Grand Trunk Railway Deal.

A BAD BARGAIN EXPOSED.

McDonald and Martin on Free Corn.

OTTAWA, June 18.—The morning and afternoon sessions of the House of Commons in Committee dealt with details of the Grand Trunk contract. Hon. Mr. Foster, Sir Charles Tupper, Hon. Mr. Baggart, Mr. Powell and other members of the Opposition subjected Mr. Blair to a rigid examination on almost every clause.

It was shown that the American manager of the Grand Trunk has taken exceedingly good care of his Company.

A long discussion took place on the remarkable clause providing for any extensions of accommodations on double lines to be constructed for the mutual good of the Government and the Grand Trunk between St. Rosalie and Montreal.

It is supposed that improvements involving an expenditure of one to three millions have been under consideration by the Grand Trunk in its own interests. The agreement provides that these enlargements shall be made by the G. T. R. and that the Government is to pay 5 per cent. interest on half the costs.

Hon. Mr. Foster showed that with a guarantee of two and a half per cent. of the interest from the Government and with \$1,400,000 a year subsidy guaranteed from the Government the Grand Trunk Railway could get money in the English market at three per cent or less. The result would be that the country would pay two and a half per cent. and the Grand Trunk Railway half of one per cent of the annual charge—more than nine tenths for the benefit of the Grand Trunk.

After the Drummond railway steal had been worked through the Senate, the House went into committee, taking up the tariff on sugar.

Hon. Mr. Fielding said that there would be no change in the sugar duties before next session. In the meantime the Government would try to become educated on the subject.

At the evening session the committee took up the corn duty.

Mr. McDonald, of P. E. Island, emphatically opposed the free admission of corn on the ground that it destroyed the Provincial market for oats and other coarse grains. Incidentally Mr. McDonald condemned the destruction of the Pictou iron industry, saying that a manufacturing and mining town afforded the best market for agricultural produce.

Mr. Martin, of P. E. Island, contended that there would be a time when free corn could be defended. But this was not the time, as coarser grains were never cheaper than they are now. This clause is, he said, thrown to the United States farmers, who have no claim whatever upon this country.

The item carried.

P. E. Island Fish Report.

Georgetown.—Catches of cod good, of lobsters fair, but of herring poor; no mackerel.

Malpeque—Cod fishery fair, but lobsters and mackerel scarce.

Alberton Lobsters, cod and mackerel scarce no bait.

The confidence of the people in Hood's Sarsaparilla is due to its unqualified record of wonderful cures.

"Electricity" vouches for the story that the introduction of the telephone into Alabama is believed by the farmers to have depreciated the price of cotton. The Georgia & Alabama Company have been obliged to appeal to the courts to protect their lines from the rage of the natives. The poles have been hewed down in many places, and one aggrieved individual spent his wrath in dragging at the tail of his wagon seven miles of the wire he had first cut.
