

ANOTHER VICTORY.

Mr. R Morrow Cured of Lumbago
Dodd's Pills

TORONTO, Nov 28.—The vast majority of Torontonians know and esteem Mr. R. Morrow, the able and popular agent for the Toronto Auer Light Co.

For this reason the following statement made in writing by Mr. Morrow, possesses unusual significance.

"Two years ago I was attacked by Lumbago and Urinary trouble which caused me intense suffering. I took several different remedies without any benefit. Then I began using Dodd's Kidney Pills, and was completely cured by them."

Lumbago is unusually prevalent this fall. All sufferers should know that Dodd's Kidney Pills are the only known cure for it. They never fail.

The city of Santiago, Cuba, is now in a fairly healthy state. The streets are no longer used as sewers. The garbage of the city is burned every day.

Keep Minard's Liniment in the House

A yarn comes from the far west, a slot machine bearing the announcement "Put a quarter in the slot and get a surprise." Sometimes a tenderfoot who thinks he wants a surprise drops in a quarter. He gets the surprise all right, for the mechanism points a loaded revolver at him and displays this notice: "Drop in all your money and your watch, or I'll explode in 30 seconds."

Dr. Chase Cures Catarrh after Operations Fail

TORONTO, March 16th, 1897.
My boy aged fourteen, has been a sufferer from Catarrh, and lately we submitted him to an operation at the Central Hospital. Since then we have resorted to Dr. Chase's Catarrh Cure, and one box of this medicine has made a prompt and complete cure.

Prominent Americans are discussing the possibility of legalized polygamy in Utah now that it is a state. The majority of the inhabitants believe in polygamy, and they have now the constitutional right to give it the sanction of law at any time. A constitutional amendment, similar to that dealing with slavery, will be necessary to avert the legalizing of that survival from a barbarous past.

To all who find themselves with health gradually slipping away, Kidneys and Liver so disorganized that they are incapable of keeping the system free from poisonous waste material, Stop-ach Disordered, Bowels Constipated, Head aching, Back Pain, take Dr. Chase's Kidney-Liver Pills. The quick way they help you back to health will surprise you.

The Presbyterian missionaries of West Africa have discovered some new cases of horrible superstition among the natives. One of the brutal practices consists in the sacrifice of all twin children.

Chronic Eczema Cured.

One of the most chronic cases of Eczema ever cured is the case of Miss Gracie Ella Alton, of Hartland, N. B. On a sworn statement Mr. Alton says: "I hereby certify that my daughter Gracie Ella was cured of Eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, druggist, of Hartland also certifies that he sold our boxes of Dr. Chase's Ointment which cured Gracie Ella."

The Age of an Oyster.

It is just as easy to tell the age of an oyster by looking at its shell as it is to ascertain the age of a horse by examining its teeth, or a tree by inspecting the circles revealed by the ax or saw when it is laid low. When the oyster is 6 months old, it is as big as a dime; when 1 year old, it will cover a silver half dollar, and when 2 years old, will be about the circumference of a silver dollar.

The oyster, unlike the crab, is not obliged to seek new quarters or build a new house every time he grows appreciably. The extensions that he puts on his house are clearly marked by a well defined ridge.

Oysters are esteemed to be at their best when between 4 and 5 years of age, and the planters endeavor to protect the beds for that length of time. Conscientious oyster men—that is, men who are not inclined to kill the goose that lays the golden egg—always return to the bed oysters that are too young, but in case a patriarch is brought up, over whose shell the tides of from 8 to 12 winters and summers have ebbed and flowed, he is sent to market, where he is put at the bottom of the heap and sold with his younger and more luscious companions.—Pearson's Weekly.

The Ethical Process.

Mr. Huxley says ingeniously (speaking of societies of animals) that the ethical process "is, strictly speaking, part of the cosmic process, just as the 'governor' in a steam engine is part of the mechanism of the engine." But we know how the governor got into the engine; we don't know how or why early men introduced the ethical process. "It was their nature to," and the ignorant, superstitious blacks say that a god, Baïame, gave them this law. Yet in some ways morality does seem to pay, practically, though not when carried to an extreme. The universe, like the traveling tutor, seems to whisper to its pupils:

Practice, youths, a little virtue, Just as much as will not hurt you. This is ordinary morality. Go much further, and you are a saint. The Isle of Saints has ever been the most distressful country. Whither in the world are these reflections hurrying us? I have no idea beyond an ineradicable conviction that the ethical process, plus some "governor" not yet invented, will win in the long run, and that we must back it with our best exertions.—An-

"She Carries Her Heart on Her Sleeve"

What a boon to many a man or woman if this were literally so—How many spirits are broken because this particular organ is shackled by disease—and yet how many times has Dr. Agnew's Cure for the Heart brushed against the grim reaper and robbed him of his victim.

Disease of the heart are by far the most treacherous of ailments which afflict humanity—ruthless to old and young alike—not insidious but violent, for when the heart fails the whole system suffers violence. Discussing causes here will not console the suffering one. The one great yearning of the heart-sickened patient is how to get relief and a cure. Dr. Agnew's Cure for the Heart stands pre-eminently to-day as the star of hope to sufferers from heart trouble, and so far past the experimental period that thousands to-day proclaim, in no uncertain sound, the belief that were it not for this great remedy they would have long ago passed into the great beyond.

Most eminent doctors, whom heart cases have baffled, have tested Dr. Agnew's claims, and to-day they prescribe it in their practice as the quickest and safest heart remedy known to medical science. What are the symptoms? Palpitation, fluttering, shortness of breath, weak and irregular pulse, swelling of feet and ankles, pain in the left side, chilly sensations, fainting spells, uneasiness in sleeping, dropsical tendency and as many more indications that the heart is deranged. Dr. Agnew's Cure for the Heart is a heart specific; and no case too acute to find relief from it inside of thirty minutes—a powerful cure.

Mrs. Jno. FITZPATRICK, of Gananoque, Ont., after having been treated by eminent physicians for heart disease of five years' standing, was discharged from the hospital as a hopeless incurable. She suffered from acute pain and palpitation, her feet and ankles swollen, and there was every tendency to the dropsical form of heart disease, but the lady procured Dr. Agnew's Cure for the Heart as she declared, as a last hope. One dose relieved her of a very acute spasm in less than thirty minutes, and three bottles cured her—not a symptom of the trouble remaining.

CONDUCTOR WILLIAM G. LUCAS, of the N. & W.R.R., and living at Hagarstown, Md., suffered for years with acute valvular form of heart disease—cost him many a "lay off" from his daily duties on the road, and he spent a small fortune in remedies and treating with heart specialists in promise of a cure, and all ended in disappointment, until a good friend, who had been benefited, recommended Dr. Agnew's Cure for the Heart. He tried it, and found it gave him relief and comfort almost immediately. He continued its use until a few bottles were taken, and to-day he is well and strong, and says, "Tell all heart sufferers that I can highly recommend this great remedy."

DR. AGNEW'S OINTMENT cures eczema, salt rheum, tetter, scald head and all itching skin diseases: cures piles in three to five nights. 25 cents.
DR. AGNEW'S CATARRHAL POWDER relieves cold in the head or hay fever in ten minutes—will cure most stubborn and long standing catarrh cases quickly and permanently.
DR. AGNEW'S LIVER PILLS cure constipation, biliousness, sick headache, torpid liver—clear the skin. 40 doses. 50 cents.

How Lang in Longman's Magazine.

Neither Did the King. It is told of King Frederick VI of Denmark that while traveling through Jutland one day he entered a village school and found the children lively and intelligent and quite ready to answer his questions.

"Well, youngsters," he said, "what are the names of the greatest kings of Denmark?"

With one accord they cried out, "Canute the Great, Waldemar and Christian VI!"

Just then a little girl, to whom the schoolmaster had whispered something, stood up and raised her hand.

"Do you know another?" asked the king.

"Yes—Frederick VI."
"What great act did he perform?"
The girl hung her head and stammered out, "I don't know."
"Be comforted, my child," said the king. "I don't know either."

Hair Powder. The cause of the general disuse of hair powder was the high price of flour. It was thought little less than criminal that flour, which was almost beyond the reach of some of the very poor, should be used by the rich as a mere fashionable luxury of dress.

Voluntary associations were formed, the members whereof bound themselves not to use hair powder. In a similar way the abolitionists bound themselves not to use any sugar whose production involved the employment of negro slaves.—Notes and Queries.

Why Do We Yawn? There can be little doubt that one of the objects of yawning is the exercise of muscles which have been for a long time quiescent, and the acceleration of the blood and lymph flow which has in consequence of this quiescence become sluggish; hence its frequency after one has remained for some time in the same position—for example, when waking in the morning.

Co-operating with this cause is sleepiness and the shallow breathing which it entails. This factor, as well as muscle quiescence, is apt to attend the sense of boredom which one experiences in listening to a dull sermon; hence it is that the bored individual is apt to yawn. As in the case of sighing, the deep breath which accompanies the act of yawning compensates for the shallow breathing which is so apt to excite it.—New York Herald.

Strangely Wounded. "Some of the applications for relief sent to the local committees by sufferers from bush fires are strangely worded," says the Melbourne Argus. "Here is an extract from one by a widow: 'I have in family four dairy cows, two pigs, a horse and three children, all these being by my first husband, and two goats in full milk and a baby by my second husband. All of the animals was lost in the fire.'"

Our "Holy City." One of the serious things told in Mark Twain's "Along the Equator" is that formerly all that people in India knew of the United States was the name of George Washington. Now they know also the name "Chicago, the holy city," where the congress of religions was held in 1893.

A Limit to Trust. "She said she would trust me forever with her heart."
"Well, that was satisfactory."
