BOERS' INVASION AT FIVE POINTS

Orange Free State Makes Common Cause.

BRITISH RESERVES RESPONDING ACTIVELY

No Apprehension in British Military Circles.

[SPECIAL TO THE EXAMINER.]

LONDON, Oct. 13.—The Daily Mail's correspondent at Lobatsi, telegraphing on Wednesday, says:

"The Boers are on the border and preparing to cross at three o'clock today. A messenger sent to the Boers asking them to spare the women and children has been detained.

LONDON, Oct. 13.—When the Cabinet meets at noon today it is evident that the Boer advance will be in full swing.

Judging from the present appearance, the Boers are preparing for a simultaneous invasion at five different points: Laing's Nek, Kimberley, Vryburg Mafeking and Lobatsi. Therefore it is almost impossible to guess the plan of their campaign.

In reply to a formal inquiry of Sir Alfred Milner, President Staene, of the Orange Free State, announces that that state will make common cause with the Transvaal.

Preparations for war are growing apace. The Reserves are responding more actively than was expected to the proclamation ordering their mobilization and the Government has engaged more transports.

In military circles, no apprehension is felt at any movement yet made on the part of the Boers.

It is not believed that they will make any serious attack, preferring to wait for the British advance. So far the news received shows that no shots have yet been fired.

A despatch from Durban dated Thursday, 8 o'clock, morning, announces that the Boers seized Alerbia's station and demanded the keys, which were delivered to them by the station master, who reached Ladysmith on a trolley.

Excitement at Ladysmith is increasing. The British troops there are ready to act at a moment's notice.

ESTEEMED EXCHANGES.

Montreal Gazette: Sir Wilfrid Laurier won the hearts of his Chicago audience by that graceful and generous oration which he had practised on hundreds of Canadian platforms. It is a pity that it does not count among administrative virtues or the arts of diplomacy, for there is no question that the Premier does it with a combination of accuracy and enthusiasm that is really beyond praise. On a purely ornamental occasion, Sir Wilfrid is not easily exceeded. Unfortunately, a Premier's work is not restricted to the receiving of bouquets.

SOURIS RACES.

The races held on Souris Driving Park yesterday were a decided success. There were about 500 people present including some 40 who went up on the special from Charlottetown amongst whom we noticed His Honor the Lieutenant Governor, Messrs G. A. Sharp, J. J. Davies, James Currie and others. The track was in excellent condition; but we were sorry to see so much delay in commencing the first event which necessitated one heat being trotted after dusk. The officers of the track were Mr. B. H. Ramsey, starter; judges, Messrs J. J. McAdam and Geo. Essery. Timer, Mr. L. E. Shaw. The first event called was the match race, \$50 a side, winner to take entire purse. In this there were three contestants, Prince Regent owned by Mr. R. Sterns, Progress Lad owned by Mr. Geo. E. McFarlane, and Prospector belonging to Messrs Matthew & McLean, the last named animal being without doubt one of the finest specimens of horse-flesh we have ever seen, but entirely too flashy for trotting purposes. Prince Regent won the race, but much dissatisfaction was manifested when the decision of the judges on this matter was given as nine-tenths of the people considered that Progress Lad had won the race fairly without a hitch or break. Between the heats of the match race, the three minute class was trotted for a purse of \$75, divided, and was won in fine style by Mr. Fred. McDonald's Parker Wilker. In the first heat of this race Brown Bird, owned by Mr. Wood of this city, broke the wheel of the sulky, threw Mr. Wood and ran around the track for about three-eighths of a mile before being stopped. At one time it looked very serious for the other drivers, but she was eventually stopped without harm except to the sulky. The last event was the Green Race won by Mr. Fred McDonald's Dawtie. There was also a series of bicycle races for a gold medal, but owing to the darkness the last race, which was two miles, was not finished. Mr. Trev. Taylor of Charlottetown, showed his superiority in the $\frac{1}{2}$ and 1 mile, coming quietly down the home stretch with his arms folded. The other contestants showed themselves made of the right mettle and will no doubt give a good account of themselves at an early date.

THE TRUE Bermuda Easter Lily

(LILIUM FARRISII)

One of the grandest winter-flowering plants in cultivation.

Pure pearly white, deliciously fragrant and a remarkable profusion of bloom characterize this charming and celebrated Easter Lily. Its popularity and sales have increased wonderfully and deservedly, for without exception, it is one of the most valuable bulbs for winter flowering in the house. A profusion of bloom may be had from Christmas until spring, if a number are planted and "brought in" at different times. Bulbs after flowering can be ripened and rested a couple of months by withholding water, and will then produce another crop of flowers frequently equal to the first. It is a magnificent variety for church decoration at Easter and tens of thousands are grown for this purpose. The flowers are pure white, 4 or 5 inches long (and frequently more) and of the most delicious fragrance.

A supply of the above just received.
