to be found within the charmed circle. But stop, O Pen! thou art trespassing on a delicate topic. When thou hast learned to be cautious, reticent, and highly respectful, we shall permit a return to this branch of the subject. * * *

Looking at the question from all points of view, we are confident there will be, at the approaching Conference, little or no earnest advocacy of one united Parliament involving the extinction of the smaller ones. Any attempt to destroy our small Houses of Assembly would be quite unavailing, as the Delegates have no power to conclude anything; but the attempt will not be made. Shall we, then, think seriously about a Federal Union? We believe we ought. Great Britain is constantly urging upon our attention a Union of some kind. The only kind of Union we can have is a Federal one. That means little or nothing short of separation from Great Britain; for it is all moonshine to talk of an Independent Federation with a nominal Viceroyalty, which would be only a useless and expensive bauble tacked to the British Crown. If we make up our minds for an Independent Federation, such as Mr. Coles has briefly sketched in his letter, we must prepare to bid good bye to old Mother England, and to lay on the shelf with other rubbish those antiquated notions of loyalty for which she herself has not now that sentimental regard with which they were cherished in the days of "auld lang syne." Are we prepared to do this? and what will we gain and lose by Federation? are the most important branches of the general question, to which we shall give our attention next week.

THE SCOTCH GAMES.

We are indebted to the *Islander* for an account of the Scottish Games on Wednesday last. They were, indeed, well attended by Scotchmen from all parts of the Colony and from Nova Scotia. The Games appeared to give great pleasure to all who witnessed them—the Sons of the Gael especially were enthusiastic and demonstrative in their admiration. At the conclusion of the Games, the Hon. Col. Gray, who is President of the Caledonian Club, was, *we thought, very unhappy in the* few remarks he made on the Scottish Gathering. He apologised for the Club not appearing in proper costume—(he meant the kilts; some members of the Club we think, would cut a comical figure in the ancient costume,)—and he thanked the assemblage generally for their orderly conduct. This, with a little bit of flummery to His Excellency the Lieut. Governor, touching his illustrious ancestors, constituted *the* speech of the day. We did not think it was necessary to thank the people for being orderly in their conduct—it should be taken for granted that they would be so; and we *did* expect to hear something about the advantages that are likely to result from reviving the ancient sports and pastimes of the old Country. We apprehend that Col. Gray's feelings were not much enlisted in the day's performances. We intended to write something touching the origin of the so-called "Scottish" Games; but we think it better to postpone the carrying out of our intention, as we are not willing to disturb in the smallest degree, the glorious burst of national pride by which all Scottish bosoms are at present animated. When we are all calmed down a little after the excitement of the Games, it may not be amiss to say something on the subject.

We observe one mistake in the *Islander's* account. It states that a Mr. A. W. Fraser, who carried off some of the best prizes, and who performed the Sword Dance with admirable taste and skill, "hails from Belfast." Of course the *Islander* expects that this noted place should produce everything great and good in the Scotch character; but Fraser, however, happens to "hail" from Antigonish, N. S., and has been a resident only for a short time at the East Point of this Island.

BLACKWOOD'S MAGAZINE, *for July*, has been received from the Publishing House of Leonard Scott & Co. "Tony Butler" is continued, and kept up with unflagging interest; "Cornelius O'Dowd" is more than usually entertaining; and there are several other admirable papers in the No., especially the "Letters from the Principalities," and "The Napoleonic Idea in Mexico."

THE CIVIL WAR IN THE STATES.

NEWS BY TELEGRAPH.

NEW YORK, August 15.

Advices by Steamer from New Orleans to the 7th furnish details of the Naval fight in Mobile Bay, and capture of Confederate forts. The Federal fleet passed the forts under full head of steam, receiving and delivering terrific fire. Fort Morgan was soon silenced. Fort Gaines surrendered, and Fort Powell was blown up. The Confederate rams and gun-boats participated in the fight, the Tennessee making a most obstinate and determined resistance, but was finally compelled to surrender. The Confederate fleet consisted of five vessels, of which only one escaped in the midst of the fight..... The Federal Monitor *Tecumseh was almost instantly sunk by a torpedo*, carrying down the Commander, Capt Craven, and all but 10 of her crew..... Gunboat Philipo was burned..... Gunboat Ornada received a shell in her boiler, scalding 20 of her crew..... Total Federals killed 249..... A land force, under Gen Granger, aided in taking fort Gaines..... Ship Adriatic, from London to New York, with 150 passengers and valuable cargo, was burned by the Tallahassee on the 12th..... Gold 255.

NEW YORK, August 18.

Confederate Gen. Early has been reinforced and has assumed the offensive, compelling Sheridan to fall back from Strusburg. Confederates made frequent dashes upon Sheridan's supply trains capturing fifty wagons, four hundred mules, fifty prisoners and Sheridan's private despatches. ....Advices from Georgia state that Wheeler was besieging Dalton on the 14th the town defended by eight hundred Federals; fighting severe, but thought garrison would hold out until reinforced. Wheeler captured a railroad train at Altona and several car loads of cattle..... Grant holds the approaches from Malvern to Richmond, Hills Charles City road..... "Tallahassee" put into Halifax this morning for coal..... Gold 258.

By Telegraph to United States' Consul, Charlottetown.

HALIFAX, August 18.

Rebel Steamer *Tallahassee*, which destroyed six vessels day before yesterday, near Cape Sable, is now in this port, and will probably go from here to Bay Chaleur to destroy fishing vessels. You had better put them on their guard.

M. M. JACKSON, U. S. Consul.

CH'TOWN, Aug. 19.

Advices from Grant to Monday evening. There was severe fighting north of James River Monday. Confederates were driven some distance, leaving many dead on the field, including two Brigadier Generals, also many wounded, four hundred (400) prisoners. Federal loss since crossing James River, estimated at one thousand (1000)..... Gen. Sheridan reports cavalry fight near Front Royal. Federals successful capturing three hundred (300) prisoners..... Wheeler repulsed in an attack on Dalton, with loss of one hundred and fifty (150) killed. Federal General Steadman wounded, and Col. Straight killed..... *Herald's* Washington correspondent says an armistice preliminary to peace negociation is chief topic discussed at Washington. Asserted Lincoln strongly in favor of armistice..... Gold 257.

AUGUST 20th.

More severe fighting on the north bank of the James River on Thursday..... Federals have also advanced four miles from Malvern Hills towards Richmond..... Rumored that Sheridan has been repulsed by Early and has recrossed the Potomac. Confederate force stated at 40,000 infantry and 15,000 cavalry..... Reported that Forest has been defeated in Mississippi by Federal General Smith..... Admiral Farragut summoned Fort Morgan to surrender, Confederate commander declined, supposed fort will be defended to last extremity. Gen. Grange investing fort on land side, and fleet will attack the front..... Gold 256.

AUGUST 20th, (P. M.)

Tallahassee left Halifax last night at 1 o'clock. Federal war steamer arrived there at 6 o'clock this morning and was to leave immediately in pursuit..... The U. S. frontier delegation, 140 in all, left St. John by special train this morning and arrived at Shediac at 11 30 a. m., and after stopping at Moncton to witness the rising tide, and after luncheon at the Weldon Hotel, Mr. Poor, Chairman of the Delegation, and some of the party visited the Steamer *Princess of Wales*, and were much pleased with her appearance, they also expressed their desire to visit the Island. They were to return to St. John about 3 o'clock. .... Reported the *Acadia* would clear from Quebec for Bermuda..... Gold 257.

CALEDONIA GATHERING.

The first annual gathering of the Caledonia Club took place on Government House grounds, on Wednesday last, and was in all respects a most creditable affair. The Managing Committee spared neither pains nor expense in making their arrangements. The space allotted for the competitors, judges, and members of the Club, was neatly enclosed. In addition to temporary benches inside the enclosure, a large unwalled shed, with raised seats, was erected at one side of it for the accommodation of the fair sex. In the centre of the shed were cushioned chairs for Mrs. Dundas, His Excellency the Lieutenant Governor and his suite. At ten o'clock the members of the Club, together with the officers of the Benevolent Irish Society, formed in procession at the Mason Hall, and, with banners flying, marched to the grounds to the wild thrilling strains of the Bagpipes. The number of spectators was between three and four thousand. From an early hour in the morning they were pouring into the City from all the adjacent districts. King's and Prince Counties contributed their quotas. Nova Scotia, too, sent her representatives. Indeed, the "gathering" was one of which Scotchmen might well be proud. The best of order and harmony prevailed during the day. We did not see a drunken man in the whole assemblage. The games, &c., commenced about 11 o'clock, and were kept up with great spirit and animation till 6 p. m. This being the *first attempt at anything of this kind in Prince Edward Island*, we do not consider ourselves qualified to express either the opinion of a critic or a judge, on the feats of agility and strength which we witnessed on Wednesday. We are even unable, for want of the necessary statistics, to compare them with similar performances elsewhere. It is quite probable that Scotland, the United States, and the neighboring Colonies are considerably ahead of us in throwing the hammer, putting the stone, leaping, tossing the caber, &c. Indeed we could not reasonably expect it to be otherwise. But we are mistaken if a few years practice, under the stimulus of the Club's prizes, does not put the sons of the Heather, in this Colony, on an equality in these sports with their fellow countrymen in any part of the world. We trust it will be so.

It is not a little remarkable that, in throwing the hammers, all who competed threw the heavy one relatively farther than they did the lighter one. In the sword dance, A. W. Fraser—who, we are informed, hails from Belfast—but who did not compete for the prize, distinguished himself. The graceful manner in which he went through it elicited general admiration. Those who ran the hurdle races acquitted themselves well. With one or two exceptions, they cleared the hurdles in gallant style. Of all the proceedings, the hurdle race, the sack race and the boys' race created most amusement. While the sack race was being run the spectators were convulsed with laughter, intermingled with derisive cheers, as every now and then a fellow measured his length on the ground. So soon as all the exercises were over, the Lieutenant Governor and Mrs. Dundas, with the Hon. Col. Gray and lady, and Lieut. Col. John Longworth and Major R. R. Hodgson, His Excellency's Aides, advanced and took their stand on the platform in the centre of the ring. The successful competitors were now called forward, and received the rewards of victory at the hands of the Chief and Chieftainess, after which the President of the Club, Col. Gray, stepped forward, and, on behalf of the Committee and himself, thanked the spectators for their patronage and orderly behaviour on the occasion of this their first gathering. Three cheers were then given for His Excellency the Lieut. Governor, Mrs. Dundas, and the Queen, after which the proceedings were brought to a close. The Committee were indefatigable in their efforts to make things pleasant and agreeable, and we think they have every reason to be satisfied with the result. They were favored with as fine a day as they could wish for, and everything passed off without the slightest accident.

The following is a list of the successful competitors and of the various games and sports for which prizes were awarded:—

Gaelic Poem—3 competitors—prize awarded to John Campbell.

Putting the light stone—10 competitors—1st prize, Donald Ross, 37 feet 10½ in.—2d, do. Donald McLeod, 36 feet 7 in.

Running foot race—12 competitors—1st prize, Donald McLeod—2d do. John Meikle.

Throwing light Hammer—13 competitors—1st prize, Frederick Horn, 67 feet 8¾ in—2d do. Hector Blue, 66 feet 10¼ in.

Long Leap—13 competitors—1st prize, Donald Ross, 8 feet 7½ in. 2d do., Hector McDonald, 8 feet 7¼ in.

Putting heavy Stone—19 competitors—1st prize, Frederick Horn, 25 feet 6 in.—2d do., Roderick McLeod, 24 feet 11 in.

Hurdle Race—6 competitors—1st prize, A. W. Fraser.—2nd do., Donald Cameron.

High Leap—13 competitors—1st prize, A. W. Fraser, 4 feet 9 in.—2d do., Peter McInnis, 4 feet 9 in.

Highland Pipe Music—7 competitors—1st prize, John Gillis.—2d do., Donald McDonald.—3d do. Donald McFadyen.

Throwing heavy Hammer—18 competitors—1st prize, Frederick Horn, 61 feet.—2d do., Peter McInnis, 63 feet 5 in.

Foot Race (boys under 16)—7 competitors—1st prize, Alexander Cameron.—2d do., Donald McLeod.—3d do., William McLaren.

Tossing the Caber—19 competitors—1st prize Frederick Horn, 23 feet 7¼ in.—2d do., Laughlan McNeill, 22 feet 11 in.

Sack Race—6 competitors—1st prize, Donald McDonald.

Dancing Gillie Callum—1 competitor—John McKinnon.

For Highland Fling Dance there was no competition.

SLAYMAKER & NICHOLS' OLYMPIC CIRCUS—This extensive and complete establishment is spoken of by the press wherever it has appeared as one of the best and most entertaining exhibitions which has ever been brought before the public. The company is large, and comprises a number of the most distinguished equestrian artists of the day, and the programme of performances is full and varied. Among the most marked and pleasing features is Snow's Troupe of Acting Dogs and Monkeys, which, for intelligence, docility, training, and perfect accomplishments, have never had any equals in this country. They do a vast number of *entertaining* and *amusing* tricks, which cannot be described, besides performing in the juvenile legend of Little Red Riding Hood, in which they enact a variety of parts in costume, with all skill and seeming appreciation of human artists. This affords a delightful and really wonderful entertainment, particularly to children, and none should fail to take their little ones to see them. The trick ponies are beautiful little creatures. And the trained horse, Pegassus, is a fine animal. As for the company, we have only to mention that it contains such brilliant names as Wm. Nichols, Darius, Wood, Mademoiselle Helene, Signora Julie, and the wonderful Snow Brothers, besides many others, whom we have no space to mention.—*Philadelphia Enquirer*.

As may be seen by reference to an advertisement in another column, the Olympic Circus (so favourably spoken of in the above notice) will perform in Charlottetown for several days, commencing on Tuesday, 30th inst.

MELANCHOLY DEATH.—We regret to learn that Thomas McEwen, a lad about 3 years of age, the son of Mr. Arthur McEwen, Campbelton, New London, came to an untimely death on Sabbath morning last, the 7th instant, from the effects of nibbling and swallowing the [illegible] of the ends of lucifer matches some time during the previous evening. We sympathize with the bereaved parents, and hope others will take warning from this unfortunate occurrence, and carefully keep lucifer matches beyond the reach of their children.

HOLLOWAY'S PILLS AND OINTMENT.—Diarrhœa, Bowel Complaints.—Whenever the stomach fails faithfully to perform its functions, indigestion is sure to be produced, the issue of which is ever uncertain. The undigested food, after passing through the sluggish stomach, irritates the bowels, and sets up diarrhœa, by which it is carried off, and the body is relieved for a time. Perhaps this is the least objectionable product of disordered stomachs, though gradually it will pull down the strongest. To check the first symptoms nothing previously prescribed equals Holloway's Digestive Pills, aided by his Ointment, rubbed over the stomach and right side. Their action over stomach, liver and bowels is immediate, beneficial and lasting, restoring order and ease, and removing at one and the same time both the cause and the results of the disease.

BROWN'S BRONCHIAL TROCHES, for Pulmonary and Asthmatic Disorders, have proved their efficacy by a test for many years, and have received testimonials from eminent men who have used them. Those who are suffering from Coughs, Colds, Hoarseness, Sore Throat, &c, should try "The Troches," a simple remedy which is in almost every case effectual.

CHILDREN AND BABIES.

Who does not love children? Are they not the light and joy of every household? Yet how many are the diseases to which they are subject, and the great cause of many of their afflictions is Worms. What shall the disconsolate parents of these poor children do? We, with confidence, reply: "Give a few doses of JUDSON'S WORM TEA." It cannot do any harm. It is sure to do good. No Mercury or any other mineral is in it. It is entirely vegetable.—Sold by all Dealers at 25 cents per package.

The N. Y. Express says large quantities of goods continue to be reshipped to Europe—the leading houses having refused to buy them at the high prices for which they are offered.

"The *Examiner* asserts that we misunderstood or did not comprehend his articles on Hotel accommodation. Perhaps that is the case; but will not our contemporary acknowledge that he has been disappointed in *that* champagne supper he was expecting? "Answer me to that, master Jack, and Poins there."—*Vindicator*.

Wrong, Master *Vin*. Never expected a Champagne Supper from *such* Hotels as we have in Charlottetown—don't know if there's a dozen bottles amongst the lot. We said there were certain good hotels in Charlottetown. We stick to that most firmly; they are good—very good for this place;—and if you had your eyes open, you might see that we never wrote one serious word concerning our opinion of this place. If you *will* become one of our victims, Master *Vin*., we can't help it, but are not sorry for you.

PERSONAL.—Our esteemed friend, John Livingston, Esqr., the Editor and Proprietor of the *St. John Morning Telegraph*, together with Mr. Halleck, one of his associate Editors, have been on a visit to this Island during the past week. Friend L. looks as jolly as his best friends could wish him to look.

News by Saturday Night's Mail.

INDIAN OUTRAGES ALONG THE PLAINS.—Advices from the Plains have been received to the effect that the Apaches, Kiowas, Camanches and Arrapahoes, numbering nearly one thousand warriors, were committing serious depredations on the Santa Fe road. All the horses, mules and beef cattle belonging to Fort Larned, a number of private cattle and 130 horses of the Colorado battery were captured within a quarter of a mile of that fort on the 17th ult. Emigrant trains have been robbed, destroyed and six hundred animals run off. About twenty persons have been killed and scalped. The Indians were threatening Fort Larned at last accounts. Only seventy-five men are there. Over $10,000 worth of provisions had been given out to these Indians at Fort Larned a few days ago.

GRAND NEGRO HUNT.—Gov. Andrew, of Massachusetts, promised Old Abe, that if he would issue the Emancipation Proclamation, the "roads and highways would swarm" with men from the Bay State, eager to do and dare for the Old Flag. The Emancipation Proclamation came, but the Yankees didn't "*swarm*"—as Artemus Ward would say—"to any alarming extent." But they are gone "swarming" now towards the South, to get nigger substitutes. Massachusetts has her agents in every section endeavoring to get the darkies to "enjoy God's heritage of Freedom," and go in the ranks to preserve the anatomy of a squeaking New Englander! Massachusetts sings—"We'll *send* you 50,000 niggers, Father Abraham, but we'll never go ou selves."

Articles in the Richmond papers would seem to show that the Confederate General Johnston, lately in command at Atlanta, has not been removed from his command to make room for Hood, as was at one time supposed, but has been assigned, with some of his veteran troops, to the Upper Potomac. Johnston, during the first year of the war, was in command of the Southern forces in Virginia, on the Upper Potomac, and his familiarity, therefore, with all that part of the country was probably a reason for transferring him thither. At the first battle of Bull Run, it is claimed by the Confederates that Johnston saved the day by his opportune arrival on the field with the needed reinforcements.

THE TALLAHASSEE.—Mr. John Humbert kindly furnishes us with the following information respecting the Tallahassee, taken from the *memoranda of Captain De Corsen, whom he met* in Yarmouth, and who, it will be seen was one of the victims:—

"The Schr. Sophia arrived at Yarmouth, and from Turk's Island, and brought in 30 men, the crews of one ship, one schooner, and a fishing vessel, captured and destroyed by the Confederate steamer Tallahassee. They report the vessel has captured a number of vessels, as they saw five, mostly small craft, on fire at one time. Among them, near New York, the schr Lamot Dupont, of Wilmington, Del., Captain *Lucius De Corsen*; also, ship Jas. Littlefield, from Cardenas, with coal; fishing schr Murray A. Stearns, of Chatham, Mass.; two fishing vessels and a schr, name not known, beside four small vessels supposed to be fishermen, off Cape Sable. The Tallahassee is a fourteen knot boat, and carries 3 large guns. She is built of iron; her Captain's name is J. T. Wood; she is about 300 tons; 150 feet long; 30 feet beam; 14 feet in depth; has 3 masts; 4 engines, and 2 propellors."

A New York despatch of the 15th says that Mexican advices state that the progress of the French Army in subjugating Mexico, has recently been interrupted by severe reverses. A large force of Mexicans have cut off all supplies from Acapulco, which is occupied by French troops, and the siege of that city has been raised; it was believed that the French would be obliged to surrender in consequence of want of food. The Mexicans harrass the French troops in the city night and day by incessant firing from their batteries.

THE INDIAN TROUBLES.—*Omaha, Aug.* 17. The Overland Mail Company is removing its stock from the incursions of the indians. The Indians attacked three coaches loaded with passengers, east of Cottonwood. Troops have been sent to their relief. It has been ascertained by reliable scouts that in less than twenty days a simultaneous attack will be made by combined bands of Cheyennes, Kiawas, Utes, Snakes, Camanches, and Arrapahoes, on Fort Kearney, Fort Cottonwood, and all along the Platte Valley. Every measure is being taken by the whites to give them a warm reception. All the ranches are deserted, and families are *taking refuge in the forts*. Depredations continue to be made daily on stock, coaches and stations. The telegraph operator at Altah has been driven off. Stock has been taken in the more thickly settled portion of the road, between Omaha and Fort Kearney. The people are erecting forts for defence, and arming themselves for emergencies, although it is hardly probable that any incursions will be made so far down the river.

The Dakotah Union says Gen. Sully, with 3000 troops, left Fort Rice on the 18th ult. on an expedition to the Yellow Stone River. On the 21st ult. a courier arrived at the Fort with the intelligence that 1700 lodges of Indians had encamped near Fort Beathold, *ready for battle*. This news was sent to Gen. Sully, who, should he regard it as reliable, would change his course and attack the Indians.

The propellor *Racine*, from Chicago for Buffalo, burst her boiler on the 8th inst., off Rousseau Point, Lake Erie, killing 12 of the crew. The cabin and upper works were burned. The cargo, consisting of flour, pork and high wines, was destroyed. The steamer Avon picked up the survivor, and towed the hull to the beach near Daltown.

A French paper says that by an accident charcoal has been discovered to be a sure cure for burns. By laying a piece of cold charcoal upon a burn, the pain subsides immediately. The remedy is cheap and simple, and deserves a trial.

The Hamilton (Canada) *Times* is informed that the decision of the Imperial Government has been reversed, and that the regiments stationed in the different cities in Canada will remain undisturbed. It is understood that the regiment at present in Hamilton will remain.

A very fine article of table salt is now being manufactured at the salt springs of River Philip, Nova Scotia, and it is said can be produced in any desired quantity.

Advices from Labrador, to the last week in July, give cheering news of the cod-fishery. The Newfoundland shore fishery is also improving.

Mr. Hoyt, Superintendant of the American Telegraph Company, is busily engaged at present in perfecting a new double line of telegraph wire between Plaister Cove and Pictou.

Twenty bags of fragments of human bodies have been interred at City Point, where the recent explosion took place. The two halves of one man were found half a mile apart.

Another prison has been burnt in Canada. The reformatory at St. Vincent de Paul, near Montreal, was destroyed by fire on Sunday 7th inst., and two boys, out of the 75 inmates, lost their lives.

One of the beauties at one of the beaches is satirized by some brute as a young lady of some sixty years standing, who replaced her departed beauty with twenty thousand dollars worth of diamonds, and seemed to expect as much admiration as ever.

Says the *Home Journal*: "A M'lle P——, in Paris, advertises a salve for the production of a slight down on the lips of ladies, a little moustache, so great is the favor the hair on the upper lip of women is received with in France. We remember a picture of Van Eunling of Adam and Eve, in which Eve is painted with a pretty little beard and moustache. The ladies of the present day have, *perhaps*, become more effeminate than their ancestors, and Van Eunling might have been warranted by tradition in his portrait of Eve."

FRIGHTFUL DISCLOSURES.

Dr. Harlow, Medical Superintendant of the Maine Insane Hospital, has eliminated some startling statistics of madness, demonstrating the connecting links between dyspepsia and insanity in a very impressive manner. In a plain and lucid style he explains that the unhealthy condition of the stomach is chiefly attributable to the dietetic habits of the American peoble; that a strong sympathy exists between the brain and the stomach, and in conclusion argues that nothing is more common than a deranged state of the stomach and bowels, and that indigestion and costiveness are the invariable adjuncts of insanity. He finally admits that all these predispositions can be counteracted by proper care and strict attention—a strict regimen, and the judicious use of vegetable medicines. The foregoing doctrine is nothing more than an endorsement or corroboration of the treatment prescribed by Professor Holloway twenty-six years ago, and still practised by him with the greatest success in all parts of the civilized world. With the intuition of a savant, Professor Holloway, after great study and deep research, divined that the stomach was the parent source of nearly all disorders, such as indigestion, headache, liver complaint, mental and bodily prostration, and his celebrated Pills were the glorious result after many years of scientific investigation. Through the stomach and circulation these Pills act on the general system. They purify the blood, renovate the digestive organs, invigorate their action and restore their natural tone and power. They stimulate *the secretions of the liver, regulate the functions* of the bowels, give buoyancy to the animal spirits, elasticity to the body, and health and vigour to the general constitution. Containing no mineral preparations, they can be prescribed with as much benefit for the infant as for the adult of either sex.—*Weekly Journal.*

A "fast" young clerk, employed in a dry goods store in Detroit, has recently been caught robbing his employers. His plan was to withhold about one-half of the money received for cash sales, and in this way he managed, in the course of a few months, to steal over a thousand dollars. How many drinking, smoking, fast young men of this city are paying for their pleasures and debaucheries in the same way? Numbers of business houses are paying annually a heavy tax to enable disreputable young men to pursue a life of pleasure and vice.—*Montreal Witness.*

NOTICE.

THE Suberibers beg to return their thanks to the merchants and travelling public of Charlottetown and the country, for the very liberal support given them since they have had the Barque "Gazelle" on the line between this Port and Liverpool, G. B., and now beg to inform them that they have built and fitted up a very fine ship of 541 tons register, and 670, old measure, under special survey to class A. 1. 7 years. This ship's cabins are fitted up in good style, having a captain to take charge who is noted for his kindness and attention to passengers, will ensure their comfort, as, also, the safety of the goods entrusted to his care on board the ship—by attention and promptness in delivering the cargo, they hope still to receive a share of public patronage. The ship "David Cannon" will sail for Liverpool on Saturday the 27th, and will leave Liverpool for this Port about the 25th of September.

Advice to the Farmers of P. E. Island.

AS the season for Harvest operations is approaching, and as the crops promise to be unusually abundant, the undersigned begs to remind FARMERS throughout the Island that he has just received an Invoice of his Stock of

Manny's Celebrated and Wonderful Mowing and Reaping Machines,

which save immense time, labor and money to those who use them, as is proved by the well established fact that they will enable a Farmer to save his crops four or five weeks sooner, and at less than half the cost, than he could do the work by the old fashioned Hook and Scythe, now rapidly going out of use, with the older and still more useless Flail. No enterprising or temperance Farmer should be without one of those wonderful Machines; the cost is comparatively trifling, and no man who is able to bear the cost should think of hiring one, as before it came to his turn to hire one of the Machines that might be in his neighbourhood, he would, perhaps, lose the chance of securing or selling his crop to advantage.

The MOWING and REAPING MACHINES were never in greater demand in the United States than at present. The scarcity of manual labor in that country, caused by the number of Farmers killed and wounded in the present War, renders such LABOUR-SAVING MACHINES more desirable than ever, and it will be almost impossible to secure a sufficient supply hereafter for the use of the agriculturalists of this Island. NOW IS THE TIME TO SECURE THEM. The undersigned, knowing that they would be in great demand, ordered a considerable number of them for the use of the Farmers of this Island, but could not get more than half he required, which he is prepared to sell for Cash or approved credit, for one or two years, if they are ordered before the 25th inst.

The following Agents will act for the Subscriber in selling those extraordinary and beautiful MACHINES which are so well adapted for saving labour and money; and the Subscriber hopes that they will send their orders immediately and use their best exertions to promote their sale, and thereby advance the best interests of the Colony. The Machines have JUST ARRIVED in the Steamer "COMMERCE," and one of them, together with some patent ploughs, will be on exhibition at the NORTH AMERICAN HOTEL, where an office will be opened for the sale of all such goods, during the season.

Singer's Sewing Machines.

THE SUBSCRIBER HAS JUST RECEIVED A FURTHER SUPPLY OF

Singer's World Renowned Sewing Machines.

The above Machine has obtained such a world wide reputation that further recommendation is quite unnecessary. Suffice it to say that they are the best Machines now in use for all purposes. No Dress-maker, Vest-maker, Boot maker or Shoemaker should be without one.

NOTICE TO FARMERS.

MANNY'S CELEBRATED MOWING and REAPING MACHINES, which save immense labour and money, have just arrived in the Steamer "Commerce." The subscriber expects that all agents and others wanting them will send their orders forthwith, as the supply is limited. Farmers who desire to preserve the life and health of their young bands, especially their females, who are so severely worked by the old mode of cutting grain crops, and who also desire to economise their money, will do well to secure one of the above named MACHINES as speedily as possible.

The Liverpool and London FIRE AND LIFE INSURANCE COMPANY.

THE Agent for the above first class English Fire Insurance Company begs to call the attention of the public to the advantages offered by this Company, in respect to the security to the assured, and promptness to pay losses, which, without disparaging other Companies, may be safely asserted to be superior to those afforded by any other Company in the Island. The Liverpool and London F. & L. Insurance Company has been in successful operation since 1836, with agencies all over the world, and has paid in losses about two millions and a quarter sterling. Its subscribed capital is £2,000,000 sterling, and its invested funds alone amount to £1,312,000 stg; and the fire premiums for 1861 amount to £360,130 19s 9d; and in addition to this very large capital, the Company having been established before the recent Limited Liability Act, the individual fortunes of each of the shareholders, comprising some of the wealthiest merchants in Liverpool and London, are liable for the losses, should the whole of the capital be swept away. In this respect it differs, it is believed, from any other Company established here.

And lastly, the Agent being appointed by Power of Attorney directly from England, is authorized to draw Bills the moment a loss occurs, and without referring to the Home Company, to the extent of one thousand pounds sterling.

With these superior advantages, the Company is not disposed (though it might be well justified) to ask a higher rate of premium than other English Companies, which do not present the same advantageous features, and the Agent has been advised that an uniform rate has been agreed upon by the Directors of this Company and the "Queen," and that the Agents here should, in this respect, "act in concert."

W. A. JOHNSTONE,
Agent of the Liverpool and London
