Home In Tignish Reached By Dory

TIGNISH — Central Street, right off Main Street in the village, is posing a major problem to householders and business establishments as water from the north part of the village continues to lodge in that area.

With no storm sewer outlet to allow the water to run off, basements are flooded, and the home of Mr. and Mrs. Gerald Gaudet can be reached only by dory.

A foot of water covers the floors in the porch and kitchen. The Tignish fire department has come to the rescue with two pumpers and hose that are continually kept in operation to help eliminate the water at the Gaudet home, and also at the establishment of E.C. Gaudette and Sons, where it is also posing a major problem.

This condition is not only a result of the recent rain and flooding occurring on the Island, but is a yearly event, due to lack of a drainoff in that area of the village, it was stated.

'Detective' Is Promised As Letter Sought In House

"We'll put Perry Mason on the case right away," was the comment that rose from the government benches in the legislature yesterday when acting opposition leader Dr. M.L. Bonnell asked where a letter tabled by Hon. Leo Rossiter Tuesday night had gone.

The letter, tabled at the request of Dr. Bonnell, dealt with establishment of bait holding stations at Beach Point and played a part in the consideration of the report of the House standing committee on fisheries.

"Why haven't members got copies on their desks today?" asked Dr. Bonnell. "This is a serious situation as apparently the letter has disappeared. It's poor service and not democratic government when this sort of thing is going on. Where is the letter?"

Frank Myers (PC — 1st Queens) who was House committee chairman when the letter was tabled, recalling the tabling of the letter, said "someone must have taken it."

"We'll pass the case over to Perry Mason," said a voice from among the cabinet ministers.

Fisheries Minister Rossiter promised that copies of the letter will be available today for members.
