WELL BOSWELL, YOU MUST BE PLEASED TO SEE HOW YOUR BRANTFORD SUPER-TITE ROOF IS STANDING UP!

Brantford Super-Tite Slates

It takes more than a heavy wind to affect the Brantford Super-Tite Slates on any roof. In fact, we don't know of a single instance where a Super-Tite slate, properly applied, has blown off.

What's more, your Super-Tite Roof is impervious to snow, sleet, ice and rain. Special lock-type butts knit slates together into a trim keystone design that's both weather-tight and attractive.

You'll find the striking design of Brantford Super-Tites, in solid or exciting new duo-tone blended colours, particularly beautiful on large, unbroken roof areas.

Ask your architect, building contractor or nearest Brantford Roofing dealer for full information about Super-Tite 1/80's for re-roofing and 2/10's for brand new homes.
