Weather Bulletin. Probabilities for the next 24 hours for the Maritime Provinces. TORONTO, Oct. 17—10 a. m. Easterly winds, increasing to gale; cool, cloudy to rainy weather.

—During the fiscal year which ended last June, the old Provinces of the Dominion sent ten and a half million dollars worth of manufactured goods to Manitoba. The home manufacturers found a ready sale in the West, and broke down the former American trade. It is but one of the many incidents of the beneficial home effects of the tariff. Canada, as a whole, prospers with the prosperity of any one section of her community.

"TWENTY-FOUR YEARS' EXPERIENCE," says an eminent physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used, Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cents per box, or 6 for \$2.50, and on receipt of an order for 12 boxes, accompanied with \$5 00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. Arabi on Trial.

800 DOCUMENTS CAPTURED.

Victor Hugo on Arabi.

Special Despatch to the Examiner.

LONDON, Oct. 16.

Arabi's trial is progressing, and his counsel are now engaged in endeavoring to trace the whereabouts of Ninet, the Swiss adviser of Arabi, who can prove that Arabi did not encourage looting and robbery on the part of his men. Ninet can prove that Arabi ordered Bedouins to be shot who were captured in the act of looting.

A Cairo correspondent of one of the daily papers says that he believes that the evidence of Arabi's complicity in the June massacre will be insufficient to secure conviction. So far the evidence points in the other direction, and shows that Arabi did what he could to secure order, but seeing that he was powerless to stop the plunder, hastened away from Alexandria. Arabi declares that the British Government are to be blamed for the massacre at Alexandria. The presence of the British fleet in the harbor, and the action taken by the British officials, precipitated the Alexandria massacre.

The Foreign Office is now in possession of about eight hundred documents, containing the correspondence between Arabi and many officials of high rank. These papers were discovered by Wolsey after the battle of Tel-el-Kabir. They will be of great importance in arriving at a definite solution of the Egyptian question.

Victor Hugo has just published a powerful appeal deprecating the execution of Arabi.

The trial of Arabi is the chief topic in the press. Much sympathy is expressed towards the rebel, and the Government have been urged to take charge of the trial.

ARRIVAL OF THE SICK.

The "Times" on the Canal.

The "Mosel" Enquiry.

The Ismailia transport arrived safely at Portsmouth to-day. The vessel brought two hundred and eighty-six invalids. Thirteen of the invalids died on the way home.

The London Times now sees that there is a good prospect of a favourable understanding between England and France on the Egyptian question.

The Commission appointed to enquire into the loss of the "Mosel" wrecked at Lizard, came to the conclusion that the Captain was entirely free from blame. It censured severely the first officer of the vessel, and cancelled his certificate.

Resisting Russian Pressure.

The Sultan's Ruse.

DAVITT ON THE MOVE.

Aleko Pacha, Governor of Eastern Roumelia, is actively resisting Russian pressure in that direction. It is said that the Russian authorities are doing their best to control the appointment to command in the Roumelian militia.

The Sultan's acceptance of Said Pascha's conditions of remaining in office is thought to be only a ruse of the Sultan, and that he has really decided to frustrate the Premier's plans.

Davitt intends to go to Great Britain soon after the great National Conference. News reaches here that Winter has commenced in earnest in Russia. The navigation on the Volga is now closed by the drift-ice.
