in the line in December. She will take rank and class with the Hibernia, with all the improvements experience in the service has suggested. When this is effected, these ships will present a class of steam-vessels without their equal in any service.

We also learn that the contract, between the proprietors and the British Government for the conveyance of the mails, semi-monthly, between Liverpool, Halifax and Boston, has been renewed for ten months.—*Boston Transcript May* 21.

HALIFAX, June 10.

The Royal Mail Steamship North America arrived on Sunday last, in 3½ days from St. John's, N. F., via Arichat. The papers are devoid of news.

The Town of Harbour Grace has been nearly all destroyed by fire. It was burning when the *North America* left.

Military Movements.—The left wing of the 52d Regiment, we understand, are expected here in a few days from New-Brunswick. Upon their arrival, the detachment of Rifles at Prince Edward Island, Sydney, &c. will be relieved by detachments of the 52d. The out posts in the neighbourhood of this Garrison will be relieved by the Royals.

Naval.—On Tuesday H. M. Ship Eurydice, 26, Capt. Elliot, and Hermes, steamer, Com. Carr, sailed for Havana. On Wednesday H. M. Ship Scylla, Com. Sharp, for the Bay Fundy, and on Friday H. M. Schr. Fair Rosamond, Lieut. Bullman, for coast of Newfoundland. Resistance, troop ship, Com. Patey, for Portsmouth, with invalids from Regiments in Canada and this garrison.

Free Church.—The total amount raised in this city, in Pictou, and in Prince Edward Island, in aid of the funds of the Scottish Free Church, was, we are informed, something over £220 Currency.

Liberal.—Several of the workmen of the Sydney Mines, members of the Catholic Church, have contributed toward the erection of the Presbyterian Church in their neighbourhood, whilst many of the Presbyterian persuasion, on the other hand, have displayed equal liberality toward the Catholic Church now erecting there. We are gratified to observe these evidences of the universal spread of a more enlightened and tolerant spirit, amongst Christian sects.—*Cape Breton Spirit of the Times.*

Guano.—We learn that an enterprising Merchant of this city is fitting out two vessels for the coast of Africa, which will return laden with Guano.—*St. John Chronicle.*

We are happy to learn that an enterprising shipowner residing in St. Stephens, N. B. has realised upward of £4000 sterling profit, upon a cargo of Guano recently obtained by him from the coast of Africa, upon his own account, and sold in England.—*Temperance Telegraph.*

(From the Royal Gazette.)

The June Term of the Supreme Court for Prince County, opened at St. Eleanor's on Tuesday last, and terminated on Saturday last:—

More than the usual number of cases, both Criminal and Civil, were disposed of, and some of much importance. Thomas Hunt, Esq. was chosen Foreman of the Grand Jury. His Lordship in giving his Charge, alluded to the offence of Conspiracy, certain cases of which were to be preferred, against a number of individuals charged with combining together, to resist the payment of rent, and for having opposed the High Sheriff and his Officers, and prevented them serving process of the law, for the recovery of rent. The Grand Jury found Bills of Indictment against a number of persons, Tenants on Township No. One, upon the above charge; but of these the only persons who had been arrested were, Cornelius M'Carthy, Edward Christopher and Michael Brennan, who at first traversed the indictment, but on the morning which they had appointed for trial, withdrew their pleas, and pleaded guilty. From Affidavits filed by the Crown Officers, it appeared that M'Carthy and Christopher, were the principal persons engaged in the conspiracy—they had convened meetings, organized a guard for every approach by road to the Settlements, and upon the alarm being given, had headed a mob of nearly 200 persons, and prevented the Sheriff from coming to the Township. The Court sentenced the two latter to twelve months' imprisonment each; and Brennan, who did not appear to be so deeply implicated in the offence, to the term of six months. Indictments were also found against Messrs. William Clark, Jun., and Edward Montgomery, for refusing to attend the Sheriff at a place appointed, upon his application for their aid to protect him in arresting these persons, who had obstructed him in the execution of his duty. The former of the two was found guilty, but his refusal having apparently been owing more to a mistaken opinion of his liability to attend, than to any wanton disregard of the laws, the Court only imposed a nominal fine upon him; the other (Montgomery) was not called up for trial, an Affidavit having been produced, by which it appeared, that from some affection of one of his knees, he was not at the time able to travel; upon which the Attorney General entered a *noli prosequi* as to him.

The Queen at the prosecution of George Tanton vs. Thomas Coughlan The Defendant was tried for Larceny, in feloniously taking from the Prosecutor a Horse which he had previously sold and delivered to him, in payment of a debt and for other considerations. The defence set up was, that the horse was merely sold to protect it for a time from the demands of more urgent creditors. The prisoner was found guilty and sentenced to 4 months' imprisonment.

The Queen at the prosecution of James Hilson vs. Connors. The Prosecutor was an Overseer of Statute Labour, and in discharge of his duty on the Highway was interrupted and assaulted by the Traverser while throwing up clay by himself and his men from the side to the centre of the road. Defence, that the soil was part of the Defendant's land. The Defendant was found guilty of the assault and obstruction. Fine £5.

Several civil causes, (most of them ejectments) and a number of appeals were disposed of. The most important decision of this class was the case of Stephen Jeffery *vs.* Thomas C. Compton, wherein the new trial moved for in Hilary Term last in Charlottetown was refused, and the verdict for the Plaintiff affirmed.

We regret that from the late period at which our information has reached us, we are not enabled to give a report of his Honor the Chief Justice's Charge to the Grand Jury, as well as the address of the Crown Officers to the Petit Jury, wherein we understand the law as applied to the conspiracy and riots at Lot One, and the nature and effect of those offences upon society at large, as well as the nature, extent and importance of the authority which is intrusted to the Sheriff of a County, and to other Peace Officers for the mutual benefit of society, were eloquently and most ably laid down and descanted upon.

Agricultural Improvements.—At a time like the present, when we are, as a community, thrown upon our own resources, it gives us gratification to notice any advance or step in the improvement or cultivation of those resources, convinced that although the immediate beneficial result may not be apparent, yet thereby emulation will be excited, and the ultimate consequence will, and must be advantageous. It is in the recollection of many of our readers that, not many years since, fat stall-fed beef was at this season considered a rarity. Our Market now continues well and superabundantly supplied. Last week we had the opportunity of seeing a drove of very superior beasts in prime order, 20 in number, averaging 6½ cwt. each, shipped on board the Schooner Margaret, for St. John's, N. F., being the remaining part of the large stock which were stall-fed last Winter at the extensive establishment of our enterprising fellow-townsman, George Coles, Esq. We do not not mean to say that good fat beef was never before exported so early, but that the practice of stall-feeding to the extent of 30 or 40 head in one establishment has never been systematically pursued; and we sincerely hope, that the market with which Mr. Coles will meet, will be such as to encourage him to continue the enterprise, and by this means give the Farmer a chance in the Autumn of disposing of their surplus stock, in addition to those at present open to him for grass-fed cattle.—*Ib.*

We have been favoured with the perusal of a private letter from St. John's, N. F., dated the 5th June, from which we learn that the schooner Alpha, fitted out by Messrs. McKenzie and McKie, of New London, for the Seal Fishery, and commanded by Captain Lonergan, had arrived in St. John's, N. F. on the day the letter above alluded to was written. She had about one hundred seals on board. The Alpha was jammed in the ice, for a considerable time, in White Bay, to the north of Newfoundland; and it is stated that about one half her crew left her on the French shore, from want of provisions.—*Palladium.*

THE FAMILY LIFE MEDICINES.

THE celebrated *Life Pills* and *Phœnix Bitters*, prepared and sold by Dr. Wm. B. Moffat, 375, Broadway, New York, may now be said to be the most respectably established and extensively adopted family medicines in the United States. They have not only won the sanction and recommendation of all the candid and philanthropic portion of the medical profession, who have observed their invariable efficacy in general derangements of the stomach and bowels, and their astonishing effects in many varieties of acute and chronic disease, but that is far better, these medicines have recommended themselves, and fully and fairly achieved the distinguished and now certainly pre-eminent position which they now occupy in public and domestic estimation. They are proved by their works, and make no appeals to vulgar credulity. If the proprietor were disposed to make an invidious comparison between these self-established medicines and any others, he might confidently assert and challenge contradiction that there is no medicine known to the medical profession, or named in their books, concerning which so many clear, unquestionable and conclusive evidences of usefulness and remarkable cures are recorded as those which he can adduce concerning the Life Pills and Phœnix Bitters. If it be admitted that sufferers are the best judges as to whether a remedy has relieved them and restored them to health and strength, then is the evidence in behalf of these medicines decisive and irresistible. Dr. Moffat is in possession of an immense accumulation of voluntary testimonials from respectable persons and families in all parts of the Union, far and near, who give their names and residence to the unsolicited statement that they have been completely and speedily cured of the following diseases, and of many others not here enumerated, by these Life Medicines alone, when other medicines had been long employed in vain, viz: Scrofula, in its most dreadfully advanced and destructive stages, when large portions of the flesh and bones of the face had been destroyed; Piles of five, ten, twenty, thirty and even thirty-five years standing; Rheumatism, both acute and chronic, of the most hopeless character; Turgescence of the Liver, and various other liver complaints; Bilious Cholic, and every conceivable variety of bilious affections; Marasmus Tabes, or Decline, and Marasmus Phthisic, or Consumption, in more advanced stages than any on record; Dyspepsia, in all its chronic and acute varieties, with its frightful train of distressing symptoms; Worms of all kinds, both in children and grown persons Diarrhœa, both serous and bilious; Costiveness, both habitual and occasional; Fever and Ague, in its three principal varieties, and intermittent and remittent fevers, of all kinds; Hypocondriosis, and other extremely complicated nervous affections, with nervous debility in general; Salt Rheum, Running Scald, and eruptive diseases generally, including Enanthesis, Erysipelas or St. Anthony's fire, and sallow, unhealthy complexion; Palpitation of the heart, and Determination of blood to the head, settled pains in the organs, limbs, back, head and side; affections of the bladder, kidnies, spleen, throat, and pleura; jaundice, dropsy and gout; together with those general affections of the system which arise from complicated causes.

The certificates of these cures are in the proprietor's possession, and will readily be shown to all who desire to see them. A small selection from them have been published in Moffat's Medical Manual, of which a new and enlarged edition is preparing for the press. The reason why these medicines, which in ordinary family use operate merely as mild and effectual laxatives, cure so great a variety of formidable diseases is, that while as catharties, cleansing the alimentary canal, and relieving the liver and the absorbent vessels of all impurities, they lay the foundation for the cure of all specific diseases, they are compounded of unique and unprecedented variety of choice and exquisite ingredients, some of which are almost unknown to the profession, which exert a specific action upon many complaints, without in the slightest degree affecting the general system, otherwise than as simple purifiers, when those complaints are not present. Both the Pills and the Bitters are mild and agreeable in their operations, causing neither prostrations nor nausea, and requiring neither confinement nor peculiar diet. Their effects are uniformly to produce an immediate sense of renovated health, and new life and vigour to both body and mind. They cannot be taken without benefit, and they should be procured both by individuals and heads of families, and constantly kept on hand, not only as remedies but as preventatives of disease. They are prepared and sold wholesale and retail, by Dr. William B. Moffat, 375 Broadway, N. Y., and also by the Agents.—New York.
