Rev. Jim Jones And Mission Makes Return Albertain Visit

ALBERTON—Rev. H. B. (Jim) Jones has returned to Albertain for two evenings by invitation of those who sponsored the Evangelistic Mission at which he was the preacher last month.

Last evening Rev. Heber Kean O'Leary, interim moderator of Albertain Congregation, led the opening hymn sing and worship. Rev. Robert Crooks of Elmstede was organist and there was an assembled choir.

After reading the first chapter of Haggai, Mr. Jones reminded his hearers that the Old Testament must be read in the spirit of the New Testament. He also

brought to mind the words of holy scripture which refer to the bodies of men as temples of the Holy Spirit, and it was about this thought his message was centred.

God's gift to man is the Holy Spirit and those who do not have this spirit within them are as shells which just take up space and their hearts are as rocks. It is only in prayer that men find the spirit and power of God which alone can give release and joy and peace.

Another service will be held in Albertain United Church this evening.

Y's Men Hear Carnival Report At Meeting

SUMMERSIDE — One hundred per cent attendance was recorded at the regular meeting of the Summerside Y's Men's Club held last evening in the Y Centre on Green Street.

Glance Mercer was in charge of the program and showed a film dealing with the dairy industry in Canada and its need for more advertising to educate the public on why more milk products should be used in the home.

An excellent report was heard from Charles Linkletter, the club's representative on the Lobster Carnival committee. He told of the experiments being conducted by the carnival committee to ensure a more tasty and economical supply of lobsters for the carnival. Also some of the other plans for next year.

Roy Boates of the scout committee, urged the club to make every effort to obtain more leaders for the ever expanding scout and cub movements in Summerside.

Leaders from outside the Y's Men's Club are urgently required. All that is necessary is the willingness to work with boys.

Leadership training will be given by the Provincial Scout Association. Morley Bell led the club in a sing song.

Fails To Report Accident; Fined

SUMMERSIDE — A resident of Sherbrooke charged with failing to report an accident in which a person was injured was fined \$10 and costs in Magistrate's Court before Magistrate R.S. Hinton, Q. C., here Thursday morning.

The accused failed to report the accident to the RCMP, although he did report it to a news reporter who happened along about the time of the mishap. The accused reported the accident to RCMP Sunday morning.

CLC Charges Conversion Loan May Slow Recovery

OTTAWA (CP)—The Canadian Labor Congress said Thursday the government Conversion Loan may slow recovery from the recession.

The 1,000,000 - member labor body said in a statement based on an analysis of the \$6,400,000,000 scheme that it was not necessary to include three of the wartime Victory Loans. Higher interest rates on Conversion bonds "may cost the taxpayers as much as \$60,000,000 a year."

The Conversion Loan was concluded Sept. 15 and Finance Minister Fleming said it was "immensely successful. . . ." At that time \$5,600,000,000 of Victory bonds had been converted. The bank has not yet announced the final conversion loan figures.

Under the Conversion Loan plan, holders of Fifth, Sixth, Seventh, Eighth and Ninth Vic-

torry Loans were asked to exchange their bonds for new bonds at higher interest rates and with a cash bonus.

IN FOUR TERMS

The Conversion bonds were in four terms—25-year bonds bearing 4½ per cent interest; 14-year bearing 4¼ per cent; seven year bearing 3¾ per cent; and 3¼ year bearing three per cent.

The CLC said converting all the Victory Loans on these terms "involved the taxpayers in unnecessarily higher costs." It said the Seventh, Eighth and Ninth loans need not have been converted.

Other "unfortunate effects" of the Conversion Loan forecast by the CLC were:

1. Higher interest rates which will slow recovery from the recession.
2. Greater borrowing difficulty for provincial and municipal gov-

ernments and private corporations.

3. Discouraging home building by causing increases, or fears of increases, in mortgage rates.
4. A tendency to increase the premium on the Canadian dollar "thus hampering exports and boosting import competition."

"By limiting the conversion to the Fifth and Sixth Victory Loans, the government would have minimized the adverse effects just noted," the statement said. "By converting more than it needed to, the government has risked serious economic consequences that it could have largely avoided."

The statement said banks and large financial institutions such as insurance companies which held altogether about \$2,600,000,000 of the Victory bonds "garnered a rather handsome windfall profit."

Gas Mileage Better Than You Think

SUMMERSIDE — What sort of mileage is your car giving these days?

The modern way to measure a car's thirst, suggests an article in the current Imperial Oil Review, is with a yard-stick called "ton-miles-per-gallon". It will tell you that the gasoline you are now using does 50 per cent more work than a gallon of 1930 gasoline — at virtually no increase in cost.

People are used to talking of "miles per gallon", but the gasoline experts say that yardstick is as antiquated as a model A Ford.

The way to keep up to date with the great changes in cars and fuels is to find out how many miles a gallon of gasoline will move a ton of automobile. That's what is meant by "ton-miles-per-gallon".

The article explains that cars have been getting heavier — an average 3,500 pounds now, against 2,500 in 1930.

They're loaded with power accessories not available before the war, and these are fed indirectly by the gas tank. Car makers have put more power into their engines by doubling compression ratios since 1930, and the oil industry has equipped itself to turn out the higher octane gasolines such engines require.

"In 1930," says the review, "a gallon of gasoline moved a ton of automobile 35 miles, when travelling at 40 miles an hour on level pavement. Under the same conditions, a gallon will move a ton of today's automobile 52 miles."

Pair Stage Break From Jail But Are Picked Up By RCMP

SUMMERSIDE — Two inmates of the Prince County Jail here made a bid for freedom last night, but were picked up by R.C.M.P. officers some four hours later near Portage.

The two, Eric Arsenault of Summerside and Roger Gallant of Duvvar, were found after a motor vehicle in which they were travelling overturned near Portage.

Both were taken to Prince County Hospital where it was revealed they were suffering only minor injuries. However, they were detained at the hospital overnight.

The break occurred when the two were assisting the assistant jailer in cleaning up the Summerside Court House. They apparently walked out the front door of the jail and disappeared into the darkness.

The break took place about 7

p.m. R.C.M.P. picked them up near 11 p.m.

Arsenault was serving a six-months sentence for theft at Atlantic Wholesalers and Gallant was serving a five-month sentence for theft at a Duvvar Garage.

Both the R.C.M.P. and Summerside Town Police took part in the search.
