Marriage Mender In Trouble Himself

LONDON (AP)—Mayo Wingate, 41-year-old psychiatrist and expert on mending broken marriages, admitted Tuesday his own is on the rocks.
After the Second World War Wingate devised a question-and-answer method of scientific matchmaking. But he used the old-fashioned boy-meets-girl approach when he married actress Beryl Robinson in 1951.
Now she is suing for divorce, charging cruelty.
Wingate helped found the Marriage Society in 1945 to plan perfect marriages. It sent out questionnaires—with such questions as "Are you fond of a soft bed? Do you like getting up late? Did your mother want a child of the opposite sex when you were born?"—then paired off applicants on a points system.
The society received 5,000 applications in the first two years, then folded when the supply of men dried up.

Marriage Mender In Trouble Himself

LONDON (AP)—Mayo Wingate, 41-year-old psychiatrist and expert on mending broken marriages, admitted Tuesday his own is on the rocks.
After the Second World War Wingate devised a question-and-answer method of scientific matchmaking. But he used the old-fashioned boy-meets-girl approach when he married actress Beryl Robinson in 1951.
Now she is suing for divorce, charging cruelty.
Wingate helped found the Marriage Society in 1945 to plan perfect marriages. It sent out questionnaires—with such questions as "Are you fond of a soft bed? Do you like getting up late? Did your mother want a child of the opposite sex when you were born?"—then paired off applicants on a points system.
The society received 5,000 applications in the first two years, then folded when the supply of men dried up.
