

**MEDICAL HISTORY MADE IN CANADA**

Mr and Mrs Melvin Taylor of Druid, Sask., visit their son Paul at Winnipeg General Hospital, where a team of Wiscon-

sin doctors made Canadian medical history by giving the baby four transfusions before birth to change his blood. The

born baby had RH-negative blood injected through his mother's abdomen, and was born healthy a week ago.

**Over-Population Seen Grave Threat To Man**

TORONTO (CP) — Man's increasing ability to control factors which had acted as natural checks on overpopulation has placed him in a situation in which fertility threatens his future, Boston gynecologist Dr. John Rock said.

The professor emeritus from Harvard University told an international symposium on birth control pills that for all beasts except modern man there have been inescapable checks which kept population within bounds — war, disease, famine.

However, man has overcome these to such an extent that the medical profession alone is in a position to control the fate of the world.

Through birth control, Dr. Brock said, it is possible for physicians to guide their patients so that only those children who are wanted and can be adequately supported will be born.

He told his audience of some 500 American and Canadian physicians "It is the primary responsibility of obstetricians

and gynecologists to bring about the control of conception. Only oral contraception makes feasible the control of human fecundity which is potentially boundless and has already outrun the earth's capacity to feed the 3,000,000,000 persons who inhabit it."

**IF YOU ARE NOW TAKING A LAXATIVE ONCE, TWICE OR THREE TIMES A WEEK**

**THEN YOU SHOULD BUY MR TODAY!**

**THE LAXATIVE DIFFERENCE**

Take gentle-acting **MR... Nature's Remedy!** There is no laddering, no uncomfortable after-feeling. **MR** is an all-vegetable laxative. For over 70 years, **MR** has been giving folks pleasant, effective relief overnight.

**MR tonight... tomorrow bright!** Helps you feel better... and look better!

**U.S. Pares Military Bases To Save Some \$68 Million**

WASHINGTON (AP) — Defence Secretary McNamara has announced 63 new actions closing or reducing U.S. military bases, depots and arsenals and consolidating offices. He estimated savings at \$68,000,000 a year.

places. That is to be done in two years. The combining of these offices in 29 cities is expected to lop off 1,500 workers and save \$18,000,000 a year.

bases in Florida and Virginia. Of the 10,066 reduction in civilian workers and military personnel from all 63 actions, about

McNamara said slicing away at least eight unneeded facilities, scaling down 14 others, combining separate contract monitoring offices in 29 cities and other actions would yield savings "without in any way reducing military effectiveness."

The installations to be closed in the United States include army ammunition depots in Nebraska and South Dakota, a naval auxiliary air station in Louisiana, Fort Lorton at Seattle, Wash., and four seaplane

bases in Florida and Virginia. Of the 10,066 reduction in civilian workers and military personnel from all 63 actions, about

When added to those other moves, the Pentagon said, the 85 new actions will:

1. Save \$51,000,000 a year in operating costs.
