WELLNER'S PRINCE EDWARD ISLAND ALMANAC FOR 1858.—W. B. Wellner, Esq., City Clerk, has favored the public with a new Almanac for the approaching year, which made its appearance during the past week from the press of Mr. Thomas Kirwan. It is got up in very good style—is about the usual size of Almanacs, and is filled with much useful local information.

NEWS BY THE ENGLISH MAIL.

THE English Mail arrived here on Friday night per steamer *Westmorland* form Pictou. Particulars relating to the fall of Delhi are given in the English papers, from which we make some extracts. Failures and financial difficulties continue to occur throughout various parts of Britain.

The celebrated General Cavaignac, who was dictator in France shortly after the revolution of 1848, has died.

THE FALL OF DELHI.

GREAT LOSS AND SLAUGHTER.

ESCAPE OF THE KING AND HIS FAMILY—MUTINIES OF BOMBAY REGIMENTS—REPULSE OF AN ASSAULT ON THE GARRISON OF LUCKNOW, WITH GREAT LOSS—DETECTION OF CONSPIRACY AT KURRACHEE—PUNISHMENT OF CONSPIRATORS—DISTURBANCES AT SHIKARPORE AND HYDERABAD—ARRIVAL OF REINFORCEMENTS.

The following telegraphic despatch has been received at the Foreign Office:—

Delhi was assaulted on the morning of September 14th, and the northern part of the city taken. On the 16th the magazine was stormed; and on the 20th the whole city was occupied. The King and his sons escaped disguised as women. The attack on the 14th was made with four columns, one of which, composed of the Cashmere Contingent, was repulsed; the other columns were successful. An entrance was first effected at the Cashmere Gate. An advance was then made along the ramparts to the main bastion and Cabul Gate. The resistance was very obstinate, and our loss was computed at 600 killed and wounded, including 50 officers.

General Havelock had re-crossed the Ganges on September 19th, expecting almost immediately to be joined by General Outram's force. A detachment of the latter force under Major Vincent Eyre had, on the 11th September, with the greatest gallantry, defeated a party of the enemy which had crossed from the Oude side of the Ganges, for the purpose of harrassing the advance of General Outram.

Letters from Lucknow, of the 15th or 16th, report all well. An assault on the 5th was repulsed by the garrison with great loss to the assailants. Plots have been discovered in Assam, and the whole of the North East Frontier is said to be in a disturbed state.

News from Agra to 12th September. Mr. Colvin died on the 9th: Colonel Fraser, of Engineers, appointed Chief Commissioner. All well in fort, but attack expected from Gwalior. Mutineers, notwithstanding Scindia's opposition, moved off to be on the Chumbul on the 6th; were at Dholepore by last accounts. Mutineers of Gwalior Contingent expected to march on Agra on the 18th.

All continues quiet in the Punjaub.

The Banda insurgents have seized Nagode, and have been joined by the 50th Bengal Native Infantry.

The mutineers of the Jodhpore Legion defeated the Rajah of Jodhpore's troops, killing the General and taking 3 guns, on the 9th of September; they then joined the rebellious Thakoor of the Arrah. Gen. Lawrence proceeded, on the 18th Sept., with a detachment from Beawr, and attacked the rebels. He compelled them to take refuge in the town of Gya, but found the place too strong for an assault to be risked, and accordingly fell back on Beawr. Captain Monck, the Political Agent in Jodhpore, was killed in endeavouring to join General Lawrence's force.

The Bombay Government has sent up her Majesty's 89th Regiment, and other European troops to the Northern division, to enable General Roberts to reinforce Gen. Lawrence.

Malwa is still in a disturbed state; but nothing of note has occurred. In Gwalior, Scindia is said to be raising a force of 15,000 men for the purpose of intercepting the fugitives from Delhi. A portion of the Mhow and Indore rebels are reported to have crossed the Chumbul.

The company of the Native Artillery at Hyderabad having been suspected of disaffection, was disarmed on the 9th Sept., and the guns secured. The 21st Native Infantry at Kurrachee was disarmed on the 13th of September, information having been given by two native officers of an intended outbreak. Conspiracy is believed to have been confined to a few men. Twenty-five deserted, but have been almost all taken and executed. At Shirkarpoor on the 21st September a Subadar and a Havildar of the 16th Native Infantry were arrested on suspicion of plotting a rising in that regiment. On the night of the 23rd September eleven men of the Native Company of Artillery seized the guns; they were not joined by others, and the guns were re-taken by a company of the 16th Native Infantry, the rest of the Artillery Company, and the police, four of the mutineers were killed, and the rest got away in the dark.

The Bombay Government has sent a wing of the 4th Foot, just arrived from the Mauritius, to Kurrachee. The commissioner in Scinde had previously sent detachments of his very small European garrison from Kurrachee to Hyderabad, and Shikarpoor Khelab is in a very disturbed state. All is quiet in the Nizam's country. In consequence of the mutinies at Jubbulpoor, the Commissioner in Nagpoor has applied to the Resident at Hyderbad for some squadrons of the 16th Lancers; the Resident has complied with the requisition, and has been reinforced by some squadrons of the 3d Madras Cavalry from Sholapoor.

A body of insurgents, who were threatening Gava, had been dispersed by a small force, chiefly composed of Sikhs, under Major Bartray. The rebels had, however, crossed the river in his rear, and, reaching the town in the evening, had liberated the prisoners from the gaol, and taken their departure next morning. A small number of Europeans who were entrenched in a bungalow were not molested.

Fears were entertained of a new outbreak in Assam. A conspiracy to restore the ex-Rajah had been detected. Col. Hannay had entrenched himself with his Ghoorkas at Debromghur (?). The Rajah was in custody.

There has been an encounter between a body of 200 Santhals and a party of Sikhs, under Lieut. Graham. The Santhals were speedily dispersed.

Sangor and Jubbulpore are being threathened by the Dinapore rebels under Kooer Singh.

The Native Artillery at Hyderabad, in Scinde, were disarmed on the 9th of September.

Bahar was much disorganised. Kooer Singh, the rebel chief at Arrah, had made an incursion into Rewah, in conjunction with the troops of the Rajah. The 5th Irregular Cavalry, who had been sent to oppose the rebels, were joined by all the disaffected, and laid waste the country. Sir Colin Campbell had despatched 1,000 men to check this movement.

An attempt was made at Admedabad, on the 15th Sept., to create a mutiny among the 2d Bombay Grenadiers, but the ringleaders were seized before they could carry out their designs.

A wing of the 4th King's Own had arrived from the Mauritius, and been despatched to Kurrachee.

A portion of Her Majesty's 95th had arrived from the Cape, and the rest daily expected. All is quiet in the Punjaub and the Deccan. The Bombay and Madras Presidencies also tranquil.

Mr. Samuels, the Commissioner of Patna, being informed that the insurgents had taken up a position at Gaya, ordered a party of Sikhs to attack them. The result was, that the Sikhs were out-manœuvred, and the insurgents entered the city and plundered it.

There was much commercial agitation; opium had risen to double its former price, and the Company's paper had fallen very much.

The Belleisle had arrived at Calcutta with the 93rd Highlanders. The steamer Madras, with the 3rd Light Infantry, from the Cape, reached Galle on the 25th September. Also, on the 3rd October, the Thebes, with part of the 38th Regiment, from England.

THE MONETARY POSITION.—A severe anxiety continues to be felt at the state of the money market. Except the increased stringency, and the pressure at the Bank, nothing fresh has happened since we last noticed the subject in our columns that materially alters the state of things. On the contrary, as we had, perhaps, seen the worst, we might have looked for improvement. But, true as it may be that we had seen the worst, we had not yet seen all the consequences of the worst; and we have still to undergo some suffering before we can declare commerce convalescent.

Nothing reflects more upon the character of commercial men for that intelligence of which they boast so much, than the surprise which is manifested by some of the best informed as to practices which ought to have been well known, at least to those who are acquainted with trade in Europe and America, or at events which ought to create no surprise, if people could have looked an inch beyond their noses. The City people appear to have been taken quite aback by some of the recent disclosures; as in the case of the Liverpool Borough Bank, which is found to have been lending its high character, and its powerful machinery, to multiply that kind of spurious circulation, accommodation paper; and now it is announced, as a new discovery, that "analogous facts have lately been exhibited among individuals who have held a good place on 'Change, and a position generally in which any misdeeds must compromise the British name."—*News of the World, Nov.* 8.

There have been no fewer than 105 bankruptcies in Vienna during the last two months.

After seven days' debate, the Swedish Chambers of nobles, clergy and peasants have rejected the law conferring religious liberty. The order of citizens (*bourgeoisie*) has alone voted it.

Died,

On Friday evening, the 20th instant, at Charlottetown, after a lingering illness, SARAH, wife of Mr. James Coles, senior, and mother of the Hon. Colonial Secretary of this Island, in the 71st year of her age.

On Wednesday, the 18th instant, of Consumption, Susan Hammel, at the early age of 19 years. To a blameless life she added a mild disposition, and she died, as she lived, at peace with God and man.

At Bay Fortune, on the 22d of Oct., Nicholas Failla, Esq., in the 96th year of his age. He was a native of Guernsey, from which he emigrated to this Island A. D. 1805. He was captain of a transport ship in government service for 14 years, and held a commission of Justice of the Peace for a number of years on this Island. He was a man very highly respected by his friends and acquaintances, was a full communicant in the Presbyterian church, and during the last 33 years of his life he was totally blind. During the last three days before he died he was speechless, yet from what was known of his religious experience and conduct, it is confidently believed that he died strong in faith, trusting in the merits of his Saviour, and is now, after a sojourn of nearly 100 years on earth, rejoicing in the presence of his heavenly father.

Launched,

On the 4th current, from the shipyard of Wm. Bearisto, Esq., Mill View, Lot 17, a very superior Copper fastened Juniper Brig of 225 Tons, called the AFTON,—built under the inspection of Lloyd's agent, for James Yeo, Esq., of Port Hill.

Police Court.

Nov. 23—Thomas Cahill, farmer, for exposing for sale and selling a carcase of Measley Pork; convicted;—said pork was ordered to be publicly burned at the Market Square on Wednesday next, pursuant to the By-Law in such case made and provided.

Ayer's American Almanac for 1858 is now ready for delivery, gratis, at Desbrisay's and Watson's, who are happy to supply all that call for them. Every family should have and keep this book. It is worth having. Comprising much general information of great value; it gives the best instruction for the cure of prevalent complaints that we can get anywhere. Its anecdotes alone are worth a bushel of wheat, and its medical advice is sometimes worth to the sick the wheat's weight in gold. Many of the medical almanacs are trash, but this is solid metal. Its calculations are made purposely for this latitude, and are therefore correct. Call and get Ayer's almanac, and when got, keep it.

A VALUABLE FAMILY MEDICINE.

So celebrated has Dr. M'Lane's Vermifuge, prepared by Fleming Bros., of Pittsburgh, Pa., become, that it is regarded as the only specific cure for worms. Families should never be without a supply of it. At this season particularly, when worms are so troublesome and frequently fatal among children, parents should be watchful; and on the first appearance of those distressing symptoms which warn us of their presence, at once apply this powerful efficacious remedy. We are confident that it only requires a trial, to convince all that it richly merits the praises that have been lavished upon it. It is safe and infallible. Volumes of certificates can be produced, showing its great medical virtues.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS., of Pittsburgh, Pa. All other Liver Pills and Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge and his celebrated Liver Pills can now be had at all respectable drug stores. *None genuine without the signature of*

[34] FLEMING BROS.

Holloway's Ointment and Pills will effect rapid cures of indolent sores, and every variety of scrofula. They act so miraculously upon the system as to be considered a complete phenomenon in the healing art. The pain and malignity of the appearance of the disease is instantaneously soothed by the application of the Ointment, while the Pills produce an equally beneficial alteration in the internal members, until, at last, all traces of the disease both internally and externally disappear. It is for this reason that these remedies are advocated by all-modern practitioners, after every thing else has been found unsuccessful. 36

FEVERS.

Fevers, like every other form of disease to which the human system is liable, is caused by impure humors. This being caused by the more rapid action of the blood struggling with nature, in endeavoring to cast out of the body the corrupt matter which is deadly opposed to health. Hence the good and bad humors are at war with each other, and the commotion which follows causes fever and heat. The symptoms of fever are various; causing heariness, languid, difficult breathing, eyes dull and heavy, anxiety, sighing and yawning, thirst, nausea and sickness, a fulness about the stomach, and sometimes vomiting bilious matter. Dr. Morse's Indian Root Pills are acknowledged to be a strengthening and delightful medicine for all kinds of fevers. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body. All that is required, in urgent cases of fever, will be to take large doses. In order to have them operate thoroughly by the bowels, take from three to five, night and morning, until the fever entirely disappears. After which, from two to four every evening, until well, and you will be convinced that this is the best way to check fever, because they drive out all inflamation, and restore the body to a state of sound health. And the blood and other fluids will be so thoroughly purified that disease in any form will be utterly impossible.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

PREPARED BY

JAMES C. AYER,

Assayer and Practical Chemist,

LOWELL, MASS.

Price 25 Cents per Box. Five Boxes for $1.

SOLD BY

Also, by M. W. Skinner, and all Druggists throughout the Island.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use, and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass
