Prepare for the Worst. DR. JANEWAY'S ADVICE RESPECTING THE COMING OF CHOLERA.

In speaking of the likelihood of cholera gaining a foothold in America this year, Dr. Janeway of New York tersely advises everybody to be prepared for the worst. This may seem at the first glance the talk of an alarmist, but it is in reality a most judicious and wise advice, for no cause for panic, but a systematic preparation in view of a possible epidemic of cholera is really essential. Quarantine regulations need to be observed. The work of the sewer should extend to every hole and corner of cities and towns. An unobscured water supply is essential. The matter of sewerage is important. But there is yet another and also very important consideration. It is an undisputed fact that disease of any kind, and especially such a plague as cholera, will take most quickly, and with the most deadly effect, upon an already diseased or debilitated system. It therefore becomes the duty of every person as far as possible to secure himself or herself from its ravages, by conforming to the doctor's system. A comparison of few persons find themselves in that condition at this season of the year. The vast majority, indeed it may be said that all persons, find it necessary to fortify themselves by the use of some remedial agency, to restore lost vigor and vitality and so be literally prepared for the worst. The grateful testimony of thousands has established beyond dispute that no more effective combination for this purpose is offered to the public than Hawker's nerve and stomach tonic and Hawker's liver pills. These are standard remedies, the formulas of which are endorsed by leading physicians on both sides of the border; and they present to everyone at moderate cost the most efficient means of regaining perfect health. They revitalize the blood, stimulate the digestive organs to regular and perfect action, restore to the nerves that force and strength which they have lost, and remove from the system all traces and effects of debility. No time should be lost in hesitation or to make a choice between remedies; for there is no other agency so sure and effective as Hawker's nerve and stomach tonic and Hawker's liver pills. They are within the reach of all classes, and now is the time to secure the boon of restored health which they place within my's grasp.

Don't Stuff a Cold.

If you do you will, nine times in ten, have a fever to starve. A cold is a shock received by the myriad nerves that bristle near the surface of a human body. This shock is transmitted to the mucous membranes, and then back to the mucous membranes, forcing a great amount of blood to those membranes, creating a more or less severe irritation, and consequent rise in the temperature, followed by chills. Excess of food in the stomach still more increases the temperature; and, worst of all, helps clog the secretions or natural outlets of the body. It is high time we broke away from an old notion which, like some others, has done more harm than good. For example, it is years past how many poor fever sufferers, burning with an internal fire and thirst, were hurried to an untimely grave because not allowed cooling drinks or a bit of ice by the old time treatment for fevers, as foolish as the advice for fools. At last one cunning delirious patient got to a pump of cold water and drank his fill; determined not to leave until he well ran dry, he choked the fever, recovered, and doctors learned a lesson. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy only until some friend suggests another "sure cure," as Mark Twain so humorously describes. When slight hoarseness or tightness of the nasal membrane warns one of a skin exposure or chill from wet, act promptly; a delay is dangerous. With children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. If neglected, nothing can prevent the spreading red nose and nose begun look of a person with a cold. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Linctum, neat at hand for croupy children. Used with a mild laxative, as described in a pamphlet which I. S. Johnson & Co., Boston, Mass., will send free to anyone. Johnson's Linctum will cure a cold for adults quicker than any known remedy. A mild, nutritious diet, a gentle physio to open the bowels, and a bottle of that old Anodyne from your drug-gist, will conquer any cold. Johnson's Anodyne Linctum was originated by an old family physician more than seventy years ago. 1886-11

Don't Wait for the Sick Room.

The experience of physicians and the public proves that taking Scott's Emulsion produces an immediate increase in flesh; it is, therefore, of the highest value in wasting diseases and consumption.

F. W. HEATH, of Toronto, was cured of a cough that followed the grippe, by using Hawker's Tola. He wrote Mr. Hawker a grateful letter of acknowledgment.

USE SKODA'S DISCOVERY, the great blood and nerve remedy.

In Koch's cure for consumption went up like a rocket and came down like a stick; but Parson's Emulsion still shines with undiminished lustre as the best remedy for wasting diseases.

JOHNSON'S ANODYNE LINCTUM UNLIKE ANY OTHER.

A Brockville Druggist's Case

Brookville, April 24th.—The popular impression is that doctors and druggists seldom take their own medicine. This is no doubt true, but when a doctor takes ill he generally calls in one of his own profession, in whose skill he has every confidence, or when a druggist is in a similar situation, he often puts a his faith in the preparations of some other chemist which he knows give good results. Both the doctors and druggists in such cases show their good sense. A case in point happened in this town a short time ago. Mr. F. M. Turner, the well known and popular druggist, who is now traveling for F. A. Davis & Co., as for a long time he has suffered from rheumatism and inflammation of the kidneys, tried a great many remedies, but without result. His partner, however, spoke highly of Dr. D. D. Kidney Pills that he had induced to try them. He now states that he is completely cured, and to your correspondent he said that as a rule he had very little faith in patent medicines, but was for the cure of kidney troubles, rheumatism, backache, etc., he does not know of any remedy that is giving such good results as Dr. D. D. Kidney Pills...

USE SKODA'S DISCOVERY, the great blood and nerve remedy.

The Telephone Company P. E. ISLAND.

PARTIES using the Telephone would find talking much more satisfactory if they would observe the following rules: 1st. Speak with the mouth about four inches from the transmitter. 2nd. Speak in a moderate tone of voice, not too loud, and distinctly. 3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear. It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice. ROB ANGUS, Manager.
