NEW YORK

NEW YORK (AP)—The stock market Monday mounted its biggest rally in more than a year as it responded, analysts said, to the government's proposals to curb inflation and ease upward pressures on interest rates.

The old favorites were back in vogue — airlines, aerospace stocks, office equipments, photography and other glamor issues which made news in 1966 with flashy early advances and dismal descents.

Key stocks in more prosaic groups such as motors, steels, chemicals, utilities, rails, electrical equipments and rubbers posted gains of 1 or 2 points. Exception was Eastman Kodak which splurged ahead 6¼ points to 119.

The Dow Jones industrial average advanced 15.04 to 790.59, making its largest gain since June 30, 1965, when it ran up 16.63 points as the market bottomed out from that year's 100-point slump in the Dow.

The Associated Press average of 60 stocks advanced 5.5 to 286.4, with industrials up 8.9, rails up 2.3 and utilities 2.3. It was the largest gain for this average since it rose 6.5 on June 30, 1965.

RECOUPED LOSSES

Analysts trying to read something into the advance other than a technical recovery from last week's decline—the week's loss was more than wiped out, incidentally—said that the various proposals and statements of policy emanating from Washington had "cleared the air" to a great extent.

A more concrete piece of encouragement came from General Motors, which predicted sales of 9,000,000 cars in the 1967 model year.

Of 1,417 issues traded, 1,030 rose and 202 fell. New lows for the year totalled 49. There were two new highs.

In Canadian stocks, International Nickel, after being up most of the day, closed down ⅞. Distillers Seagrams was down ⅛.

McIntyre Porcupine gained 1, Dome Mines ⅝, Alcan ⅜, and Granby Mining and Walker Gooderham ⅛.

Prices rose in moderate trading on the American exchange. Scurry advanced ½, Fargo Oil 3-16, Brazilian Light and Power ⅛ and Canadian Marconi ⅛.
