K O K
THE NEW CANADIAN BEVERAGE!
KAOKA,

The Only Satisfactory Substitute for Tea and Coffee. Highly Recommended for Regular Use at Ordinary Meals.

THE VERY BEST ARTICLE FOR DIETARY USE EVER DISCOVERED.

THE injurious effects which the continuous use of tea and coffee have on the human system are well known. The most eminent physicians advise the patients to abstain from using either. Owing to the taste for these beverages which has been universally acquired, it has been found necessary to find a substitute. Various substitutes have been tried, but KAOKA is the only one ever discovered which has been found to perfectly answer the purpose. Unlike Tea and Coffee, it contains neither Theine nor Caffeine, nor any other poisonous principle whatever which can even by long use, prove hurtful to the weakest constitutions. It is especially recommended for sick persons and children. Families using white bread habitually should adopt KAOKA as their regular drink at meals. They will then have supplied to them the elements which, when taken into the system, go to form bones, nails, teeth, sinews and brains, and which have been separated from the fine flour of which the white bread is made. Thousands of persons who have been afflicted with Dyspepsia, Nervousness, Indigestion, Sleeplessness, Sick Headache, &c., have been restored to perfect health by eschewing tea and coffee altogether, and drinking with their meals nothing but KAOKA. It contains no "chemicals." The elements from which it is made are wheat and sugar, nothing more.

For sale in pound and half-pound packets at the "Crown Grocery," South Side Queen Square.

ROBERTSON & CAMERON.

Charlottetown, October 1, 1880—30 ins ed

Cabinet Mending.

It is reported that in the room of Messieurs Masson and Baby, Messrs. Mosseau and Caron will enter the Government; and that Mr. Caron becomes Minister of Militia, and Mr. Mosseau, President of the Council. Sir Alexander Campbell returns to his former office of Postmaster General. Hon. John O'Connor becomes Secretary of State, and Hon. Mr. Aitkins becomes Minister of Inland Revenue. The two new members of the Government are very worthy representatives of the Frenchmen of Canada. Both are spoken of as men of marked ability and fine accomplishments.

The Unexpected Change.

OPINIONS OF THE PRESS.

(Summerside Progress)

We quite agree with the EXAMINER that the vacancy caused by Superintendent McNab's removal should have been filled by the promotion of the most competent Island official on the road thereto—if there be one who is qualified to fill the position—and we can't see that the duties connected with the superintendency of our road are so very grave, but men who have had several years' experience on the road could safely and efficiently discharge them. That the affairs of our Railway will never be satisfactorily managed until an Island man is put in charge we believe, and the sooner we have one there the better. Our representatives ought to see to this matter, and if we have an Island man who is capable of filling the office insist on his appointment thereto.

The Prosecutions in Ireland.

SUMMARY OF THE INDICTMENT.

"Be it remembered that the Right Hon. Hugh Law, Attorney-General of our Sovereign Lady the Queen, who comes into the Queen's Bench division of Her Majesty's High Court of Justice in Ireland, at Dublin, gives the Court here to understand and be informed that Messrs. Parnell, Dillon, Biggar, Sullivan, Sexton, Egan, Brennan, Malachi Sullivan, Boyland, P. J. Gordon, Harris, Nally, Walsh, and Sheridan, together with divers other persons whose names are unknown, being evil-disposed persons, and unlawfully and wickedly devising, contriving, and intending to impoverish and injure divers large numbers of liege subjects of the Queen, whose names are unknown, to wit: the owners of farms in Ireland, let to tenants in consideration of payment of rent, unlawfully among themselves did conspire, combine, confederate, and agree together to solicit, incite and procure divers large numbers of the said tenants in breach and violation of their respective contracts of tenantry to refuse to pay to the said owners rents which they, the said tenants, were lawfully bound to pay, and to which the said owners were lawfully entitled, to the great damage of the said owners and to the evil example of all others in like case offending, and against the peace of the Queen, her Crown and dignity." In these the traversers are charged with unlawfully threatening to cut off and utterly exclude from intercourse or dealings in the way of buying and selling, and with treating as though affected with a loathsome disease, so as to hold up to hatred and contempt, every tenant paying the rent which he was lawfully bound to pay; with threatening and menacing violence and injury to the person and property of every tenant who should pay rents above the Government valuation; with impeding and frustrating the administration of justice and execution of writs and court decrees by agreeing not to buy or bid for goods taken in execution and offered for sale, by excluding from intercourse, &c., all persons bidding or buying; with inciting and assisting the tenants to retain possession of lands from which they had been evicted; with refusing social intercourse, &c., and subjecting to loss or injury all who should take a farm from which a tenant had been evicted; with seditiously conspiring, combining, confederating, and agreeing together to cause and create dissent and disaffection among the liege subjects of the Queen, and to excite and promote feelings of ill-will and hostility between the different classes of her said Majesty's said subjects, that is to say, between the landlords and tenants; and, further, that they did excite and promote feelings of ill will and hostility towards the landlords in Ireland, among the rest of the Majesty's subjects in Ireland, to the great terror and alarm of the said landlords, to the evil example of all others in like case offending, and against the peace of our Sovereign Lady the Queen, her crown and dignity.

Dr. L. Gibson, a London health officer, reports that, whatever may be the cause, there is no doubt that a Jew's life in London is, on the average worth twice as many years as a Christian's. The Hebrews of the metropolis are notoriously exempt from tubercular and scrofulous taint. It is very rare that one meets with pulmonary consumption among them. The medical officer of one of their large schools has remarked that their children do not die in anything like the same ratio as Gentile children; and in the district of Whitechapel the medical officer of health has reported that on the north side of the High street, occupied by the Jews, the average death rate is 20 per 1,000, while on the south side, occupied by English and Irish, it is 43 per 1,000.

NOT FOR GLORY—OR FUN—BUT FOR BREAD AND BUTTER.—Some people have an idea that a publisher publishes his paper for almost anything but to make money. In fact, this class of people is too numerous for the good of the newspaper fraternity. Compliments are very acceptable, and thanks cheer the publisher, but bread and butter are what he and his family live upon. Publishing is a business, just the same as manufacturing or keeping a store. A manufacturer or storekeeper would think a man crazy who came into his office every little while, and, after complimenting his goods, asked him to give him a few of them. This is just the kind of customers the publisher must expect to deal more or less with, six out of seven days in the week. We are not speaking of men who are advertisers and who have bought a right to some privileges in the paper. We are speaking of that immense class of dead-beats, who send a six-cent puff of their business, in a three-cent envelope, closely written on both sides; and of another numerous class who are constantly dropping in, or dropping it in, on the publishers, in little dribbles, sandwiched in between a smile and a compliment, and a mustard plaster of cheek. The sooner these people find out that every inch of a publisher's space is so much money to him, the sooner will publishers see a little profit in their business.—Printers' Miscellany

THE BASUTOS.—A despatch of the 6th inst., from Capetown, reports that the mountain stronghold of the Basuto Chief Maletoane was successfully stormed by Col. Clark's forces. During the operation 5,000 Basutos attacked the Colonel's detachment holding Lerothode's village, and before reinforcements could arrive, the small body of men were surrounded on all sides, and five were killed. The enemy advanced in great numbers, compelling the Colonel to retreat, in an orderly manner, and relinquish his position. The Tembuare in open rebellion, and reinforcements are being sent to all important points.

Dr. Cutter says that the increase of nervous diseases, decaying teeth, premature baldness and general lack of muscular and bone strength are greatly due to the impoverished quality of flour now in use, the gluten being thrown away in order to make the flour white. He urges the use of unbolted flour and of eggs, milk and butter. He denies that fish is brain food or that Agassiz ever said that it was, and claims that butter, being nearly all fat, is a better kind of brain food than any other.

The American exploring steamer *Jeanette* is reported lost with all hands. A steamer which arrived at a port in Japan on the 12th of October, from the North, announced that according to information received from the natives, the *Jeanette* and some whalers had been lost with all hands—the vessel having been crushed in the ice.

They are so particular in Texas, about horse thieves that no one dares take a pony of beer for fear of being hung, but sails out in a schooner. Great State, that Texas. When it is safe to breathe freely they will probably send missionaries there.

The Baroness Roger de Launay ventured to ascend the Right of the Alps without a guide. She slipped over a small precipice, and received injuries from which she expired two hours later.

Kit Carson, a son of the famous scout, says that he and Henry M. Stanley, of African renown, once clipped sheep at two cents a head in New Mexico, and worked with a team near Eden, Utah, for \$15 a month.

So many females of first families are eloping with gardeners and canal boatmen that we dread to think of what would become of us should poverty suddenly overtake us.

A debtor's tree—Willow. A boarding-house keeper's tree—Ash. A tree that everybody would like to be—Poplar. The school girl's tree—Gum.

On the 7th of October last one thousand houses were destroyed by a hurricane in Tokio, Japan.

Remedy for Hard Times.

Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple pure remedies, Hop Bitters that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

A Good Account.

"To sum it up, six long years of bed-ridden sickness and suffering, costing \$200 per year, total \$1,200—all which was stopped by three bottles of Hop Bitters taken by my wife, who has done her own housework for a year since, without the loss of a day, and I want everybody to know it for their benefit."
"JOHN WEEKS, Butler, N. Y."
