THE TRANSVAAL BOERS WILL FIGHT Hope of Peaceful Issue About Gone

"FIGHTING FIFTH" ON THE WAY
TO WAR

Money Market Shows a Serious Drop
—Reply of the Transvaal Govern-
ment.

[SPECIAL TO THE EXAMINER.]

LONDON, Sept 18.—All the morning papers consider the Transvaal reply a notice to cease negotiations and a state of war may almost be said to exist.

A meeting of the British Cabinet has been called for Wednesday to consider the question of an immediate advance of troops in South Africa into the Transvaal.

The report that President McKinley has offered to mediate is not credited.

On Saturday the money market showed a serious drop. War with the Transvaal is regarded on the continent as a far graver affair than that of the Soudan and a feeling of profound watchfulness prevails.

LONDON, Sept 18.—The Morning Post says that "the Boers mean to fight. That is the plain English of it."

The Standard says: "The Transvaal note is an unsatisfactory and indeed a dangerous composition. It might be going too far to say that the last hope of peace has vanished or that diplomacy has said its fust words; but it is idle to deny that the rulers of the Transvaal have brought their country very close to the brink of a disaster which the British government has done its best to avert."

LONDON, Sept 18.—The departure of troops from Southampton for Natal on Saturday was marked by such scenes as have not occurred in England for many years. Wives, daughters, sweethearts and friends crowded around the Northumberland Fusiliers or as they are better known "The Fighting Fifth" at the docks, crying, waving of hands and handkerchiefs and cheering,—mixing grief and patriotism as men and women only can do when those dear to them go to war. Most of the special service officers wore civilian clothes. But as many of them were well known, they were quickly recognized and received an ovation. "The Fighting Fifth" nearly all wore the Khartoum medal.

CAPE TOWN, Sept 18.—The Afrikaner leaders have received a telegram saying that the reply of the Transvaal government to the British demands still maintains the government's position as to the British suzerainty, offers a seven years franchise, and declares that the Transvaal will pay strict adherence to the terms of 1882 convention.

LONDON, Sept 18.—It is supposed that the next move contemplated by the Transvaal is an appeal to the Powers begging them to recommend arbitration on the lines of the Hague conference.

Miss Blanche Smallwood graduate of Mt. Allison Conservatory of Music will be prepared, after the 11 inst., to take a limited number of pupils in pianoforte. Those wishing to make arrangements will please call at her home, Richmond Street.

Review on the Plans of Abraham—
Reception on the Flagship.

QUEBEC, Sept. 15.—The naval review on the Plains of Abraham yesterday morning was a very interesting display of the fit condition and general efficiency of the British seaman. The review was witnessed by a very large crowd of people, including many strangers. Dr. Macrae, chairman of the Protestant School Board, kindly gave the schools a holiday to enable the scholars to witness the turn out. The viceregal party, the Lieutenant Governor, Madame and Miss Jette, Lieut. Colonel Wilson, and a number of other distinguished ladies and gentlemen were also present. The men with their officers to the number of about nine hundred, armed with muskets, cutlasses and bayonets, landed on the Queen's wharf shortly after 8 o'clock and with the fine band of the flagship, marched out to the plains, where they were drawn and inspected by the Governor-General, who was accompanied by Admiral Bedford and his aides, after which the tars and red coated marines were put through a number of evolutions, which were all performed with an ease and precision most pleasing to the spectators.

TRIUMPH OF LAW

Policemen vs. Gamblers at Dawson.

VANCOUVER, B. C., Sept 17.—Gambling has been peremptorily stopped in the northern cities, and recent arrivals from Skaguay and Dawson say that not a card is turned now in the gambling dens of either place. In Skaguay it was stopped only ten days ago, while the movement started earlier at Dawson. It is related that the police gave orders for every table to be shut down, and then proceeded to see that their orders were carried out. At one place two well-known card men insisted that they would play. They were in a large room where 20 or 30 other men were looking on, and the police officer who had the establishment in hand realized that it was only by strong and prompt action that he could make his presence felt. He drew his revolver and marched everyone out of the room. The game was not played.

The Growing Time.

BERLIN Sept. 16.—(Special to Hamilton Spectator.)—This town and North Waterloo, generally, are feeling the effects of the growing time inaugurated by the Liberal party.

Notes which were formerly given away now sell at \$10 to \$20 each, and the dealer in votes sometimes makes as much as \$150 a day when business is brisk. Large numbers of outsiders have been brought in each having plenty of money and looking anxiously for business.

Where there was, in former times, a case here and there of treating electors, there is now a deluge of free drinks.

Every man willing to work is employed by persons who are sent here for that purpose.

Money is plentiful in the hands of those to whom, until the present growing time, a dollar bill was a great scarcity.

The crops are wonderful, and the "threshing machine" is fully employed, and so great is the demand for labour in "threshing" that even Cabinet Ministers have been pressed into the service.

So successfully do things grow that many cases are known where men have marked one cross each on pieces of paper and in a few hours this one cross each had grown into two crosses.

We have much to thank both the Dominion and the Ontario Governments for.

Festivities in India.

LONDON, Sept 14.—According to advices from India, the season has been most brilliant. Since the State ball and the Viceroy's levee Lord and Lady Curzon have given a series of fortnightly dances at the Viceregal lodge, which are greatly appreciated. Lady Curzon, who is described as most popular socially, makes a handsome vicereine. In addition to other amusements, Lady Curzon has given a large garden party and children's fancy dress ball. She also attended the dances given by the Knights of the Black Heart and the Celestials.

Blood and Money.

LONDON, Sept 16.—The report is confirmed that a marriage has been arranged between the Hon. Douglass Walter Campbell, only son of the late Lord Walter Campbell, third son of the Duke of Argyll, and Miss Aimee Laurance, daughter of the late Mr. John Laurance, of New York City.

Discord in Samoa

BERLIN, Sept 16.—The Klonische Zeitung publishes a long letter from Apia, under date of Aug 11th, detailing events there, chiefly with the object of sowing discord between Great Britain and the United States, and trying to prove that Germany and not England is in line with the United States.

[SPECIAL TO THE EXAMINER.]

MONTREAL, Sept. 18.—A large portion of the Queen Block on St. Catharines Street collapsed last night with a roar like thunder. The fall completely demolished Scroggie's dry goods establishment.

Successful Canadians.

MONTREAL, September 16.—News has been received in Montreal that Mr. Chamberlain, Colonial Secretary, has appointed Dr. Hamilton K. Wright (McGill, 1895) to be pathologist to the Straits Settlements with instructions to study more especially the remarkable disease known as beriberi. Appointed medical registrar at the Royal Victoria Hospital, Dr. Wright in 1897, gained one of the exhibitor's grants of the British Medical Association for his researches upon the pathology of the nervous system, and the same year obtained the John Lucas Walker exhibition in pathology of the University of Cambridge, England. Aided by these, he undertook valuable researches in the nervous system at Cambridge and Heidelberg, and in the following year was appointed pathologist in charge of Claybury Asylum, Essex, under Dr. Mott. This asylum, recently established by the London County Council, is the largest institution of its kind in Great Britain, if not in the world, and Dr. Wright has aided in the establishment of the research laboratory with such good results that the medical advisers of the Colonial office have recommended him for the above post.

Boycott a Fizzle.

New York, Sept. 16.—The London correspondent of the Sun telegraphs:—

The Secretary of the British Commission to the Paris Exhibition says that intimation of withdrawal have been received from only twelve intending exhibitors, while nearly 2,000 applications for space have been received from individuals and firms in Great Britain, India and the colonies.

A despatch to the Central News from Rome says the Italian Government has published a statement of disapproval of the suggestion that Italian traders should boycott the French Exposition.
