OLD CUSTOM-HOUSE BUILDINGS,

WATER-STREET, CHARLOTTETOWN,

P. E. ISLAND.

T. HEATH HAVILAND,
FREDERICK BRECKEN.

The Hon. John Montgomery, member for Restigouche, was sworn in as Surveyor General for the Province of New Brunswick.

The *Toronto Gazette* says :—"We regret to learn that that destructive insect, the Weevil, or wheat midge, has already considerably damaged the wheat crop in this and other neighbouring townships."

The *Boston Journal*, a leading Republican organ in New England, contains the following paragraph :—

"We are decidedly of opinion that monarchy and hereditary monarchy, is by far the best form of Government that human wisdom has yet devised for the administration of considerable nations, and that it will always continue to be the most perfect which human virtue will admit of."

A COUNTESS IN TROUBLE.—The Countess de Roudeau, a French lady just arrived at New York, is charged with smuggling $30,000 to $40,000 worth of laces, shawls, &c., and the goods have been taken in custody by the custom-house officers. The packages were landed from the vessel in which they and the lady arrived from Calcutta, and taken to the Lafarge House, through the instrumentality of a custom-house broker. Madam E. states, that the goods belong to her, and that she intends taking them to France.

ARRIVAL OF THE STAMSHIP "ATLANTIC."

NEW YORK, August 5th.

The *Atlantic* arrived last night. The English news is unimportant. Parliament would adjourn about the 30th.

From Spain there are contradictory reports, but it appears the insurrection had been put down in Madrid, with the loss of two hundred killed. In other parts of the country, the insurgents are making head-way.

MONEY.—The London Money Market was unchanged.

BREADSTUFFS were generally firm ; the better grades of flour exhibit a slight improvement, but lower had a declining tendency. In wheat, the better grades had advanced one penny, while other descriptions were about two pence per bushel lower. Corn was firm, but transactions small. Other markets unchanged.

News by the English Mail!

WE kept back our paper until after the arrival of the Steamer *Lady LeMarchant* with a British Mail. We find very little important news to communicate to our readers.

The harvest prospects were exceedingly good. Flour and Grain were falling in price.

MARSHAL CANROBERT has been invited by the King of Sardinia to pay a visit to Piedmont.

The potatoe disease has made its appearance in Ireland and the Isle of Wight.

THE INSURRECTION IN SPAIN.

The latest intelligence from Spain does not add anything of much importance to that which is already before our readers. It seems probable that for the time, at least General O'Donnell will succeed in carrying out the *coup d'etat*. So far as we can ascertain although it is clear the accounts which reach us cannot be wholly relied upon, the troops remain faithful to Queen Isabella, and in many places where it was supposed disturbances would have taken place the leaders of the movement seem to have abandoned for the present all intention of resistance. There is no doubt, however, that a strong feeling of dissatisfaction exists in many parts of Spain with the present state of affairs, and there is no saying where or how soon fresh troubles may break out.

The Spanish capital was perfectly tranquil, and the order to give up arms had been so promptly responded to that 400 muskets were delivered more than had been distributed to the National Guard. Mulaga and Granada were said to be still against the new government. It was thought probable that the present Cortes would not be called on to meet again. The publication of the official political programme of the Ministry has been postponed until the entire pacification of the kingdom had been effected.

Parliament was prorogued on Tuesday, July 29.

The Queen's speech, delivered by commission at the close of the session, in well enough as a leave-taking of the Legislature for six months ; but there is hardly a sentence or a paragraph which will live on the memory. The allusion to the close of the war and to the co-operation of our allies during the struggle, affords a clue to the supineness which marked the session. People expect legislators to be something more than human. When the war began in earnest Parliament could do nothing but vote the supplies.

HER MAJESTY'S VISIT TO LISBON.—There is a strong and growing belief that the Queen will take a trip to Lisbon in the course of the autumn. It is said that preparations are already in progress ; that the naval force stationed at Lisbon has been increased to give *eclat* to the visit ; and that the royal yacht has lately been testing her sailing and steaming qualities in the Bay of Biscay. The sound judgment evinced by the King of Portugal since the termination of his minority renders him worthy of such a distinction ; and the excursion will be a fresh proof of our courageous Sovereign's love of the Englishman's element—the Sea. From Lisbon, it is understood that the royal party goes to Ireland, where an Irish welcome awaits the Queen. These public gaieties at an end, her Majesty will forthwith betake herself to her beloved seclusion at Balmoral, to enjoy once more the fresh and bracing breezes of the mountain.

THE SOUND DUES.—It is stated semi-officially that all the European Governments have agreed on a principle with regard to the redemption of the Sound Dues, save England.

RUSSIAN MENACES.—It is said that the Russians are about to construct forts in the Baltic in as menacing a position to Sweden as was Bomarsund.
