the 17th inst., the American team, completed the contest for the cup and £50 presented specially for their competition. They fired at 200, 500 and 600 yards. The highest scores were made by Joiner and Hinman, who tied for the prize. In the contest for the Queen's prize, Sergeant McKay, of the First Sutherland Regiment, was victor. Three targets have been assigned to the American team for the International match, and three to the British team. The names of the twelve men who will compose the American team will be announced on Friday morning, when the match will begin. Although Joiner and Hinman tied in shooting for the cup, Joiner made the best score in Thursday's shooting, and consequently won the prize. In the contest for the national challenge trophy, yesterday, the score made by Wattleworth, of the English team was 95, not 105 as reported. In shooting off the ties Hinman of the American team, made the highest score and was awarded the prize.
