Predicts New Increase In Mineral Production

TORONTO, Jan. 3 - (CP) - Canada's mineral production may reach \$2,000,000,000 within four years, V. C. Wansbrough, vice-president and managing director of the Canadian Metal Mining Association, said in a year-end review.

Citing an estimated production of \$1,200,000,000 in 1951, Mr. Wansbrough said the industry is heading towards a \$2,000,000,000 year, and "that year might well be 1955 if present prices and production trends continue and major expansion projects in aluminum, iron ore and petroleum come in on schedule."

While rising prices account for a large part of the increase in dollar value, volume is rising, too, said Mr. Wansbrough, and in 1951 the index of physical volume was higher than ever (1927 compared with an average 100 in 1935-39, and a war-time high in 1941 of 134.5).

NOTICE

All School Assessments not satisfactorily settled with our Secretary on or before March 1st, 1952, will be collected through the County Court March Term

BORDEN SCHOOL TRUSTEES

No trespassing on my property by the Public and Maritime Electric.

E. G. NEWSON, Brackley.

NOTICE

In 1952 an increase of five per cent in nickel production is expected over this year's 275,000,000 pounds, still short of the 1943 peak of 288,000,000 pounds. Sherritt Gordon's nickel property at Lynn Lake, Man., is expected to be in production within three years and to add 17,000,000 pounds annually.

NOTICE

Copper and zinc were each up 20 per cent, copper at \$148,000,000, a record, and zinc at \$117,000,000. Lead increased 12 per cent to \$55-000,000, but volume was slightly lower and prospects for 1952 indicate little change.

NOTICE

Asbestos reached \$80,000,000, up 23 per cent. Gold production was about \$160,000,000 showing the first decline since 1945, and Mr. Wansbrough comments: "The position of the gold mining industry as a whole has not been changed appreciably by freedom to sell on world markets. At the moment, the Canadian mint price is averaging \$35.90 while the free market is approximately \$39-50."

NOTICE

"Assistance under the Emergency (Federal) Gold Mining Assistance Act has amounted to approximately \$43,000,000 during its four years of operation. Total for 1951 is estimated at \$11,000,000. In a period of steadily rising costs, cost-aid has assisted and in some cases extended and saved the lives of many of our gold mines."

NOTICE

Mr. Wansbrough said that on Aug. 1 the average weekly wage in the mining industry stood at \$60-32, the highest for any Canadian industry. He added that approximately 10 per cent of the industry's working force of 80,000, are new Canadians who have come to Canada since the war.

ATTENTION HOG PRODUCERS

FOR HIGHEST RETURNS AND PROMPT, EFFICIENT SERVICE, SHIP YOUR HOGS AND OTHER LIVESTOCK THROUGH OUR TRUCKERS EVERY WEEK. YOU ARE INVITED TO VISIT THE LOCAL PLANT AND SEE YOUR HOGS BEING KILLED, WEIGHED AND GRADED.
