Launched,

At Elliot River, from the shipyard of Mr. William White,
a fine Brigantine, called the *Eliza*, about 200 tons burthen.

Birth,

On the 9th June, 1840, at about 10 o'clock, p. m., in Close-
petch, near Mysore, the wife of the Rajpoot, Sivasing, was
confined of a boy after the usual time. We have seen the child
with our eyes, but we have not seen such a description of child
in this world nor heard about it. The child's head is as large
as a cocoa-nut, and around it are ten others as big as limes;
and on the head, which is in the middle, the hair is four inches
long; it has two small ears without opening or holes, and there
is no tip on the nose; the teeth are as big as tamarind stones,
it has two eyes as big as limes, and the tongue hangs out of the
mouth about nine inches, and is about three inches in breadth.
The child appears otherwise about the size of one a year old.
It died about half an hour after its birth.—Bombay paper.

The fair bride was given away by Field Marshal
Viscount Beresford.

At Georgetown, on the 20th inst., by W. Mackay, Esq., Mr.
Archibald McLeod, to Elizabeth, third daughter of Mr. John
Oxley, Charlottetown.

At Rustico, on Monday last, suddenly, Mr. Benjamin Blatch,
aged 34 years.
John Gordon, Viscount Kenmore and Lord of Lochinvar, in
the Scotch Peerage, died on the 21st Sept., in his 91st year.
His Lordship's titles were restored in 1824, having been for-
feited by his grandfather, the sixth Viscount. His lordship
married, in 1781, Miss Morgan, who died in 1815, and by whom
he had no issue. He is succeeded by his nephew, Lieut. Adam

MOFFAT'S

VEGETABLE LIFE MEDICINES.

THESE Medicines are indebted for their
name to their manifest and sensible action in puri-
fying the springs and channels of life, and ending them
with renewed tone and vigor. In many hundred cer-
tified cases which have been made public, and in almost
every species of disease to which the human frame is
liable, the happy effects of Moffat's Life Pills and Phenix
Bitters have been gratefully and publicly acknowledged
by all persons benefited, and who were previously
unacquainted with the beautifully philosophical prin-
ciples upon which they are compounded, and upon which
they consequently act.
The Life Medicines recommend themselves in diseases
of every form and description. The first operation is
to loosen from the coats of the stomach and bowels the
various impurities and crudities constantly settling
around them; and to remove the hardened feces which
collect in the convolutions of the small intestines. Other
medicines only partially cleanse these, and leave such
collected masses behind as to produce habitual consti-
pency, with all its train of evils, or sudden diarrhoea, with
its imminent dangers. This fact is well known to all
regular anatomists, who examine the human bowels
after death: and hence the prejudice of these well in-
formed men against quack medicines—or medicines pre-
pared and heralded to the public by ignorant persons.
The second effect of the Life Medicines is to cleanse the
kidneys and the bladder, and by this means, the liver
and the lungs, the healthful action of which entirely
depends upon the regularity of the urinary organs. The
blood, which takes its red colour from the agency of the
liver and the lungs, before it passes into the heart, being
thus purified by them, and nourished by food coming
from a clean stomach, courses freely through the veins,
renews every part of the system, and triumphantly
mounts the banner of health in the blooming cheek.
Moffat's Vegetable Life Medicines have been thor-
oughly tested, and pronounced a sovereign remedy for
Dyspepsia, Flatulency, Palpitation of the Heart, Loss of
Appetite, Heartburn and Headache, Restlessness, Ill-
temper, Anxiety, Langour and Melancholy, Costiveness,
Diarrhoea, Cholera, Fevers of all kinds, Rheumatism,
Gout, Dropsies of all kinds, Gravel, Worms, Asthma
and Consumption, Scurvy, Ulcers, Inveterate Sores,
Scorbutic Eruptions and Bad Complexions, Eruptive
complaints, sallow, cloudy and other disagreeable com-
plexions, Salt Rheum, Erysipelas, common Colds and
Influenza, and various other complaints which afflict the
human frame. In Fever and Ague, particularly, the
Life Medicines have been most eminently successful—so
much so, that in the Fever and Ague Districts, Physi-
cians almost universally prescribe them.
All that Mr. Moffat requires of his patients is, to be
particular in taking the Life Medicines strictly according
to the directions. It is not by a Newspaper notice, or
by any thing that he himself may say in their favor, that
he hopes to gain credit. It is alone by the results of a
fair trial.
