Real, good, solid fun? If you don't you must be sick and require some medicine (probably Everybody's Pills), but if you do you ought to have a camera. You can then have lots of fun taking pictures, and live it all over again when showing them to your friends. In either case call. We can supply the medicine or the camera. What Ails the Ancient Companies?

This is what ails them: The FEAR of CHANGE, which Milton says used to perplex monarchs when they saw a long tailed comet in the sky. The CHANGE is HERE; not heralded by a comet but by the New Yost, the perfect writing machine.

UNEQUALLED IN Principle of Construction, Operation and Alignment, Speed and Noiselessness, Beauty of Work & Manifolding, Clearness of Letter Press Copies.

NEW FEATURES: No Ribbon, No Shift Key, No Dirty Type to Clean, No Old-Fogy Ideas.

The history of the introduction of the Yost has been marvellous since its very inception. Never did a radical newcomer so rapidly replace its established rivals. Its long awaited improvements, however, gave it a hearty welcome, and to-day its following is world-wide and enthusiastic. Thousands of operators have tried and preferred it, and thousands of others—who lack the courage of their convictions—stick to the old machines from force of habit only—already acknowledge it as THE typewriter. And all of this wonderful success of the past has been won with the early model of the Yost, upon which the NEW YOST is a vast step in advance.
