We wish we could make everybody believe that promptness is prevention; that there should be no delay when you are losing flesh and when you are pale, especially if a cough be present. The continued use of Scott's Emulsion in the early stages of lung affections does prevent the development of Consumption. Your doctor will tell you this is true and we state it without wishing to make any false claims or false promises. Free book tells more on the subject.

Diamond Jubilee Gathering.

AS 1897 completes the 60th year of England's greatest Queen, and as the same year shall be signalled in the history of Kelly's Cross by the completion this autumn of the new St. Joseph's Church, the parishioners propose commemorating the former in every year, and at the same time raising funds for the latter undertaking by holding a Grand Jubilee Tea Gathering near the Church Grounds, on
Thursday, July 15th, 1897,
when everything shall be arranged by an energetic committee to entertain in a sumptuous manner all who will patronize them on that occasion.
Although not amongst the first of the season of similar gatherings the committee anticipate that it shall be amongst the best and most successful of the Diamond Jubilee year. Reserve the above date, then, for a pleasant outing.
By order of Committee.
If the weather be wet the Tea will be held on the following Saturday.
M. A. SMITH, Secretary.

THE 360 DAY YEAR.

Why It Had to Give Way to the System Now Used.
There is a story in Plutarch which must convince every reader that one myth at least relates to an alteration made in the Egyptian calendar to extend the length of the year from 360 days to 365. A year of 360 days existed in Egypt at an early period, and may possibly have been arrived at in the way suggested by Mr. F. L. Griffith. The lunar month, from new moon to new moon, being 29 1/2 days in length, the convenient round number of 30 days was taken as a standard, and 12 months, of 30 days each, made up the year. The solar year is more difficult to observe than the lunar month, the intervals being longer and a year of 365 days was a very convenient and reasonable approximation to it. At any rate, the year of 360 days came into use, and a curious custom at Acanthis, near Memphis, seems to allude to it. A perforated vessel was filled with water by 360 priests on each day of the year. It was placed around the tomb of Osiris for making funeral libations, and was filled every day by the priests with milk. With 360 days in the year, the ecliptic circle of the heavens, as represented in the charts, would be divided into 360 equal parts, and we must regard it as a relic of this time that the circle is still made to consist of 360 degrees. But so erroneous an estimate of the length of the year would soon be corrected by experience.

It is evident that in about 72 years a cycle would be accomplished in which the New Year's day would sweep through all the months, remaining only six days in each. The same month, so far as its name was concerned, would now be in the inauguration time, now in the season of sowing and anon in the time of reaping, and the agriculturist must have been perplexed. A text in the papyrus Anastasi makes reference to such perplexity, and may receive its explanation here. Goodwin translates it: "May Amen deliver me from the cold season, when the sun does not shine, the winter comes instead of the summer, the month is stormy, the hours shortened." Similar confusion would overtake the religious festivals, the New Year, for example, coming five days before its proper time, and then ten days before, and so on, and it might be thought that its observance at the wrong season would dispense the gods. The year of 360 days had to give way and ultimately did so in favor of one of 365 days. The precise date of the change is not known, but it is referred to in inscriptions of the time of Amenemhat I (circa 2400 B. C.), and may of course have been introduced much earlier. When this was done, the original months were not altered, but a "little month" of five days was interpolated at the end of the year between the month Mesori of one year and the Thoth of the next.—Westminster Review.

MESSAGE TO MEN.

Proving that True Honesty and True Philanthropy Still Exist.
If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness. I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. G. Strong, North Rockwood, Mich. 135 p&w.

These two cases led me to prescribe TUTTI FRUTTI Gum chewing in a number of cases of Atonic Dyspepsia that came under my care. I have not kept notes of these cases, but in nearly all a cure was effected, and in the few that did not progress to a complete recovery the benefit from the procedure was marked.

SPECTACLES.

Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer. Others have been fitted rather misfitted, with wrong glasses by travellers, and charged a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK, City, if after a trial they do not prove as satisfactory as you wish.

Just a Minute

You may be busy; so are we, and have been all the Spring. So busy that we did not have time to advertise and tell you all the fine things we have for this season and the low prices we are selling for, but the people find us out, for it takes over forty people to keep the orders we get made up, so it keeps us moving to keep everything going right. But for those who do not know, we might say that we keep all the old reliable cloths such as Bellwarp Coating and Serges, Tyke and Bleenheim Serges, Fashionable Trouserings to no end. Come and see us and see our stock and the fine clothes we make.
