 Grade VIII — 1. Imelda Callaghan;
 2. Edna Barrett;
 3. Margaret Hughes (absent for tests).
 Grade VII — 1. Margaret Hughes;
 2. Edna Barrett;
 3. Margaret Hughes.
 Grade VI — 1. Edna Barrett;
 2. Margaret Hughes;
 3. Margaret Hughes.

and Mrs. Harry Welton, York, on Sunday, May 8th.

Miss Christine Proud, Wilmont Valley School Teacher, spent the week-end at her home in York.

Miss Helen Lewis, Charlottetown, was the guest of her parents, Mr. and Mrs. Harry Lewis, York, on Sunday.

—BO.

...Congratulations are being extended to the pupils of the Souris schools, who participated in the Prince Edward Island Musical Festival. Their music teachers, Rev. Sister Saint George and Mrs. Coffin also deserve credit for the outstanding success of their pupils.

Messrs. "Jerry" McCormack and Warren Lord of the Pollo Centre, Charlottetown, paid a short visit to Mr. McCormack's sister, Mrs. Leo Mahar, Souris.

Miss Rita Cheverie, nurse-in-training at the Falconwood Hospital, spent a week at her home in Souris.

Mrs. Annie Byrne paid a recent visit to friends and relatives in Charlottetown, on April 30th and 31st.

The many friends of Mr. and Mrs. Frank Grady welcome them back to their former home in Souris. Mr. and Mrs. Grady spent

John McGuirk.
 Grade VI — 1. Audrey Hughes;
 2. Eleanor Hughes; 3. Reginald Corrigan.
 Grade V — 1. Edna McLeod; 2. Shirley McGuirk; 3. Shirley Hughes.
 Grade IV — 1. Pauline Hughes;
 2. Thelma Hughes; 3. Margaret Barrett.
 Grade III — 1. Edna Barrett;
 2. Gerard Grimes.
 Grade II — 1. Janet McLeod.
 Grade I — No Tests.

Highest Average in the Senior Grades, Imelda Callaghan, 95.3 per cent; highest average in the Junior Grades, Janet McLeod, 97 per cent.

Mae Grimes, Teacher.

the past winter visiting in the United States.

Private Leo Mahar, now stationed at London, Ontario, is visiting his wife and family in Souris.

A fine play, "Here Comes Charlie", was presented on May 4th at Saint Mary's Parish Hall, Souris. Amusing comedy and numerous specialties were much enjoyed by those of the town and surrounding country-side, who were present.

Mr. Frank Macintosh, Charlottetown, spent the week-end of the 7th, at his home in Souris.

Friends of Mr. Francis White, teacher of Grades VII and VIII in Souris High School, will regret to hear that, at time of writing, he is ill at his home in Souris West.

Congratulations are extended to Miss Maureen Wood, Saint Mary's Convent, Souris, who has been selected to represent Prince Edward Island at the Red Cross Canadian-American Study Centre during the coming summer. Miss Wood is one of the three Island delegates who will attend the Study Centre to be held in Kingston, Ontario, the last ten days of August.

Sympathy is being extended to the wife and family of the late Edward Mahar, who passed away at his home in Souris West on Wednesday, May 4th.

Miss Mary MacLean student nurse at Falconwood Hospital, Charlottetown, spent a recent week-end at the home of her parents Mr. and Mrs. Joseph

ROSE VALLEY W. I.

The monthly meeting of Rose Valley was at the home of Mrs. James Cousins on May 4th. The president, Mrs. Wm. Newsome presided. Meeting opened by members repeating Mary Stewart Collect in unison. Roll call was answered by seven members paying a cent for each size of their shoe. There were two visitors present.

Minutes of last meeting was read and approved and signed Correspondence was read. It was planned to meet at Mrs. Wm. Matheson's on May 5th for quilting. It was also decided to make a quilt for a family who lost their home by fire.

Collection amounted to 50 cents. Program for next meeting, Mr. Wm. Matheson and Mrs. James Cousins. Next place of meeting Mrs. Emma McKenna. Roll call to be answered with an exchange of plant slips or garden seed. The meeting adjourned. Lunch was served by the hostess and a social hour followed.

Among the visitors to Charlottetown on the week-end of April 30th, were Mrs. Michael Dunphy and Mr. Ronald Macintosh.

Miss Louise Creamer is spending her vacation at her home in Souris. Miss Creamer is an X-ray technician in training in the Charlottetown Hospital.

Her many friends are pleased to see that Mrs. Joseph Hazelton has recovered from her recent operation in the Prince Edward Island Hospital and has returned to her home.

MAD? WHO'S MAD?

The Premier, speaking from Montague, had a few things to say about Conservative radio speakers and Conservative ads. When he had finished his fifteen minutes, the radio station announced that his broadcast was sponsored by the Progressive Conservative Party. This was a slip of the tongue—although there is no reason why we shouldn't have sponsored it. It was all about Conservatives.

The Premier promised Phillip Matheson that he was not going to lose his temper. He then gave an excellent imitation of a man who, if he had not lost his temper he had at least mislaid it. There were some who believed he lost both his temper and the argument.

The Opposition has criticized the Government for not living up to its election promises in 1951. We say they promised to build a number of "twenty-ton bridges". We say none can be found. The Premier says this is either dishonest or ignorant—he claims that his Government has built about seventy bridges. Well, we repeat that none can be found. Our good friend the Premier is counting clay-covered culverts—and who can find them on these roads?

The Premier says the Government didn't keep its promise of electoral reform because once it got elected it discovered nobody wanted it. Why the promise? Why fill out a platform with a lot of high-sounding resolutions that no one cares about?

The Premier now says that the Government didn't keep its promise to build a Home for Delinquent Children because once it got elected it suddenly discovered that a Home would cost too much.

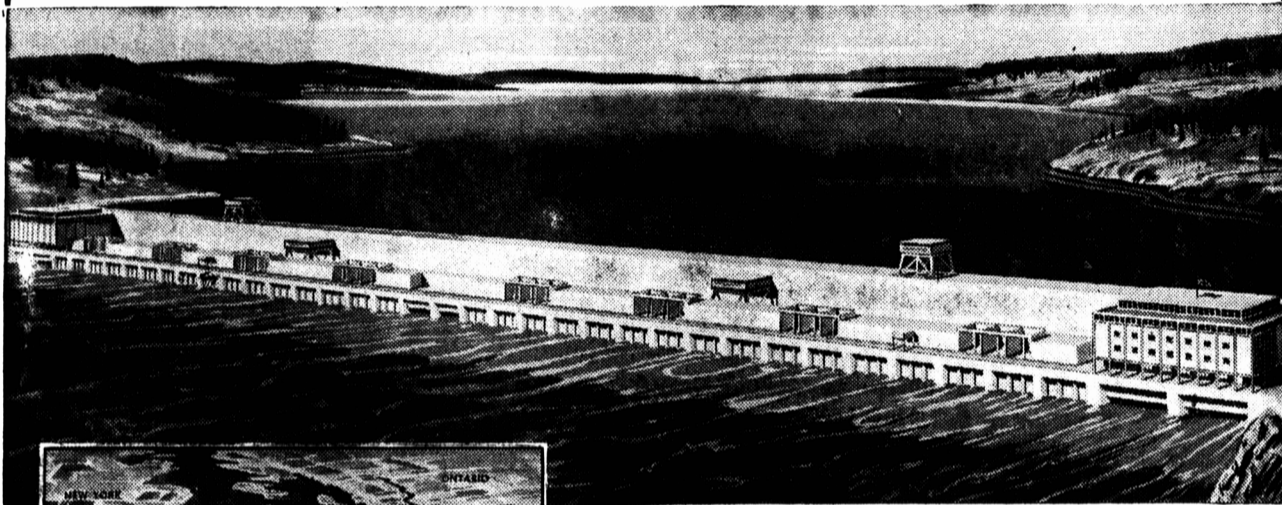

The Premier says that by not building the Home, he saved the taxpayer over \$100,000. By the same token he could promise a causeway from here to Newfoundland in this election and then come back later and tell us he's saved us billions by not building it. His present Minister of Health had another reason for not building the Home—"We got too many Liberal votes," he says.

Of the two excuses from the same Government, we like Mr. MacDonald's best.

Finally, the Premier said that "the Conservative gang" remind him of "Hitler". This was some time after he told us that he wasn't going to get mad.

Well, we forgive the Premier for that angry outburst. He knows better. The Conservative Party has among its candidates—including the group who are preparing this publicity—a good number of men who did their part to beat Hitler. These men have done at least as much as the Government who now liken them to "a gang" and "like Hitler." We don't expect an apology from the Premier—we already have it from some of his friends.

GENERAL ELECTRIC GENERATORS to harness St. Lawrence Power

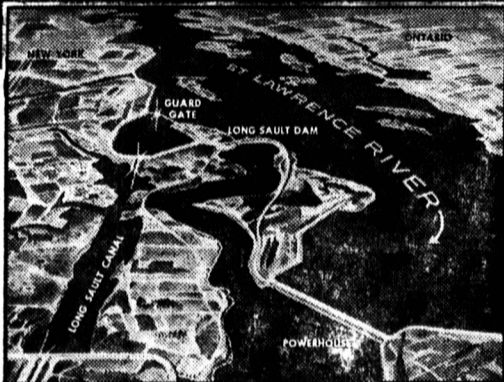

Artist's conception of the St. Lawrence River Power Project. One of the world's greatest hydro-electric sources, it will develop 2,200,000 horsepower shared equally between Canada and the United States. The powerhouse dam will be about three-quarters of a mile long. 24 of the 32 generators will bear the famous G-E monogram—16 in the U.S. section and 8 in the Canadian.

For decades Canadians have planned and looked forward to the day when ocean-going vessels could travel up the St. Lawrence into the Great Lakes... and the river's strength could be turned into electric power. Now that dream is to become a reality...

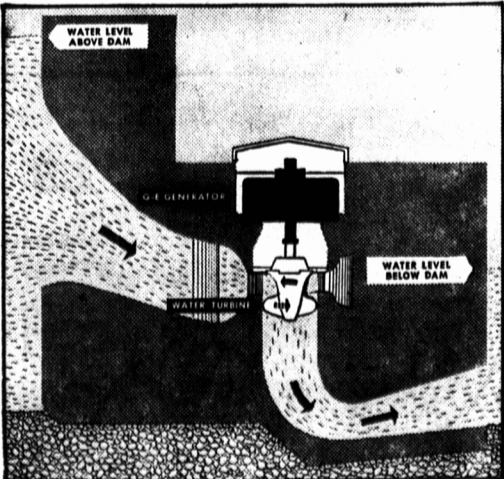

TODAY, dredges, earthmovers and piledrivers are carrying out a prodigious feat under sponsorship of both the Canadian and United States governments. The way is being prepared for a wide ship passage into the Great Lakes. At the same time, the bulk of the St. Lawrence River will be diverted through a single mighty hydro-electric dam. The mammoth power project is being brought to completion through the tireless work and enterprise of the Ontario Hydro and the Power Authority of the State of New York.

Great power developments such as this create the electricity needed for industry to expand, to bring about new industries, and to still further our electrical way of living in homes, communities and on farms.

The same manufacturing and engineering skills that go into the G-E electrical equipment being built for the St. Lawrence Project apply to all General Electric products. By making better equipment, not only to generate and transmit power, but also to put it to use, this Company constantly contributes to better living for Canadians.

Drawing showing location of the Power Project in the International Rapids section of the St. Lawrence Seaway near Cornwall, Ont.

Simplified cutaway view shows how water power will be converted into electricity. Each generator will be driven by a turbine located in the path of the water flowing through the dam from the upper to the lower level of the river.

The G-E generators for the Canadian section will be built at the Company's Peterborough Works. Larger than the one being assembled, above, they will be among the biggest in size ever made. The rotating part of each generator alone will weigh over 300 tons.

Progress is Our Most Important Product
