

ADDRESS FROM THE CITY GOVERNMENT TO HIS EXCELLENCY THE LIEUT. GOVERNOR.

The Mayor and Common Council of the City waited upon His Excellency at Government House on Friday, the 10th instant, and presented him with a congratulatory Address upon his assumption of the Government of this Island, a copy of which, together with His Excellency's reply, are as follow:—

To His Excellency George Dundas, Esquire, Lieutenant Governor and Commander-in-Chief in and over Her Majesty's Island Prince Edward, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY— Our gracious and beloved Sovereign having been pleased to appoint your Excellency her Representative in this Colony, we, the Mayor and Common Council of the City of Charlottetown, beg to congratulate your Excellency on your assumption of the Government, and most cordially to welcome your Excellency and Mrs. Dundas to our shores.

The experience which your Excellency has acquired as a member for several years past of the British Parliament, and your knowledge of the true principles of the Constitution of the Mother Country, afford us a well grounded assurance that your Excellency's Government will be administered, in strict accordance with those principles, and that thereby the public welfare will be duly maintained, and private rights respected and secured.

Our City, but recently incorporated, has hitherto made little progress. We trust, however, that as the resources of this fertile Colony become more fully developed under the fostering care of your Excellency's administration, our City will grow in wealth, consideration and importance.

We beg, on behalf of the citizens of Charlottetown, to assure your Excellency that nothing shall be wanting on their part to render your residence among us pleasant and agreeable to your Excellency and family.

(Signed) T. H. HAVILAND, Mayor. Charlottetown, 8th June, 1859.

REPLY: GOVERNMENT HOUSE, 10th June, 1859.

GENTLEMEN—

Your expressions of loyalty to our Queen—who has honoured me by entrusting to my care the administration of the Government of your Island—are most gratifying; and, coupled as they are with your hearty welcome to Mrs. Dundas and to myself, convey to me sincere feelings of pleasure.

I rejoice that a parliamentary life of considerable duration has afforded me an opportunity of acquiring a knowledge of the true principles of the admirable constitution of our Mother Country, and of gaining an experience of the best methods of conducting public business, that will, I trust, enable me to be useful in the responsible position which I have been called on to fill among you.

The recent incorporation of your town will add materially to its progress and prosperity. Its position on a noble harbour, and backed by a fertile country, is highly favoured; indeed, the natural advantages and the capabilities of your Island fill me with admiration; and it will be a source of pride and satisfaction to me if I am enabled to further your efforts to improve the one and develop the other.

On the part of Mrs. Dundas and myself, I return you our warm thanks for the hospitable welcome and the cordial assurances of good will you have extended to us.

GEORGE DUNDAS, Lieut. Governor.

The Mayor and Corporation of the City of Charlottetown.

TO OUR SUBSCRIBERS.

We desire to inform our Subscribers to the Eastward in King's County, that Mr. Richard Hayse, our Agent at Souris, is directed to proceed for the recovery of all amounts due to us by Note of Hand or otherwise, immediately. Our Agent at Summerside, P. M. Power, Esq., has similar authority with respect to the collection of our debts in Prince County. Those remaining due in Queen's County for a period of more than two years will be sued for forthwith in the Small Debt Court at Charlottetown. There are over fifteen hundred pounds due to us in this Island for subscriptions to the Examiner for the past eight years and for the Royal Gazette for four years. We have suffered great inconvenience and loss by allowing this very large amount to accumulate; and no matter what may be the consequence, we are now determined to enforce the payment of it all. We are much obliged to our numerous Liberal friends for their generous promises of support; but we cannot publish a paper on mere promises.

EGLETON INSTITUTE.—The above Institute met on Saturday, the 28th inst. When the business of the Institute was over, there was a lengthy and tonic debate on the credit system, viz: "Whether the credit system is a benefit or an injury to the Island."

The next regular meeting will be held on Saturday, the 10th June next, when the subject for debate is, "Whether it is better for a man to marry a rich indolent wife, or a poor industrious one." Bay Fortune, May 30, 1859. W. C. McKIE, Secretary.

AN AVALANCHE OF CELEBRITIES.—Our city has been visited, during the past week, by a number of distinguished personages. About the close of last week, Sir Dominick Daly, the Ex-Governor of Prince Edward Island, arrived in town en route for England. During Sir Dominick's stay in Halifax he was the guest of Hon. Edward Kenny. On Tuesday, Vice-Admiral Sir Houston Stewart reached here in the Andalus from Bermuda. On the evening of the same day, the Gasseti brought in a French Commodore. The America on Wednesday, brought General Williams, and the new Governor of Prince Edward Island, Mr. Dundas. Sir Dominick Daly took his departure, in the Canada, on Thursday evening, for Liverpool. The other celebrities named above are still in Halifax.—Hr. Recorder.

UNITED STATES.

MURDER AT WARWICK.—On Friday evening, just before 9 o'clock, Mr. Barrill Arnold, a well known and estimable citizen of Centreville, Warwick, R. I., was shot dead in his store.

Mr. Arnold has been very conspicuous as a complainant for violations of the liquor law, and at the time of the occurrence had just returned from this city, where it is understood he had entered six complaints against parties in this country. It is supposed that revenge for his faithfulness in this respect was the motive which prompted the deed. The outrage, of course, created an intense excitement in the town, and a reward of \$500 has been offered by the Government for the discovery of the murderer, but as yet it does not appear that the officers are on his track.

Mr. Smith O'Brien sailed from New York for Ireland on Saturday. His departure was made the occasion of further demonstrations of good will and regard on the part of numerous bodies of his countrymen.

Robert Morrison, a well known citizen of West Troy, and Sheriff of Albany County, was murdered at a late hour on Friday night, robbed, and his body was thrown into the canal basin from which it was recovered on Saturday.

On Tuesday night, in New York, a young woman named Alice Doren, of about twenty-five years of age, employed as a chambermaid in Lovejoy's Hotel, met with her death under the following circumstances: She had left the house early in the evening, without permission, and did not return till about 11 o'clock, when, in order to avoid being seen by her employer, she undertook to reach her room by means of a bridge which leads from the front to the rear building, and is generally used by the chambermaids of the house. None have access to the bridge but the servants, who are provided with keys. She succeeded in opening the door and locking it again, but in crossing the bridge dropped her key, and in stooping to lift it lost her balance, and was precipitated to the yard beneath, which is flagged, a distance of some twenty feet. In her fall her neck was broken, and she died instantly. The bridge is not used after dark, and the servants are cautioned to that effect.

A Frenchman, named Hubert, committed suicide in New York, on Thursday, by taking arsenic. He was a somewhat distinguished man in Paris during the revolution of 1848, and, as a notary, had the signing of death warrants. He came to New York three years ago, and being poor, was aided by remittances from his friends in Paris. Recently the remittances grew too small for his support, and this difficulty with the want of some employment in this country and other troubles, threw him into despondency. The man with whom he temporarily resided in West Broadway, was one whose death warrant he had signed among others, but he managed to escape. They were, however, sincere friends in this country.

On the 16th ult. at Key West, a most destructive fire occurred. The total loss is estimated at \$300,000, on which there is an insurance to the amount of \$100,000, all in New York offices.

On the 24th inst. six men undertook in a light skiff to go over a rapid in the Magaguadavic River, which the oldest inhabitant of this place has never known to be accomplished. Shortly after reaching the rapids, the skiff filled with water—four men gained the shore with much difficulty, but the other two were drowned; their names are Robert Hall, of Nova Scotia, and Patrick Noonan, of St. George.—St. John Paper.

Birth,

At Ainslie Cottage, Grand River, Lot 56, on the 10th inst., the wife of J. C. Underhay, Esq., of a daughter.

Died,

At New Glasgow, Nova Scotia, on the 29th ult., Mrs. Charles Sutherland, in the 60th year of her age. She was a mother indeed; and in her death her family have sustained an irreparable bereavement.

At Newton, Belfast, on the 1st inst., of Inflammation in the Chest, Mr. John McPhail, District Teacher, late of Orwell Cove, third son of the late Mr. William McPhail, Teacher, aged 19 years and 7 months, much regretted by all who knew him.

At Cavendish, on Sunday last, Mary, wife of Mr. Henry Robertson, in the 62nd year of her age.

At Portage, Lot 36, of Consumption, on Wednesday, the 8th inst., William Murphy, deeply regretted by a large circle of acquaintance.

PORT OF CHARLOTTETOWN.

B.; timber and deals—by Hon. James C. Pope.

Holloway's Pills are invaluable to the denizens of the south and west. They are preventives to the ravaging approaches of fever and ague, and the other epidemics incidental to alluvial soils. They will thoroughly eradicate the symptoms by removing the high cause, while to the inhabitants of our town and country, it is well known to them they immediately remove every symptom of bile from the system, and imparting tone and vigor to the functions of the stomach.

Important to Shipmasters and Crews.

Some twenty years since I was very seriously injured in one of my hips, by coming in contact with the anchor of the ship of which I was second mate. The bruise was so bad that my hip has given me great trouble most of the time since, until a year ago last April, when I heard of Davis' Pain Killer, and immediately procured a bottle, and by using it according to the directions, was entirely cured in about ten days, and have not experienced the least trouble from my complaint since.

Feeling the importance of having this valuable medicine constantly by me, before starting for Europe in March last, in the ship Louvre, from New York, I purchased two large bottles to take with me. While at Antwerp, one of my crew was attacked with a severe dysentery; I gave him the Pain Killer, and it cured him in a hurry.

On my passage home, with one hundred and sixty-four passengers, I administered this valuable remedy to all who were sick, and none took it without getting relief. One lady passenger in particular was troubled with a bad headache, for which she said there was no cure, having been troubled with it most of the time for years. I told her I had a sure remedy, and gave her the Pain Killer, which to her surprise, did effect the cure she had long sought in vain for. I had as good a medicine chest as ever was put on board a ship, but did not open it, there being no necessity for it—the Pain Killer answering all purposes. And I do most sincerely recommend to every shipmaster always to take a good supply of this valuable medicine with him on going to sea, as it is so valuable and convenient to use in case of wounds or bruises, which are liable to, and frequently do happen to crews on shipboard.

CHRISTOPHER ALLYN, late Master of the ship Louvre.

THE LOGIC OF FACT AND EXPERIENCE.

The only seeds that flourish in all climates are the seeds of disease and physical decay. But they no longer germinate and flourish unchecked. Wherever they exist, Professor Holloway's remedies have reached them, and in every region to which those famous medicaments have penetrated, the sick have had occasion to rejoice. In British America, from the Hudson Bay Territory to the southernmost point on Lake Erie, from Labrador to the Pacific, in fact in every spot of the inhabited world, they seem to have been adopted by persons engaged in every pursuit, as the best specifics for the diseases incident to the sudden and violent change of temperature which characterises our climate; and also those diseases which more immediately spring from the heats, the colds, and the damps—less subject to change, but not the less dangerous to human life—of other countries. The Ointment has been applied with remarkable, and we believe unvarying success, in scorbutic and scrofulous disorders, inflammation of the respiratory organs, and enlargement of the liver.

Professor Holloway, like all great innovators who attack old dogmas, and substitute vital truths in their stead, has been assailed by the slaves of precedent both here and in the colonies. But they have realised the fable of the viper and the flea. Hostility has only inspired this extraordinary man with new energy. Knowing that the operation of these medicines would

confute and confound his opponents more effectually than words, he has expedited them with renewed zeal to every part of the world, and left the hierarchs of the schools to argue the question of Quackery with the convalescent and cured. We fancy it would be difficult for the most acute logician to convince the myriads who have benefited by Holloway's universal remedies, that a medicine which breaks up the Fever and Ague in a few days, cures the most obstinate bilious remittants, replaces debility with strength, and gives to prostrated labor a new lease of health, is a "nostrum" or a "humbug," or the offspring of "quackery." It is quite too late at this day to raise such cries against Professor Holloway and his wonderful remedies. His fame is no less extensive, and his more extensive than the limits of Christian life, and the shrieks of envy and prejudice, were they ever so fierce and shrill, would be unheard amid the grateful shouts of the multitudes, in all regions, who have found health and healing in his inestimable preparations.

Served him Right.—Simonds, of St. Louis, who made and sold a counterfeit of Ayer's Cherry Pectoral, has been placed within the narrow limits that should catch all scoundrels. Imprisonment, though it be for years, can scarcely punish enough the heartless villain who could execute such an imposition upon the sick. The wicked rascal who for paltry gain could thus trifle with the health and life of his fellow man—take from his lips the cup of hope while sinking, and substitute an utter delusion and cheat, would fall at no crime, and should be spared no punishment. Some of his trash is still extant in the West, and purchasers should be wary of whom they buy. [Gazette, Utica, N. Y.]
