Palpitation of the Heart, Kidney and Liver Trouble, Deathly Faintness and Loss of Appetite
CURED!!

THE FOLLOWING LETTER PROVES THE WONDERFUL MEDICAL POWERS OF THE GREAT GERMAN AMERICAN REMEDY. THE NAME OF REV. H. MILLS (THAN WHOM THERE IS NO BETTER KNOWN MAN IN THE MINISTRY) IS WELL KNOWN IN THOUSANDS OF HOUSEHOLDS IN THE PINE TREE STATE.

DEAR SIR— I am now 57 years old, and for over 10 years I have been afflicted with weak kidneys so badly at times that I could not rest nights. I could get no position that would be comfortable my neck was so lame.

My liver also became affected, causing me to become very bilious. I had a dull headache continually accompanied by a singular tired feeling.

My appetite was very poor, and I would have a dizziness faintness at all of stomach.

For the last two years I have been greatly troubled with severe palpitation of the heart after prayer and in long protracted meetings it would become very serious.

I have used the two courses of SKODA'S DISCOVERY and LITTLE TABLETS you kindly sent me. ALTHOUGH THE BLESSING OF GOD, I AM PERFECTLY CURED—HAVE NOT FELT BETTER FOR 29 YEARS. Fraternally yours,
REV. H. MILLS.

The Poor to Go Slumming.

BUT IT WILL BE IN THE HOMES OF NEW YORK'S WEALTHY "400"—A NOVEL IDEA.

NEW YORK, April 28.—At the convention held in the Florence building, at First street and Second avenue yesterday, by representatives of the shirt makers of the various states of the union, Father James Huntington, the Episcopalian monk, made known a plan for a unique "slumming tour." He proposed to take a party of his parishioners up among and into the homes of the "400," and show them what life was like in the so called upper circles. The rich had long been in the habit of going down into the tenement districts and trying to correct and elevate their less moneyed fellow mortals. This was all very well, but to him it seemed the poor should have a chance to return the calls, and it was with this view that he had made his arrangements for his novel excursion. A number of wealthy families had agreed to his scheme and were ready to aid him in it, but who they were he would not say.

In concluding his remarks, Father Huntington said he favored the establishment among workmen and their employers of boards of conciliation, which should meet several times during the year and settle by arbitration any difficulties as are wont to arise between the laborer and the capitalist.

The Railway Trouble.

The following resolution was moved in the House of Assembly yesterday afternoon, and carried unanimously:

Resolved, That the House of Assembly of Prince Edward Island, now in session, do hereby express its regret that it is the intention of the Dominion Government to reduce the number of trains which have hitherto afforded accommodation to the public on the P. E. Island Railway.

Inasmuch as the booking stations on that railway have been a great convenience to our farmers and business men, this House further expresses with regret, that it is the intention of the Dominion Government to reduce the number of these stations.

This House further laments with regret that it is the intention of that government to discharge from the employment of the P. E. Island railway, a number of the employes, and officials who have been in that service for many years, and who have merited and gained the confidence of the public.

Further Resolved, That this House disapproves of the action of the Dominion Government in these matters, and sincerely trusts its decision will be reconsidered.

Rather Romantic.

PHILADELPHIA, Pa., April 27.—A wedding of more than usual importance, and the climax of a duel fought at Rouse's Point, Canada, in 1873 between John G. Hecksher and Henry Winthrop Gray of New York, took place in this city at noon yesterday. The groom was Mr. Hecksher, one of the principals in that duel, and the bride was the former wife of his antagonist on the field of honor. The lady's maiden name was Miss Travers.

SONS OF ENGLAND.

THEY HOLD A VERY SUCCESSFUL ENTERTAINMENT.

The entertainment, in honor of St. George's Day, by Eton Lodge, Sons of England, last evening, was a very successful affair. The hall was crowded. Mayor Haviland occupied the chair and delivered a very happy and instructive address. He said he felt it an honor to preside at the meeting and gave great credit to those who had the pluck to start a lodge of the Sons of England in this city. It is a modern institution, having only been founded in 1874 and incorporated in 1875. The members were welded together for benevolent, moral and social advancement. Since its organization great strides had been made. Lodges were now to be found in Africa; and all over Canada, from Vancouver to Halifax. He was pleased to see Eton Lodge so appropriately named. Eton was a household word in England. The college bearing that name had furnished England with a great number of her illustrious sons. Eton lodge enjoyed the honor of being the pioneer lodge of the Lower Provinces. The Order numbered 8,000 members in good standing in 1890, and since then had largely increased. Englishmen are beginning to feel proud that they are English. The Irish and Scotch have their societies and took the lead. But England was the father of them all. The qualifications for membership state that the applicant must be an Englishman or the son of an Englishman. He must be between 18 and 60 years of age. Regular dues are levied, which go to form a fund in case of sickness or misfortune of the members—not mere charity, but as a right. There is also a benevolent branch, which gives the family \$1,000 on the death of the bread winner. Rev. Mr. Hamlyn also spoke. After speaking on the objects and results of the institution, he said there were, doubtless, many in the room who felt proud that their forefathers had taken a part in England's wars; many who felt proud of the fact that their forefathers had helped to secure the liberties which we now enjoy. Englishmen were accused of being a proud and haughty people. There is some cause for it. Mr. Hamlyn drew a comparison between the undernourished and poorly disciplined soldier of the French Republic and the stalwart redcoat and said that when he looked around he felt there was just cause of being proud of the English nation. He spoke of the vast extent of the British possessions and showed that Canada was the greatest of them all. Why is it, asked Mr. Hamlyn, that the Anglo-Saxon race occupies such a position today? Because they are a Bible-loving people, a God-fearing people. An Indian Prince once asked Queen Victoria the cause of England's greatness. Handing him a copy of the Bible, she replied: This is the source of England's greatness. He closed his admirable address with the lines:

"None shall make me rue
If Sons of England are to themselves true."

The following program was admirably carried out:

PRINCE-GEORGE'S ENGAGEMENT TO PRINCESS MARY OF TECK—COLLINS—SHARE-FRAKE'S BIRTHDAY—DEALING WITH CRIMINALS.

LONDON, April 28.—At a meeting in the Metropolitan Tabernacle last evening it was resolved to invite James Spurgeon to occupy the Tabernacle pulpit for three months and to request Dr. Pierson to conclude his American visit as quickly as possible and preach in the tabernacle for one year. In addressing the meeting, James Spurgeon said the tabernacle was never in a more flourishing condition.

The Manchester Courier says the betrothal of Prince George, only son of the Prince of Wales, and Princess Mary Victoria, daughter of the Duke and Duchess of Teck, has been definitely decided upon, and that it will shortly be announced. No surprise is occasioned by the statement. It is said that the Queen, who is very fond of Princess Mary, is heartily in favor of the betrothal, and that, in fact, it was her influence that brought it about. The marriage of the Prince and Princess would be greeted with much satisfaction by the people with whom both are extremely popular.

The Easter holidays did not induce an unusual agitation in the Shakespeare memorial productions at Stratford-on-Avon. Mr. Benson's memorial performances were well attended. During the week

there were a few extra visitors who took occasion while at Stratford to visit Anne Hathaway's cottage, but otherwise the usual solemnity of the village was undisturbed. To-day, however, there was a great chance. This is the 318th anniversary of the poet's birth, and there was a great change. This is the 318th anniversary with flags and bunting, and the old village was fully alive to the honor of having been the home of Shakespeare. All the church bells rang merrily and the erstwhile sleepy streets and lanes were filled with hundreds of visitors from all parts of the country. Many Americans were present. Among the visitors were a large number of Shakespearean scholars.

The British steamer Earl of Chester, bound from Cardiff for Sables D'Orléans, was in collision to-day during a dense fog near Ilfracombe, Devonshire, with the Spanish steamer D. Soto, presumably from Hamburg for Barcelona. The Earl of Chester had an immense hole stove in her, and seven minutes after she was struck she sank. Her crew took to their boats and got clear of the steamer before she went down. They were afterwards picked up and landed at Penarth. The Earl of Chester was an iron screw steamer of 905 net and 1,480 gross tons burden. She was owned by the Earl of Chester Steamship Company, and her calling port was Cardiff. She was built at Sunderland in 1893.

A letter written by the president of the Howard Association has been published here, and has merited great interest among those connected officially and unofficially with English prisons. The newspapers print lengthy comments on the letter. Mr. Tallack says that after a careful study of prisons in Italy and America, where a system has been adopted of giving prisoners of a hardened type free intercourse with the other prisoners and providing them with comfort and luxuries, he has found that the results are deplorable. The prisons of Massachusetts, he declares, are schools of crime, and have terrible effects upon the community. Crime in England, where the prisons are separated, has, according to Mr. Tallack, greatly decreased, while in America it is rapidly increasing.

The Prince of Wales and his family today join the Queen at Hyeres, France. All the royal visitors depart from that place on Monday, the Queen going to Darmstadt and the Prince of Wales party returning to London.

It is stated that owing to the depression in the British tin plate trade resulting from the workings of the McKinley tariff, the proprietors of a number of the largest tin plate factories in Wales intend to erect works in America.

MEN WANTED.

EDITOR TRANSCRIPT.—Shortly after coming to Moncton, I wrote to Alexander Calder, C. P. R. Employment and Ticket Agent, Winnipeg, Manitoba. This morning I received his answer, as follows:—

"DEAR FRIEND MCKELLAR.—I received your letter, and was pleased to hear from you, but I thought I would not answer it until I could give you the prospect of this season's work. Well, I expect plenty of work by the 1st of May for about one thousand men. I have only sent out about 150 yet this spring, but the C. P. R. will want about 500 on the 20th of this month, and about 500 men the last of the month. I think I will be able to place a good many more men this year than are or will be here. The city will do a good deal of building, and railroad work will be plentiful. There will be the Road from Regina to the boundary, the Souris Branch, and I think the C. P. R. will build through the Crow's Nest Pass, and the Fort McLeod road will proceed at once to the Pass. I hope you will be able to send us a good number of the maritime provinces people. They are the best class of workmen we have ever had in this country, and have all done well for themselves, and for those that employed them. I hope you like the place and the people. I am sure I shall have to go to Toronto for men in June, unless the excursions are very large. Let me hear from you soon and say men you send I shall give them the preference at all times.

Your old friend,
ALEX. CALDER.
