Firm Has

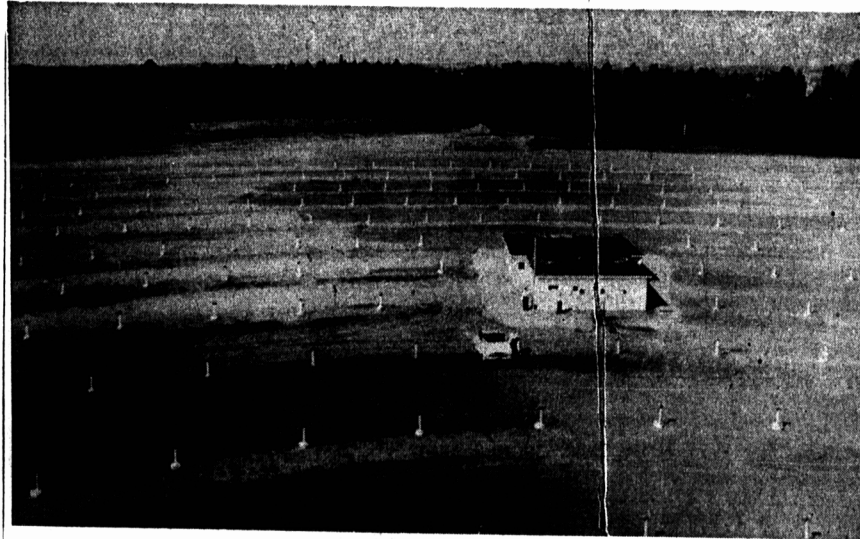

cer gradually became interested in every major centre of the Maritimes, and in 1929 created the F. G. Spencer Company, Limited, which in 1945 culminated in an association with Famous Players Canadian Corporation Limited.

Mr. Spencer was seventy-nine years old at the time of his death, October 17th, 1952.

Mr. F. Gordon Spencer, President of the Company in succession to his father and mentor, continues to enjoy the confidence of the theatre-going public of the Maritimes, and with equal success has increased the areas of activity of the company which he heads.

Mr. Gerald R. Speker, vice-president of the company and brother of the president, is also well known here as a result of frequent visits in connection with the local theatres on their circuit.

The F. G. Spencer Company will be opening the Mountain Drive-in theatre at Campbellton, N.B., in the course of a few days and construction is getting under way immediately for a drive-in theatre at Amherst. Other plans under review call for similar construction at Truro and Kentville.

The New Modern Style

NORTH RIVER DRIVE-IN THEATRE

Is A Credit to the Sponsors whom we

Heartily Congratulate and Wish Them Every Success
