LATE TELEGRAPHIC NEWS.

By the Mails of Saturday night we have been enabled to gather from our latest papers the following late and interesting telegraphic news:

TERRIBLE DISASTERS IN THE UNITED STATES.

WATERTOWN, N. Y., May 22.—Last night at one o'clock the steamer *Wisconsin* was burned three miles from Cape Vincent, and from 25 to 30 lives were lost. The boat was run ashore on Grenadier Island, above Cape Vincent, and all the passengers who obeyed the Captain's orders and remained on board were saved. The steamer belonged to the Northern Transportation line, and was upward bound. The steamer is probably a total loss. Among the lost are the mate, two engineers and the steward.

ATLANTA CITY, N. J., May 22.—This morning about four o'clock the steamship *Santiago de Cuba* went ashore on the beach about six miles below this city. She belongs to the Nicaragua Steamship Co., and was bound to New York with 400 souls on board. The life boat was unfortunately capsized, and five persons were drowned. Two others were afterwards drowned. An inquest has been held and a verdict returned of "accidental drowning."

CINCINNATI, May 22.—A collision occurred this morning near Cleves, Ohio, between the Ohio and Mississippi train going west, and the Indianapolis, Cincinnati and Laurenceburg train bound east. Both engines were badly injured. The engineer of the Indianapolis, Cincinnati and Laurenceburg train was seriously hurt, and some of the other employees on both trains slightly injured.

BOSTON, May 20.—A collision took place in the harbor yesterday between a schooner and a pleasure yacht, by which the latter was sunk, drowning 4 out of 11 persons on board. Names of drowned were Mrs. Mary Delory and child, Mrs. Margaret Gorom and Ellen Quinn.

NEW YORK, May 20.—About noon to-day a fearful tragedy occurred in the club room situated on the second floor of Knox's building, corner of Broadway and Fulton, resulting in the almost instant death of Frank B. Fisher, an ex-army officer, who deliberately shot himself through the head. On his person was found a document to the following effect: "Done by my own wicked hand. Cause—demoralized by playing faro. May Almighty God have mercy on my soul."

LONDON, May 23.—Her Majesty the Queen has issued her royal proclamation, declaring the Union of the Provinces of Upper and Lower Canada, Nova Scotia and New Brunswick under one Government, to be called the Dominion of Canada. Appended to the proclamation is a list of Senators appointed by the Queen to the Upper House of the Canadian Legislature, in accordance with the provisions of the Bill of the Confederation recently passed by the British Parliament.

ST. PETERSBURG, May 23.—The ice in the NEVA has broken up, and is fast disappearing, and the river is now open to navigation.

VIENNA, May 23.—The Washington Minister at London has been instructed by his Government to enter into negotiations with President Juarez of Mexico, with a view to securing the safety of the Emperor Maximilian in case he should fall into the hands of the Liberals.

LONDON, May 23, evening.—The English Government has made representations to the leading powers of Europe urging a general disarming.

BOMBARDMENT OF THE CITY OF MEXICO.

NEW ORLEANS, May 21.—The *Picayune's* special correspondence, dated Orizaba, May 3, says the city of Mexico is surrounded by 20,000 Liberals, and that the bombardment has commenced in earnest. The garrison numbered 8000 men, under the command of Marquez, who had announced his intention to resist to the last. He had impressed all the water carriers and porters. None of the officers are to receive quarter from the Liberals. Indeed, orders had been issued that Miramon, Marquez and Maximilian were to be shot if captured. Since the surrender of Puebla the Imperialists have not had over 16,000 men in the field all told.

NEW YORK, May 23.—From all accounts Fenian warriors are about taking the field in large numbers for an invasion of Canada. A movement towards organization and concentration is general throughout the Northern and Western portion of New York and other States.....A messenger has been despatched by head circles to call brothers to arms, and 30,000 men are to be concentrated on the border within a month. Commissariat is said to be well served, and large supplies are already warehoused in the vicinity of St. Albans. Gen. Spear is to command invading army..... On the other hand Canadians are alive to danger, and are actively preparing to defend themselves.....Hon. John Morrissy has been at Troy conference with Fenian leaders, and it was believed that he has been authorized to assure them that government would not interfere with their enterprise.

LATEST NEWS BY TELEGRAPH TO THE EXAMINER OFFICE.

ST. JOHN, May 25.—Fenian warriors about to take the field in large numbers, and invade Canada. Thirty thousand (30,000) to be concentrated within a month.....Surrender of Queretaro untrue, Maximilian willing, but Mejia and Miramon, who virtually hold him prisoner, oppose.

TO CORRESPONDENTS.

"An Elector," alluding to some correspondence and editorial in the *Summerside Progress*, of an old date, is respectfully declined. The majority of our readers could take no interest in a matter which neither they nor we could understand.

We have received several communications during the last week, which we are compelled to lay aside for want of space. We find it necessary to publish an extra nearly every week, and even then we are obliged to omit very many of our advertisements. It will be impossible to attend to the favours of correspondents until our space be somewhat relieved from the presure of Legislative matter.

FIRE.—The fire fiend has again visited us, but we are happy to say without doing much damage. On Thursday night, about 12 o'clock, the alarm was given, and the scene of danger was speedily discovered to be a small house in Kent street, owned, we believe, by Mr. A. LePage, of the Royalty, and occupied by a Mrs Harding. It was in dangerous proximity to the residence of the Hon. Mr. Coles, and to the furniture ware-rooms of Mr. George Douglas. The Steam Fire Engine was soon on the ground, and poured on the burning roof, which blazed rather unpleasantly bright, such a stream of water as threatened to wash away the whole building. The only material damage it sustained was in having a big hole burned in the roof.

CORONER'S INQUEST.—An Inquest was held on Wednesday last, by Dr. Beer, one of the Coroners for Queen's County, on view of the body of William Martin, painter, of this City, who was found dead in "Cole's Woods." It appeared in evidence, that the deceased had been for a few weeks past in a melancholy, unsettled state of mind, and that he disappeared on Saturday last, taking with him the means of self destruction. Search was made for him up to Wednesday, when a number of men started to range the woods around the city; and almost immediately on entering the woods on Belvidere Farm the unfortunate young man was found, lying on his face, perfectly dead. A gun barrel lying near him, and a wound quite through the left chest implicating the heart, sufficiently showed the manner of death.

Verdict—"Suicide while laboring under temporarry insanity."—*Com.*

A HORRIBLE SHOOTING AFFAIR.

At a recent ball at Roseburg, Oregon, all went on in peace and quietness until Sol. Colver, John Fitzhugh, Bob Forbes, John Hannon and Abe Crow came there, it is said, to break up the ball. When they entered the ball-room they had a few words, when Ceo. Bennett struck Sol. Colver in the face with a revolver. Beranger then stepped up to them for the purpose, it is said, of stopping the fuss, when John Fitzhugh drew a derringer and shot him through the heart, after which he never spoke. Ash Clayton, who was fiddling at the time, then drew a knife and stabbed Sol Colver in the small of the back, under the right shoulder. Abe Crow then rushed in and shot Clayton through the thigh, and another ball struck him on the forehead, the ball not entering the skull, but glancing over it under the skin and passing out at the back of the head. Crow then drew his knife and struck Clayton across the head, inflicting a terrible wound. Fitzhugh, after shooting Beranger, rushed on to Tom Thompson, when the latter shot him twice. Hannon then struck Thompson, when the latter shot him in the stomach, the ball passing through him. Bob Forbes then rushed into the fight, when Thompson shot him down also, the ball entering the right side, ranging back, striking the backbone and breaking his back, then glanced to the right, going down the hip. After the shooting was all over, Bob Woodruff went into the melee, when some man struck him over the head with a revolver and laid him out for dead. Sy Smith also came in flourishing a revolver, when Fitzhugh, who was thought to be dead, or at least dying, raised himself and with his bowie-knife stabbed Sy Smith, inflicting a dangerous wound. Out of the eleven men who engaged in the fight nine lay dead or mortally wounded on the ball-room.

It is rumoured that the Hon. Joseph Hensley, Attorney General, proceeds to England, in about four weeks hence, to negociate a Loan for this Island, in accordance with an act passed during the last Session of the Legislature.—*Isl.*

A SAD ACCIDENT.—On Saturday last the 18th inst., just as the storm of that day and Sunday was beginning, Mr Lauchlan McMillin, eldest son of Mr. Angus McMillin, of Covehead, pushed out from his father's shore, in a small flat-bottomed boat, or dory, in company with a lad named William Ryan, to look at some herring nets which were set out a short distance in the open Gulf, when the surf proving too heavy for their small craft, upset her and precipitated them into the water. The lad Ryan was fortunate enough to secure a hold on the boat, but Mr. McMillin, being thrown out a greater distance from her, was left without any support, and before his father and others could come to his assistance, which they did in a few minutes, he had sunk to rise no more. We regret to say that up to latest accounts the body has not been found. The deceased, who was only 24 years of age, was a young man of industrious habits, and of great promise of future usefulness in life. We deeply sympathise with his bereaved parents and relatives in their affliction.—*Ib.*

A FEW days ago a marriage occurred in Canada where seven clergymen officiated. Whereupon the New York Post remarks:—"Would it not be sensible to avoid unnecessary expense at marriage ceremonies, especially when the waste makes boarding instead of housekeeping compulsory? It takes, it seems, seven clergymen to tie a couple together whom one long milliner's bill may shortly after put asunder. We are fast getting to be as ostentatious as the Hindoos, whose marriage ceremonies last for weeks, and often exhaust the resources of the unfortunate parents of the happy bride and bridegroom.

Holloway's Pills and Ointment.—Dangerous Diarrhœa.—The causes of this weakening disease being so various, and the nature of its attacks so changeable, fully account for the enormous number of its victims. Under Holloway's treatment the source of this complaint may lie in obscurity and the successful issue be still the same whether the stomach, liver, large or small intestines be the seat of malady, for his Pills, judiciously taken, and his Ointment, briskly rubbed on the abdominal walls, restrain the excited vessels and regulate each erring function, let it spring whence it may. Both medicaments address themselves directly to reproduce the exact balance between sensibility and irritability, between morbid and healthy secretion, between natural and excessive exertion.

COUGHS.—The administration of Medicinal preparations in the form of a *lozenge* is of all modes the most eligible and convenient, more especially as regards a COUGH REMEDY. *Brown's Bronchial Troches*, or Cough Lozenges, allay irritation which induces coughing, giving instant relief to Bronchitis, Hoarseness, Influenza, and Consumptive and Asthmatic complaints.

HOSTETTER'S STOMACH BITTERS.—Common sense tells us that unless the stomach is kept in good working order, the system, to which it supplies the elements of blood, cannot be vigorous and healthy. Nothing has yet been discovered or invented that so effectually and invariably cures and prevents imperfect digestion as HOSTETTER'S STOMACH BITTERS. Dyspepsia, flatulence, oppression after eating, and the feeling so often described by the sick as an "*all-gone*" sensation, are removed in a few days by the use of this most healthful of all stimulants. No one, however feeble, need fear it, for it contains no fiery ingredient. It excites neither the circulation nor the brain. On the contrary, its effect is genial and soothing. It promotes sleep, as well as restores the energy of the digestive powers, and may be taken not only without danger, but with a certainty of the most desirable results by the feeblest lady invalid. Cleanse the Blood

With corrupt, or tainted Blood, you are sick all over. It may burst out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Ayer's Sarsaparilla purges out these impurities; it expels disease and restores health and stimulates the organs of life into vigorous action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilus or Venereal Diseases, Liver Complaints, and Heart Diseases. Try Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bottles, pretending to give a quart of extract of Sarsaparilla, for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative ingredient whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the class of diseases it is intended to cure. We can assure the sick, that we offer them the best alterative we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered.

AYER'S CHERRY PECTORAL is so universally known to surpass every other medicine for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidences of its virtues. The world knows them.

Prepared by DR J. C AYER & CO., Lowell, Mass. and sold by all Druggists and dealers in medicine everywhere.

NEW TRIUMPHS OF ROGERS' MEDICINES.

Run your eye over them and tell your affected neighbour about it.

AMHERST, October 1st, 1865.

Messrs. Rogers & Co.:

Gentlemen—I have been a good deal troubled with those merciless and most distressing things called Felons or Whitlows. Last year I was laid up near three months with one and I could not tell what I suffered. A few weeks ago another began with all its usual vigor and earnestness. I suffered for several days. My hand swelled very much, and I looked forward to three months more of misery and suffering; but happily I tried your Ointment. In two days I went to work. It seemed to kill it at once. In three or four days a hard, black lump came out at the end of my thumb, about the size of a small pea. Wonderful medicine! Ye suffering try it.

WILLIAM ELLIOTT.

The Widow Bird, of Maccan Mountain, in this County, has been for ten years sadly afflicted with a complication of internal diseases incident to women, and has been during a greater part of the time confined to her room, and has for six years without intermission taken medicine from the doctors. Last fall she was taken very ill. Her Doctor prescribed for a while, but told her soon that there was no use giving her any more medicine, as she could not live. The son accordingly went home without any. Shortly after her neighbors were called in to see her during her last struggles with the king of Terrors. She lived through that day, when Mr. Elderkin, who had proved our medicine, recommended them to try it. The result is that she has gradually improved, and two weeks ago she came thirty miles to see us; and she says she has not been so well for ten years. We want others similarly afflicted to get this medicine. It cheered our very soul to grasp this lady by the hand. We felt new determination to devote our energy and life to this business.

R. & Co.

SACKVILLE, N. B., July 17, 1865.

Messrs. Rogers & Co.:

Gentlemen—I am happy to say that your medicine has cured me of a most distressing disease, the history of which is as follows, viz: About seven years ago a lump appeared on my groin; the doctors called it a rupture; they advised me to wear a truss. I did so, which I wore for three years: it then disappeared. Last year, while at Richibucto, it reappeared as before. When my ship arrived at Bristol, England, the doctors there called it rupture and recommended me to wear a truss; I did so. When I got to Bermuda, W. I., it grew so bad that I was compelled to leave my ship and come home. The lump by this time had grown very large. I consulted the best doctors in this country; some of them could not say what it was; others called it rupture, and said it could not be cured—the best I could do was to wear a truss. In a short time, however, the rupture broke and discharged full one quart, and continued to discharge for twelve weeks. The doctors were attending me all this time but could not cure me. I grew weaker continually and despair quite discouraged. I was induced to send for you and obtain your medicine. The result is as above; thanks be to God for his goodness. Surely no one afflicted as I have been will hesitate to get your medicine.

Yours, with much gratitude,
SAMUEL COOKE.

GOOSE RIVER, Cumberland Co., N. S.,
Oct. 20, 1864.

Messrs. Rogers & Co.

Gentlemen—According to promise I write to inform you that your Syrup and Ointment has entirely cured my child after using it for six or seven weeks. She is five years old and has been afflicted four and one-half years with a sore head. When we began with your medicine her head was sore all over. It was a loathsome sight to look at, and it had also a bad smell. We tried almost everything until we became quite discouraged. The doctors could not cure it. Rev. E. Clay, M. D., of Pugwash, advised us to try your medicine. We did so and are happy to testify to the inestimable value of your medicine in such cases. Yours, with much gratitude,

WILLIAM MILLS.
