DIED ABROAD.—Mrs. May, wife of Mr. J. P. Nevins, of Merrimack, Mass., died at that place recently in the 25th year of her age. Mrs. Nevins was the second daughter of Mr. F. F. Holland, of Tryon. She leaves three small children, the youngest being only seven months old. The funeral took place at Gloucester, Me., Mr. Nevins' former home.

HE'S IN THE ASYLUM NOW.—A young man discharged from the City House of Works Office, Halifax, was arrested on Thursday last by the police, for making threats against the Mayor and hovering around his office. The city medical officer examined the man, and he was sent to the insane asylum. He had no weapons on him when arrested.

NEWS NOTES. The workmen of Great Britain and Ireland are £600,000,000 a year, sixty per cent of which goes for drink. Coffee palaces are a feature of Melbourne life, no less than ten and a half millions of dollars being invested in them.

TEMPERANCE AND LABOR are the two best physicians of man; labor sharpens the appetite, and temperance prevents him from indulging in excess. Both Houses of the Legislature of Queensland have adopted the land value system of taxation for municipalities, and fixed the amount of tax at 2d. in the pound. There is now no municipal taxation upon improvements in that colony, and the result of the application of the principle has more than realized expectations regarding revenue, while it has been found to considerably lighten the burden of taxation on users of land throughout the country. So says the Melbourne Beacon.

THE DOG GOT SCARED.—On Saturday afternoon a little boy was observed off Peake's No. 3 Wharf trying to get his father, who was badly intoxicated, across the ice. He had a large dog harnessed to a sled, on which he seated his parent, and without several upsets, by pushing while the dog pulled, had managed to cover quite a distance when suddenly one of the runners broke through the crust of the ice, frightening the dog so that he became unmanageable, broke away from the sled, leaving the unhappy boy to get home as best he could his drunken father.

A MYSTERY.—Persons standing at the corner of Kent and Prince Streets last Saturday evening could not help but notice the broad grin on everybody's face as they looked in the window of Johnson & Johnson's drug store. In the window was a camera set on a tripod, with a black box operating it, pointed at a box with a large placard placed on it, and a large bottle of oil, pill, salts, senna, castor and codliver oil, drag, etc. Between the two was a placard explaining the mystery, while underneath the camera was another placard giving some information which everybody should know.

A VALUABLE FIND.—Hidden treasure valued at several thousand dollars, made up of gold watches, Spanish doubloons and jewelry came to light at Waltham, Mass., one day last week while repairs were being made to the Ocean Colonial House, supposed to be over 150 years old. A diamond stud, of fine quality, weighing over eight carats was found, with a number of letters, checks and ancient papers, dating back over 100 years. The house had been lease-l recently for a number of years, and the honest workmen discovered and turned the treasure over to the lessee, the owner of the house making no claim on it.

MIGHT HAVE BEEN LOST.—The Summer-side correspondent of the Guardian writes that before the last storm, Mr. Edwin McDonald, of Lot 14, left home for Malpeque to trade some straw. When Wednesday came and he did not return home, his people got uneasy, and on enquiring at Malpeque, was told he left there last Monday. While search was being made, he suddenly arrived at his home. It appears that after leaving Malpeque he started to cross Richmond Bay, but the storm was too great, and he groped his way amid the blinding snow until he found himself at Raynor's Creek. He was very much exhausted, but was able to get to his home when he went home safe and sound.

ANOTHER EXAMPLE of what our great sale is saving the customers that through our daily efforts is found in the Men's Unshirred Shirts that we are selling at Forty-nine Cents. They are of Heavy, Coarse Cotton, well made, well cut, and well worth a much larger price.

ANOTHER "snap" is found in the Unshirred Shirt we show at Seventy-five Cents. We have been told that it is the same quality that 75c. is usually sold at one dollar. But this does not surprise us. We know we bought these and dozens of other lines of goods at much below the usual price, and we are giving you the benefit during our great sale.

OUR CATTLE EXPORTS.

The exportation of live stock for 1893 to the United Kingdom, from Canadian ports, inspected before sailing by the veterinary officer of the Department of Agriculture, was 80,899 cattle and 1,791 sheep. This shows a decrease from 1892 of 17,856 cattle and 14,151 sheep, but it must be remembered that the figures for this year only cover ten months. In the table of exports taken from the trade and navigation report (which is not yet published) it appears that the exports of animals to the 30th of June, 1893, were:

Table with 3 columns: Number, Value, and Description. Rows include Horses, Cattle, Sheep, and other livestock with their respective counts and values.

MEETINGS HAVE lately been held at Crapaud, Victoria and Tryon for the purpose of starting a creamery station at that central place; but up to the present time the site has not been chosen. We hope, however, that the farmers in the different sections will come to a settlement on this question and that a suitable place will be chosen agreeable to all parties.

THE many friends on the Island of the Rev. Allan B. McNeill, formerly of Tryon, now of Rigfield Park, New Jersey, will be very glad to hear of his recent illness. The reverend gentleman has lately undergone an operation in the Brooklyn Hospital, and we are pleased to hear that he is now in a fair way of recovery. His mother left Tryon via the Cape for New York, on Monday, the 29th inst.

A young man of this place recently took a young lady for a ride on the side of the road in a snow bank. The horse went off at a smart rate and the lady was badly demoralized. We would caution our young men not to drive so smart on these roads as the pitches are something to be in dread of. Feb. 3, 1894. Crapaud, Feb. 3, 1894.
