A WONDERFUL NEW PILL

For centuries the people have changed and progressed, but pills haven't. A change has come at last—A NEW PILL.

This new up-to-date pill embodies entirely new up-to-date discoveries and is a cure for up-to-date disorders. Its name is THE OXIAN TABLET PILL. It differs from other pills, just as a modern war ship differs from a canal boat—it is different in shape, substance, make, action, and results.

WHAT THEY WILL DO. Oxian Tablet Pills will relieve and cure sick headache, dyspepsia, constipation, indigestion, lack of energy, general weakness, and disorders arising from irregular action of the liver, stomach, bowels, kidneys, heart, and blood. They are invaluable for female disorders. Used in connection with Oxian, the wonderful food for the nerves, they will cure nervous prostration, starved and shattered nerves, brain weariness, loss of memory, dizziness, rheumatism, neuralgia, bodily pains, sleeplessness, and chronic ailments, which neither medicine nor doctors have been able to overcome.

FOR all Americans there is an unflagging interest in the scenes and places of that historic little country that gave us our laws, our language, our way of thinking, our instincts and our faith. Divided many times by the bitterness of those contests that have made us what we are, shut out again to us and we to her, as the Mother Land whose splendid story is also so largely ours, and in common with whom we claim the genius of Shakespeare, the laws of Alfred, and the dominant instinct of that Saxon lineage which wins and conquers and subdues by processes known to us two almost the American and the British side by side. And as the centuries have passed England has grown nearer to us. She is no longer a far-off land of which we have only heard. The first voyagers of those who made America, and made it English, occupied more stormy and perilous weeks. It required two centuries to reduce that time one-half. Now our green shores and the white cliffs of Albion lie less than one week apart, and for thirty years we have talked with England under the sea in a common language, about common interests. To go and to return is an incident of daily life. The Saxon, English and American, travels more than any other man, and with a scouter purpose to see, to know and to appreciate. England and America exchange visits every year in the person of thousands of individuals. The British finds with us brighter skies, and higher mountains, and larger rivers, and broader lakes, and taller trees, and more stupendous waterfalls than his islands know. And for the old, the storied the historic, we go to him. What he has is in a sense our own. It is a hand-made and a time-mellowed beauty; for us the beauty of history and association, ours as well as his. We give him stupendous nature dotted with new cities that seem old enough to us. He gives us the story of our common race, written in piled stone, and chiseled by representing the toil and hope of centuries; a toil and hope which we inherited, and whose memorials are also ours.

ASTOUNDING BUT TRUE!

Niagara Falls

Engraved on Steel after the Famous Painting by CHARLES GRAHAM, America's Leading Scenic Artist.

There are only a few copies of this magnificent art work left and you will be fortunate indeed if you secure one.

This cut illustrates but very faintly the magnificence of the original.

The above reproduction is less than one-fiftieth the actual size, the engraved surface being 40 x 16 1/2 inches, printed on heavy plate paper for framing. Actual size of picture 46 1/2 x 27 inches. The publisher's price is \$25.00, unframed, and that is what a copy would cost you in the art stores. It is a work that would grace the walls of the most palatial mansion in the land.

"The subject is treated in a masterly manner, the grand curve of the Horseshoe in the foreground leading the eye up to the tumbling, raging rapids above, and the broad expanse of river beyond, with the islands in the middle distance and the face of the further curve of the Horseshoe, as well as the great white wall of the American Fall, partially obscured by the cloud of rising spray which is handled lightly with fine effect. In the great amphitheatre below the falls are seen the boiling waters, strongly and effectively depicted, and the two staunch little steamers that make their tours under the constant showers of spray. Never before has this subject been handled by any artist with equal force and impressive dignity, combined with deep, thorough feeling and delicacy of touch."—The Railway Age.

We will send a copy postpaid on receipt of \$1.85, or if you will do a little pleasant work and secure a few subscribers for us as follows—The Famous Picture will be Sent Absolutely Free.
