

THE DAILY EXAMINER.

NOVEMBER 19, 1886.

Editorial Notes.

Frederick, Moncton, and other New Brunswick towns are loyally and heartily supporting the claims of St. John to be one of the Winter Ports of Canada.

Mr Blake proposes to take the duties off coal and place them on tea and coffee. How will this plank in the Reform Leader's platform suit the people of Nova Scotia, New Brunswick and P. E. Island?

Sir John Macdonald met with a very hearty reception at Owen Sound, on the 16th inst., and delivered one of the brightest of his bantering speeches, in which he identified the potato bug, weevil and Hessian fly with gritism.

Commenting upon the claims of the Grits that "the Liberals have gained a great victory in Prince Edward Island," the Ottawa Citizen tersely says:—

Practically, the Tories in Prince Edward Island, as elsewhere in the Dominion, are the masses and are the party of economy, while the Grits are only the classes and oppose economy.

It is somewhat amusing, says the Halifax Herald, to read Edward Blake's proposals with regard to the reform of the Senate. When his party were in office, they applied to the imperial government for power to increase the number of Senators by five for the express purpose of appointing that number of grit partisans to the upper house.

The Patriot is booming Mr. M. C. Cameron, of whom the Montreal Star, (an independent journal) says: "He is a dangerous man." That Mr. Cameron deliberately falsified official reports for the purpose of making charges against the Government, is not surprising; for he has long been known to the people of Ontario as one of the most unscrupulous demagogues in the Province, and one of the most thorough-faced hypocrites in the ranks of the party.

Our readers will, no doubt, learn with pleasure that Mr. J. H. Fletcher, formerly of the Argus, has scored another triumph in the land of his adoption. In the late election Mr. F. was the Republican standard-bearer in one of the Congressional districts of Dakota, and came out of the contest victorious, having a majority of 2,600 votes over his opponent.

The Canadian Gazette is writing up the educational exhibits at the Colonial Exhibition. Of those of Prince Edward Island the writer says:—"The Prince Edward Island exhibit is fairly representative of the progress of education in the Province. It includes specimens of work and text books from the St. Dunstan's and Prince of Wales Colleges as well as the public schools of Charlottetown and elsewhere.

Quite an interesting controversy is now going on in the columns of the Halifax Herald between His Grace, the Archbishop of Halifax, and Sir Adams Archibald, agent of the expulsion of the Acadians. The controversy is the outcome of a lecture lately delivered by Sir Adams before the Nova Scotia Historical Society, in which he justifies the expulsion of the unfortunate Acadians and knocks all the sentiment out of the recital of this people's wrongs as told by poet and historian.

The point was partially taken out of Hon. Mr. Ferguson's letter, which appeared in THE EXAMINER of Wednesday, by a typographical error that was not detected until the edition was more than half off. Mr. Ferguson is made to say that one of the statements of Mr. Davies at the meeting held in Murray Harbor Road was "that in 1884 the Sullivan Government spent \$37 in putting new spouts to the Provincial Building"—whereas the figures should have read "\$3,700."

Mr. Davies made the following statements:— 1. That in 1884 the Sullivan Government spent \$3700 in putting new spouts to the Provincial Building, which expenditure, he said, was for political purposes.

Mr. Davies, it is needless to say, "drew the long bow," as is his wont, and as Mr. Ferguson completely proved. It is significant of the favorable disposition of the Dominion Government towards St. John, that they have withdrawn the advertisement in which Portland was set down as one of the ports of final call for

steamers in the Canadian mail service. Upon this fact the Halifax Herald remarks: "There is no doubt but that Portland was inserted in the advertisement in consequence of the prevailing opinion that St. John harbor is dangerous of access during the winter season, while the citizens of our sister city had taken no pains whatsoever to obtain a trustworthy certificate of character for the tides, winds and fogs that have made the Bay of Fundy so unattractive to navigators."

Legislative Council Elections.

OPINIONS OF THE PRESS. THE TORONTO MAIL SAYS:—"It will be news to the Prince Edward Islanders when they are told that in electing their Legislative Council they were expressing an opinion upon Dominion matters; and they will readily recognize the information as belonging to that species of intelligence which one learns about domestic concerns away from home."

THE MONTREAL GAZETTE SAYS:—"It is not a little amusing to find such journals as the Globe, the Herald and the Ottawa Free Press proclaiming the result of the recent elections to the Legislative Council of Prince Edward Island as a great Liberal victory. The issue in the contest was clear and distinct; the Government, known as Conservative, favored the abolition of the second chamber; the Opposition urged its retention, and appear to have elected a majority of members."

STIPENDIARY MAGISTRATE'S COURT. ONE drunk and three Scott Act cases were on the docket to-day. The drunk, who was a grey-haired, weather-beaten individual, said that yesterday afternoon he had taken about a glass of liquor from a man at Southport, and, as the day was dirty, and he had eaten nothing for some time previously, the liquor got the upper hand of him, and he was gathered in by the policeman about nine o'clock last night, on Pownall Street. A fine of \$1 or four days imprisonment was imposed.

THE "CARROLL" ROUGH PASSAGE. The steamer Carroll, due at Halifax on Monday morning, did not arrive until daylight Wednesday morning, having been detained on the passage by stormy weather. She left Boston at the usual time on Saturday. On Saturday night it blew very heavily, and on Sunday the wind increased to a gale from the W. N. W., with a high sea. The ship rolled and pitched considerably, much to the discomfort of those on board.

THE MARRIAGE QUESTION. SIR,—In a late issue of the Herald, under the heading of Editor's Notes, the editor says: "A marriage notice appears in to-day's issue of a boy and a girl, etc." and then he asks, "Is it not time that the law permitting Magistrates to perform the ceremony was repealed?" But he makes no comment on another marriage notice in the same issue of the Herald of an uncle to his niece, and that too, by a Minister. Which of the two constituted the greatest error, the Magistrate, in marrying two minors, or the Minister, in marrying two very near relatives?

The Irish Land Bill.

LONDON, Nov. 18. A committee of the Cabinet, composed of Lord Randolph Churchill, Sir Michael Hicks-Beach, Lord Ashbourne and Right Hon. William Henry Smith, is preparing a land bill for Ireland. The first draft is based upon the extension of the Ashbourne Act. It limits the tenants purchase of lands to holdings under 60 acres. If the commission sanctions the amount, the commission paying four-fifths to the landlord and retaining the other fifth until the tenant's annual instalments amount to one-fifth of the stipulated sum. Tenants repayments shall extend over 39 years, with interest at 4 per cent per annum. The total necessary to be guaranteed by the treasury is estimated at £25,000,000.

Ex-President Arthur Dead.

NEW YORK, Nov. 18. Ex-President Arthur died at five o'clock this morning. Last night it was evident that Mr. Arthur was sinking, and his family and a few close friends were called to his bedside, remaining there all night. Towards morning the ex-President's strength ebbed out slowly, and with it his life. He had been unconscious for hours, and died without a struggle. Gen. Arthur was 56 years old. When Gen. Arthur's death was announced this morning, the flags on public and private buildings throughout the entire country were placed at half mast. The cause of his death was cerebral apoplexy, and while his demise was sudden it was not entirely unexpected by his physicians.

Train Wrecked.

PITTSBURG, Pa., Nov. 18. The limited express on the Pittsburg, Cincinnati and St. Louis Railroad was wrecked this morning in a peculiar manner. As the train was rapidly running on a ledge on the side of the mountain, a vast amount of rocks and earth tumbled from an overhanging precipice, crushing the train into a mass of splinters, and eight of the passengers were seriously and probably fatally injured. Two have already died.

The "Carroll" Rough Passage.

The steamer Carroll, due at Halifax on Monday morning, did not arrive until daylight Wednesday morning, having been detained on the passage by stormy weather. She left Boston at the usual time on Saturday. On Saturday night it blew very heavily, and on Sunday the wind increased to a gale from the W. N. W., with a high sea. The ship rolled and pitched considerably, much to the discomfort of those on board. The sea continually swept over her, making it extremely dangerous for those employed on deck. One sea went down into the engine room and going on to the hot boilers sent up a considerable amount of steam, making things look kind of lively for a while. To add to this a number of boiler tubes, which were in the hold, became loose from the tossing about of the ship and set up a terrible clatter. On Sunday afternoon the gale reached its height, and as it was found next to impossible to make any headway, the ship was put about and run before it for about sixty miles. The topsail, which had been set to steady the vessel, was torn to shreds, and the cargo was somewhat shifted. A sea which had swept over the stern twisted the head of the rudder, leaving the steamer in a helpless condition for a while. Her spare tiller was got into working order as quickly as possible, and with the assistance of watch tackles she was navigated to port.—Chronicle.

The Carroll arrived here at noon to-day. Her passengers for this port were forwarded by rail. She sails for Boston to-morrow afternoon about three o'clock.
