

TCA Plans Courses In French Next Year

MONTREAL (CP) — Trans-Canada Air Lines will begin courses in French next January for its English-speaking flight attendants and attendants' supervisors based in Montreal.

A joint announcement by TCA and the Canadian Air Line Flight Attendants' Association said that by May 1, 1964, all personnel concerned must be proficient in both English and French.

The announcement said the plan will ensure "that equal standards of cabin service are provided to TCA patrons speaking either language."

Provision for French language courses came as part of a new contract between TCA and the association.

The courses will be given on company time and at company expense five days a week over a two-month period. The personnel will receive regular salary and will not be required to work at their jobs during that time.

CAN. TRANSPORTER: "Those who do not achieve 'reasonable proficiency' in conversational French during the conducted course will be able to continue lessons on their own time, the company paying for instruction, until May 1, 1965. When the changeover to complete bilingualism at Montreal will be accomplished."

Flight attendants speaking only English and not wishing to take the course will be able to move to another base at company expense if they desire to do so.

TCA plans to "provide assistance" for French instruction for flight attendants based in other parts of Canada if they wish to study French.

About 100 of the 285 flight attendants now based in Montreal are bilingual, as are 80 based in other Canadian cities, the airline said. The line has a total of 700 flight attendants.

After May 1, 1964, all attendants on services between Canada and Europe will be required to speak both English and French.

Consumers, Users Pesticide Watch Is Suggested

OTTAWA (CP) — Consumers and users of chemicals probably should have permanent representation in the drafting of laws on pesticides, the Canadian Federation of Agriculture said here.

It noted that the federal Pest Control Products Act contains a provision for an advisory board that has not been used.

The federation, main farm group in Canada, was appearing before the Commons food and drugs committee.

President James Bentley, an Alberta dairyman, described a system there that subjects the dairy industry to periodic end systematic checks to make sure that antibiotics, pesticides, herbicides and any other possibly toxic chemicals do not appear in milk in residue form.

This checking committee included representatives of the dairy producers and processors plus federal and provincial ones. Samples of milk showing any residue hazard could be traced down speedily to the offending herd and correction made without "hears headlines."

There have been some suspensions of producers, he said.

Mr. Bentley said an increase grant of \$750 annually has been available and the federal would be appreciated by the dryermen.

He said he didn't know whether the check system could be extended to other products such as cereals. It was vital, however, in the dairy industry where chemically-tainted forage could so speedily land on the consumer's table.

Ever Hear of a "DIURETIC"?

Maybe not. But you should know what a "diuretic" does. There may be times when you should use one. You likely understand how important the kidneys are in maintaining good health. Also that if the kidneys fail to function properly excess acids and waste material remain in the system. This may result in subsequent urinary irritation and bladder discomfort, often followed by backache, tired feeling and disturbed rest.

This is when the diuretic service of **Dodd's Kidney Pills** may be helpful. Dodd's act as a diuretic stimulant to help restore normal kidney action, and so relieve the systemic condition causing backache and tired feeling. When you are bothered by backache and tired feeling due to lazy kidney action your own dependence on **Dodd's Kidney Pills** as many thousands have done during the past 70 years. Look for Dodd's at any drug counter.

THE NICEST CHRISTMAS GIFT YOU CAN SEND . . .

'News From Home'

EVERY DAY.

To someone who's away . . . Share the great island moments of 1964 with a year long gift subscription to
