STRICT ATTENTION

to Business, Honesty and Square Dealing, and paying
Cash every time, is what has placed
L. E. PROWSE
to the front of all competitors, in CLOTHING, HATS, &c.
He does not advertise to sell goods at cost, but he guarantees to sell from 10 to 25 per cent less than those who do advertise to sell at cost.
He does not try to deceive the people by making a big blow and offering paltry rewards, but tries to do things right and has the goods to back him up in what he advertizes.
He has now about 6,500 HATS and \$4,000 worth of CLOTHING, which he guarantees to sell from 10 to 25 per cent less than any house in the trade. A lot of this Clothing was bought less than half price, and will be sold less than half price.
He does not ask the people to believe his advertisement until they see his prices; he knows then they will believe, and knows that the goods and prices back him up every time.

All goods freely shown, or sent to any part of the town.
Please don't forget to call.

L. E. PROWSE,

Sign of the BIG HAT, 74 Queen Street.

F. W. KENNEDY & CO., DRUGGISTS,
343 4TH AVE., N. Y.

ABSOLUTE PURITY.

THE following analyses (made by the Dominion Analyst) of three BAKING POWDERS sold in this market should put a stop to the unjust efforts of the Royal to mislead the public as to its being the only pure Powder. These analyses show that other Powders are as pure and wholesome:

W. SAUNDERS, Dom. Analyst, St. John, N. B. reports:
Royal—Contains Alkaline Carbonates—a mixture consisting mainly of Bi-Carbonate of Soda and Potash—adulterated with about 20 per cent of Starch.

W. F. BEST, Dom. Analyst, St. John, N. B. reports:
Pure Gold—Contains Cream of Tartar, Carbonate of Soda—fresh and pure.
(Nov. 19, 1882—Not adulterated; same as usual.)
April 7, 1883—Not adulterated; same as usual.
June 1, 1881—Fresh and pure; same composition as usual.

MAYNARD HOWMAN, Dom. Analyst, Halifax, N. S., reports:
WOODILL'S—Of good quality; contains nothing injurious.

WOODILL'S German Baking Powder has a reputation for purity and wholesomeness now nearly 20 years.

Political Meeting at Miscouche.

A very large, respectable, orderly meeting of the Liberal Conservatives of Miscouche assembled in the Hall at that village on the evening of the 10th inst., to hear the late representatives—Hon. John Lefurgy and Dr. Gillis—give an account of their stewardship, and to nominate a candidate for the western end of the district.

Dr. Gillis, on taking the platform, was enthusiastically cheered by the large audience. The following is a brief synopsis of his speech:—

"If you go back four years you will remember that a delegation asked me to accept a nomination, in the interests of the District. I did so with hesitation. I have now to thank you for the support you then gave me. Our success on that occasion was due to the unanimity with which you supported us. There is no part of the Island which has been better used by the Government than Miscouche, and the Government deserves well of you." He then referred to the roads and other local affairs of the place. He compared the receipts and expenditure of the years 1877-78 with 1884-85; reviewed the actions of the two Governments, showing how worthy the present administration were of the people's support. He dealt fully with the expenditure on education, roads, bridges, &c., in a manner that carried conviction to the minds of his listeners. "If," said he, "the present Government have, with less revenue than the Davies' Government, kept your roads and bridges and schools in better condition than they were in 1878, why should you withdraw your allegiance from them? They have opened up new roads and built new bridges in this district, and you have to thank them for a school that stands at the head of its class in this Province." He referred to wharves. He showed that the country is now governed about \$130,000 cheaper per year than under Davies, and at the same time more efficiently. He then dwelt for some time on purely local affairs, and showed that the people of the western end of the District had been very liberally dealt with in the distribution of public money, and the position in which they would stand should again saddle the Province with the Assessment Act. He showed that of the 16,000 voters in this Province, Miscouche is represented by 206 voters, who, under Assessment Act, had to pay, including land and poll taxes, about \$4 each, or about \$800 yearly in this part of the District, or \$3,200 in four years, where not one dollar is, at the present time, collected in that shape. He then fully explained the provisions of the Medical Bill introduced into the Legislature last session, and showed the necessity of such a law, this being the only Province of the Dominion where the people are not protected by law from the dangerous practice of quacks, who come here from other Provinces to compete with qualified medical men. If it is necessary there to protect the public by such a law, it is just as necessary here, for health is just as dear to us as to any other people. The present state of the question is neither fair to medical men, nor does it afford protection to the sick. He disclaimed being the author of the Bill, which was the work of the leading medical men of the Province, and put into his hands to carry through the House of Assembly. We had a more stringent law in 1871 than the one proposed, but it had lapsed five or six years ago. The man who cannot qualify under the provisions of the Bill should not be allowed to practise. It is also needed as a defining bill in connection with the Vaccination Bill. Twenty-nine members out of thirty were in favor of the Bill.

In conclusion of his able address, which lasted upwards of an hour and a quarter, and which was attentively listened to and frequently applauded, the Dr. again thanked his constituents for their support at the last election, and assured them that whoever they should nominate would receive his hearty support, and he hoped the people of Miscouche would unite as one man and elect their candidate by a sweeping majority, and show their approval of a Government which had dealt so liberally and so justly with them, and which had left as much money as possible in their pockets. The Doctor resumed his seat amid prolonged and hearty applause.

After lengthy speeches from Hons. John Lefurgy and J. O. Arsenault, who were enthusiastically received and attentively heard, and who fully reviewed the political situation, Dr. Gillis was proposed by Hubert Gaudet, Esq., and seconded by D. Malone, Esq., as a candidate to run in conjunction with Hon. J. Lefurgy. The motion was carried by an overwhelming majority. The Doctor thanked the electors for the nomination, and believed that they would work together, sink all little differences, if any existed, and elect himself and his colleague by such a handsome majority as that with which they had given him the nomination.

After short speeches by H. V. DesRoches, Esq., J. A. McDougall, Esq., and others, a vote of thanks was tendered the Chairman, Felix Gaudet, Esq., and the meeting adjourned in the best of humor, and evidently well pleased at having had such an opportunity of expressing their unbounded confidence in their late representatives, and determined to unite in again returning them to Parliament.

ONE PRESENT.
Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites
Is more reliable as an agent in the cure of Consumption, Chronic Coughs and Emaciation, than any remedy known to medical science. It is so prepared that the potency of these two most valuable specifics is largely increased. It is also very palatable.

Bertha Wolf, a German girl living in Southwest Colorado, was the first discoverer of gold in the San Juan mountains. She is worth \$100,000.

THE NEWS OF THE DAY.

Georgia built, chartered and conducted the first female college in the world.

The death rate from chloroform is, according to a recent estimate, 1 in 1,600.

Halifax's imports and exports for May amounted to \$277,988 and \$372,487 respectively.

New Zealand has 120 newspapers, including 30 dailies, to a population of only 400,000.

The man with a No. 15 neck and a No. 14 collar has a hard struggle to make both ends meet.

The Sacramento Bee claims that the Chinese take \$15,000,000 a year out of California, sending it home.

"For a young woman to begin to pick lint off a young man's coat" is said to be the first symptom that the young man is in peril.

A Nevada prospector, led by the debris which some squirrels had dug out of their burrows, found a gold ledge which he has sold for \$35,000.

At a revival meeting in Hopkinsville, Ind., occurred the wedding of a colored couple who begin their married life with 32 children, the groom having 22 and the bride 10.

There are nearly 150,000 owners of real estate in Philadelphia, who pay taxes upon the 225,000 separate properties assessed in the city limits. These figures show a large proportion of taxpayers than can be found in any city in the United States.

The skeleton of a man in a sitting posture has been unearthed at Nevada, Col., by workmen engaged in grading. The oldest inhabitant was unable to account for the presence of the remains in the locality, being more than half a mile from the nearest cemetery.

A Cincinnati tobaccoist asserts that many of the women of that city smoke cigarettes and even cigars. They do it secretly, and often meet and enjoy a regular smoke, just as men do at a club room. Many servant girls come to love the weed from seeing their mistresses indulge.

A colored child had a fall from a two story building the other day, and his mother, in relating the accident at the grocery store, said: "Dear dat chile, was a coum' down feet wud, wid chery chance o' bein' killed, when de Lawd he turned him over, de chile struck on his head, an' dere wasn't so much as a button off."

Clark North, a blind man, carries the mail from Claryville, Sullivan County, to Big Indian, Ulster County, N. Y., a distance of 21 miles, three times a week. The road is so rough as to be impassable for vehicles, and the route is accomplished on foot. He has been the mail carrier on this route for 30 years, and has never missed a trip either in summer or winter.

Prince George, the second son of the Prince of Wales, paid marked court to Princess Helene, daughter of the Comte de Paris, during the marriage fetes in honor of the union of the Duke of Braganza and Princess Amelie. The opinion is prevalent in court circles that the prince is madly in love with Princess Helene, and many predict that an effort will be made to accomplish their marriage.

Worcester, Mass., has equipped its central police station with a lightning bolt tester, which gives speedy proof of whether the lightning is over or under the three per cent standard. A policeman who gets hold of a sample of beer sold at any saloon, dashes to the station, where it is tested in less than 10 minutes, and if above three per cent, the manacles are on the unlucky saloon keeper ere he has time to hide himself.

A story with just a suggestion of Romulus and Remus in it comes from Toulouse, where a working woman was in the habit of leaving her baby under a tree guarded by a faithful dog. As days passed she thought the baby's appetite failed, but still it thrived. One day she found the dog standing over the infant and calmly suckling it. The mother thought the arrangement a good one, and it has gone on, the baby doing well under the treatment.

The Rev. Arthur Gray-Hone, of Tankerton Towers, Kent, England, who recently died, has left his two sons the comfortable sum of £400,000. This is a good deal of wealth for a clergyman to possess, and some of the brethren on this side of the water would doubtless like to know how he saved it out of his salary. The cable does not say anything about it, but it is pretty certain that he never allowed his parishioners to give him a donation party.

The wedding of a young lady of Portland, Me., was fixed for Wednesday of last week and she was making preparations for the occasion. The other day she left the dinner table and proceeded to the sewing room, where, all at once, a shriek was heard, and the family rushed to the room to hear her cry most piteously: "I cannot see." A leading surgeon was sent for who said she was suffering from paralysis of the optic nerve and never would recover her sight.

A great political question is agitating the United States,—whether the country from end to end. It is all about the fees paid to Rev. Mr. Sunderland for performing the marriage ceremony for President Cleveland. The Democrats maintain that the fee was \$500, and produce evidence. The Republicans claim it was only \$100, and produce evidence. The President, who knows, is mum; the preacher, who knows, is silent; Dan Lamont, who may know, is discreetly dumb, and the war goes on. We are afraid it will be long before the American nation will have time to attend to that little fishing matter of ours.
