The Teacher

Who advised her pupils to strengthen their minds by the use of Ayer's Sarsaparilla appreciated the truth that bodily health is essential to mental vigor. For persons of delicate and feeble constitution, whether young or old, this medicine is remarkably beneficial. Be sure you get Ayer's Sarsaparilla.

"Every spring and fall I take a number of bottles of Ayer's Sarsaparilla, and am greatly benefited."—Mrs. James H. Eastman, Stoneham, Mass.

"I have taken Ayer's Sarsaparilla with great benefit to my general health."—Miss Thirza L. Orerar, Palmyra, Md.

"My daughter, twelve years of age, has suffered for the past year from

General Debility.

A few weeks since, we began to give her Ayer's Sarsaparilla. Her health has greatly improved."—Mrs. Harriet H. Battles, South Chelmsford, Mass.

"About a year ago I began using Ayer's Sarsaparilla as a remedy for debility and neuralgia resulting from malarial exposure in the army. I was in a very bad condition, but six bottles of the Sarsaparilla, with occasional doses of Ayer's Pills, have greatly improved my health. I am now able to work, and feel that I cannot say too much for your excellent remedies."—F. A. Pinkham, South Molunets, Me.

"My daughter, sixteen years old, is using Ayer's Sarsaparilla with good effect."—Rev. S. J. Graham, United Brethren Church, Buckingham, W. Va.

"I suffered from

Nervous Prostration,

with lame back and headache, and have been much benefited by the use of Ayer's Sarsaparilla. I am now 83 years of age, and am satisfied that my present health and prolonged life are due to the use of Ayer's Sarsaparilla."—Lucy Moffitt, Killingly, Conn.

Mrs. Ann H. Farnsworth, a lady 79 years old, So. Woodstock, Vt., writes: "After several weeks' suffering from nervous prostration, I procured a bottle of Ayer's Sarsaparilla, and before I had taken half of it my usual health returned."

Ayer's Sarsaparilla,

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price \$1; six bottles, \$5. Worth \$5 a bottle.

SLEIGHS.

I HAVE NOW ON HAND a nice assortment of SLEIGHS in all the leading styles. Intending purchasers would do well to inspect my stock before going elsewhere. Factory and Show Rooms, UPPER PRINCE STREET (McKinnon & Fraser's Old Stand.)

may be found on the streets at GUY'S BOWELL & CO'S Newspaper Advertising Bureau (10 Spruce Street), where advertising contracts may be made.

Local and Other Items.

CIVIC.—The regular monthly meeting of the City Council will be held this evening.

STILL OPEN.—Cardigan River is still free from ice, and vessels might be loading with perfect safety.

THE SPECIAL TRAIN left for Georgetown last midnight, and will return with mails and passengers this evening.

SALMON CAUGHT.—A salmon weighing twenty pounds was caught in a codfish trawl off Ketch Harbor, N. S., a day or two ago.

W. C. T. U.—A special meeting of the W. C. T. U. will be held in the lower parlor of the Y. M. C. A. to-morrow evening, Tuesday, 15th inst., at 7.30. All the members are requested to be present.

ICE AND THE ROADS.—The frost of Saturday night and Sunday caused the formation of ice on Charlottetown harbor; but the ice is still, for the most part, very thin. There is good wagoning in town and country.

FIRST OF THE SEASON.—Mr. John McNeill, butcher, of Tea Hill, crossed from Southport with a load of meat this morning. He started from the Ferry Wharf, at Southport, and landed at the Round House.

GROUND.—A Boston despatch says that the schooner Lettie M. Hardy, at that port from Souris, grounded on Georges Island while beating in on the morning of the 8th, but came off with the assistance of a tug without apparent damage.

LEFT TO DIE.—A story comes from Three Rivers, Que., to the effect that Geo. Proulx, becoming sick in the lumber woods on the St. Maurice last November, was sent home in charge of two companions. A snow storm came on and they left him to perish.

TIRED OF LIFE.—The Halifax papers report that an Albatross street denizen, named Ellen Beck, attempted to commit suicide by jumping over one of the wharves into the dock, on Friday night. A young man named Powell jumped in after her just in time to save her life. She said she was tired of life when asked the reason for her rash act.

DECLINED \$100,000.—The Grand Trunk Railway has declined to accept the bonus of \$100,000 offered by the authorities of London, Ont., for the establishment of car works in that city. The works will be built at Stratford and operated in connection with the machine shops recently erected there by the Company.

KILLED BY A DERRICK.—The first fatal accident on the Nova Scotia Central Railway occurred at Bridgewater on the 9th, a man named Gattner, of Port Medway, being killed instantly by the breaking of a derrick employed in removing a new engine from a vessel at the railway wharf. A verdict of accidental death was returned by the coroner's jury.

MOTHERS who have delicate children can see them daily improve and gain in flesh and strength by giving them that perfect food and medicine, Scott's Emulsion of Cod Liver Oil with Hypophosphites. Dr. W. A. Hulbert, of Salisbury, Ill., says: "I have used Scott's Emulsion in cases of scrofula and debility. Results most gratifying. My little patients take it with pleasure." Sold by all Druggists; 50c. and \$1.00.

A NEW INDUSTRY.—The St. John Gazette says: It is rumored that a movement is on foot to start a factory for the manufacture of matches, nails, tubs and other wooden ware, somewhere near the line of the I. C. R., between Hampton and St. John. A gentleman interested in the enterprise has lately been inspecting sites at Rothesay and at other places in King's county. He expects to employ 70 or 80 hands.

STILL THEY COME.—An exchange says that another Australian pugilist is after American blood. It is said that Slavin, the famous Australian pugilist who is matched to fight Jack Burke, the Irish lad, on the 24th January, stimulated by the news of the success of Peter Jackson and the great amount of money he made by defeating Joe McAuliffe, will cancel his match with Burke and sail immediately for America, where, upon his arrival, he will challenge any man in the United States.

BLACK FOX CAPTURED.—An Indian secured a valuable black fox skin on the 4th inst., near Cardigan Bridge. It seems that the Micmac was fishing at Crawford's Creek, and saw the fox crossing the river on a thin skim of ice that was on it that day. Joe started for his gun, got a brother Indian to help him, and going round by the bridge, caught sight of Master Reynard at the "Old Farm." The fox started to run, but the Indian was too quick with his gun, and laid the animal down, thereby making a good day's work, the skin being a valuable one.

PRaisEWORTHY.—Some time ago, says the Guardian, Mr. D. Ross of Valleyfield, lost his barn and crop by fire. In three weeks the friends of Valleyfield had a fine new one built for him;—they providing all the material. The people, together with others outside the settlement, fully supplied him with sufficient straw and considerable hay for his stock. About a month ago, at Brown's Creek, Mr. Murdoch McKinnon's barn, stock and crop were consumed by fire. The people of Brown's Creek, with some assistance from Valleyfield, have already erected a large new barn to replace their neighbor's loss. This is commendable, bearing one another's burdens and so fulfilling the law of Christ.

I. C. R. OLDERS.—A circular has been issued by Chief Superintendent Pottinger, of the I. C. R., notifying all employes that hereafter no holidays will be allowed. In this order even ticket agents who, in the summer season, have to work from 6 o'clock in the morning until 11 at night are included. It is needless to say that this latest order has created intense dissatisfaction among the railway men, who claim that holidays are allowed in all other branches of the civil service. A few days ago a circular informed conductors that all who did not learn to write grammatically and spell correctly would be reduced, and that all brakemen who could not write grammatically and spell correctly would not be promoted.—St. John Sun.

Concert at Cornwall.

A Sacred Concert in connection with the Week of Prayer was held on Wednesday evening, 9th inst., under the efficient management of Miss B. Hyde. The programme consisted of sacred music and recitations, and seldom has Cornwall Church held a more pleased audience. The duet, "The Pleading Voice," by Mrs. Moore and Miss Hyde, and Mr. Howard's solo, "The Model Church," were specially well rendered and well received. The Church rallying song was sung by the choir with a spirit that made the old chapel ring. Towards the close the entertainment was interrupted by the appearance of Santa Claus, who carried a basket of confectionery for the children and wore a fur coat, which he presented to Rev. Mr. Moore on behalf of the circuit, as a token of the esteem in which the rev. gentleman is held by his people. After Mr. Moore's reply the doxology was sung, and the audience dispersed.

ONE WHO WAS PRESENT.

Land Sales in Manitoba.

The quantity of land taken up for actual settlement in Manitoba during the year was very considerable and largely in excess of any year since 1882. The Government have had taken up for homesteads at pre-emptions and sales about 330,000 acres, almost the whole of which has gone into actual settlement. The different land companies have sold about 189,000 acres, almost the whole of which has been taken up by actual settlers. That makes a total of 519,000. In addition to this, loan companies, who have become possessed of considerable quantities of land through foreclosures of mortgages, have disposed of a considerable quantity they had acquired. Between loan companies and private individuals, who have been selling land, not far short of 100,000 acres have been disposed of. This makes a total acreage actually settled upon in Manitoba during the year fully 600,000 acres.

Odds and Ends.

In Paris, France, a big company has the monopoly of the funerals. This company handles 50,000 bodies yearly.

The members of the Indianapolis Ministerial Association want five dollars for every prayer offered up in the State Legislature.

Philadelphia has 847,000 people and 179,000 houses, while New York, with 1,200,000 inhabitants, is said to have but 92,000 houses.

Quick firing Armstrong guns, 36 and 100 pounders, discharging ten and eleven shots a minute, have been finally adopted by the British army.

Four members of one family in Wellington, Ontario, have been killed by falling trees in the same piece of forest within three months.

The number of muscles in an elephant's trunk, according to London medical authorities, is 33,122, and he has use for each and every one of them.

A Louisville paper speaks of a robbery, frugal man, who, by a lifetime of toil, had amassed the sum of \$43, and was about to enjoy a long-needed rest.

If the present rate of growth continues, it is estimated that the population of New York and Brooklyn in 1920 will be 3,500,000 and 2,200,000 respectively.

A dry goods clerk in a Pennsylvania village ate three large mince pies in an evening and went to bed. Instead of dreaming that he saw his departed ancestors, he went to join them before morning.

The Vanderbilt family now possess the snug little sum of \$274,000,000 and an annual income of \$13,554,000. It is estimated that in 25 years this sum will have rolled up to \$1,000,000,000.

Canterbury, N. H. has a Quaker church that was built in 1792, and has not been shingled since that time. The shingles then put on the roof were of heart pine, and were fastened on with wooden pegs.

A man can hire a house in Japan, keep two servants and live on the fat of the land all for a little over \$20 a month. And yet immigration to Japan is not active. The trouble is that it is a hard country to earn \$20 in.

Some one has called upon the people of Poughkeepsie to spell the name of their town as they pronounce it—"Pepsy." But it is safe to say that the people would rather die than give up a single letter of the old name.

Edward Sherman, of Whitewater, Wis., has become a raving maniac as a result of an attempt to abruptly discontinue the use of tobacco. He had for many years consumed large quantities of the weed, both by smoking and chewing.

According to the Railroad Gazette, there were in October 120 persons killed in railroad accidents throughout the country, 58 per cent of whom were passengers. Of the 223 persons injured, 120 were employes and most of these freight hands.

A new dynamo, with a capacity to run eight incandescent lights, has been invented by a Vermont electrician. It has some novel features, one being a slow current obviating all danger, while one light can be shut off without affecting the other on the same current.

A thief caused a sensation in a Cincinnati church by attempting to rob a woman of her portmanteau. The services were suspended and nearly all the people rose to their feet. The rascal made a break for the door, but was intercepted and handed over to the police.

A new scheme for harbor defence is soon to be tried. Perforated iron pipes will be sunk in the water, and through them petroleum will be forced. In this way a fierce stream of blazing oil could be sent down on an enemy's fleet to drive it away. Iron vessels could not pass through this lake of fire because it could be made to extend many miles along the river.
