RIPLY'S BELIEVE IT OR NOT

THE VILLAGE OF THE HOLLOW CASTLE... A COMPLETE CITY OF 1000 PEOPLE HAS BEEN BUILT INSIDE THE HOLLOW SHELL OF A RUINED CASTLE...

FRANCOIS-NICOLAS DUMOURIEZ (1706-1765) WAS APPOINTED FIRE CHIEF OF ALL FRANCE AT THE AGE OF 13

CONTRACT BRIDGE

By B. JAY BECKER

Suppose, for example, South takes the club finesse at trick two. East wins and returns a spade. Declarer now has eight tricks available. When he then takes the diamond finesse he is defeated as West cashes his established spade suit.

But if declarer enters dummy at trick two with a heart and takes the diamond finesse, he makes the contract. No return could defeat him, even though the later club finesse lost to East.

The two vital kings can be distributed to the defenders in four different ways. Either West has both kings, or East has them, or West has the club and not the diamond king, or West has the diamond and not the club king. These are the only possibilities.

If either opponent has both kings, the contract is sure to make. One finesse will work and the other will fail, but declarer makes eleven tricks. If West has the club and not the diamond king, declarer makes twelve tricks. These three cases are not of concern to declarer, since he makes the contract regardless of which suit he leads first.

But in the fourth case—where West has the diamond, not the club king—it is urgent that the diamond finesse be taken first. West's only sure entry should be immediately suppressed. Declarer should cater to this possibility, because it is the only one where his choice of plays can constitute the difference between making and losing the contract.

It would appear that it does not matter much which finesse he chooses to take first, but actually this is not the case.

Suppose declarer ducks the spade lead in dummy and wins East's ten with the queen. He can count six rapid winners. He also notes that a successful finesse in either diamonds or clubs will bring home the contract; in fact, he sees that if both finesses succeed he is assured of twelve tricks.

Let's suppose that it does not matter much which finesse he chooses to take first, but actually this is not the case.

DAILY CRYPTOQUOTE

Here's how to work it: AXYDLBAAXR is LONGFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints, each day the code letters are different.

A Cryptogram quotation: DOHYUZZSLDD TD ID TSTJHTOC ISV TVUFOZC-DIAHLF.

Yesterday's Cryptogram: POETRY IS THE BREATH AND FINER SPIRIT OF ALL KNOWLEDGE—WORDSWORTH.
