Snow Business Is Said Good By Ski Industry Executives

VANCOUVER (CP)—There's no business like snow business.

This year, ski industry executives in British Columbia and Alberta predict that devotees of the winter sport will spend $20,000,000 to risk breaking a leg at any one of the dozens of glittering resorts that dot the Rockies from Banff to the West Coast.

Business is booming. Retail prices are up, equipment is becoming more specialized and expensive and ski clothes have added a new impetus to the clothing industry across Canada and in the U.S.

Industry spokesmen say Canadians will spend $65,000,000 this season, while Americans will spend about $1,000,000,000 during the winter months to pursue the sport.

Competition in the various segments of the industry is getting fierce — especially among resort operators, many of whom have invested millions in anticipation of outdrawing a neighboring area.

Lodges are getting more prestigious and it's becoming more and more expensive to equip a mountain for skiing.

Developers at Whistler Mountain, northwest of Vancouver, are making a concerted effort to lure B.C. skiers away from Mount Baker, an impressive resort across the border in Washington state.

One of the men involved in the development says Whistler has the potential to become another Sun Valley, Idaho.

"All it needs is about another $6,000,000 spent on accomodation, chairlifts and T-bars."

Whistler already has cut deeply into Mount Baker's traditional popularity among B.C. skiers, but parking lots around the U.S. mountain still draw large numbers of Canadian cars.

LURE FOR SKIERS

Lodge operators have launched a campaign designed to stretch weekend skiing into a week-long affair. They provide special week - long excursion rates, throw in the transportation and encourage young, single persons, as well as families, to head for the hills.

In Alberta and B.C., costs have shown a general increase this year. Lift tickets generally are up 50 cents to $1, skis that cost $107 last season now cost $112 and top line ski boots are up to $125 from $100.

Gus Arnett, a leading Vancouver dealer in Japanese and European equipment, says a family of four can expect to spend $900 this year for the minimum in equipment and clothing—and up to $1,500 depending upon personal taste.

The $900 price would include "wooden skis and fairly good boots."

Skis themselves are changing. They're now made not only of wood and metal, but plastics and combinations of other synthetics. Some of them are coated with the same substance that prevents your scrambled eggs from sticking to the frying pan, to provide extra zip for getting down the slopes.

BRISTOL

Mrs. Gordon Hooper and Mrs. Bernard Tobin have returned home from a short but pleasant motor trip to Boston, where they attended the 25th wedding anniversary of Mr. and Mrs. Harry Hooper and visited with many other relatives and friends in and around the hub city.

There is a strong rumor here that a well known city merchant has plans for opening a grocery and meat business in or near the village of Morell.

An "old timer" residing in the city called last week to say he was one who remembers the cold Friday we mentioned last week. He said they called it Black Friday and it was nearly 80 years ago. He also recalls another winter called the "winter of the big crust" when teams were travelling over the snow drifts that became crusted following a severe silver thaw. It's nice to know this column is followed up by outsiders.

This vicinity has lost what we consider its oldest and best known resident at the age of 98 Simon McKinnon, who was known far and wide, passed on last week after nearly a century of life here.

A resident of this vicinity had the misfortune to roll his new car recently but luckily no one was hurt much. The travelling has been far from good lately.

Some of the carpenters who were employed in the city for some time have returned home to work on the new school in the village.

David Baker has joined the staff of The Guardian-Patriot and started his new duties recently. His home is in Bristol.

Those who like hooking smelts are having a field day right now. Some are using as many as three hooks and landing two and three smelts at a time.

Mrs. John R. O'Brien, who moved to the city to reside last fall after the sudden passing of Mr. O'Brien, has changed her mind about city living and returned to the old Bristol home again to reside. "No place like home", she said.

Sister Mary Gerard, OSB, who is stationed in Kansas, U.S.A., this winter writes home that thanksgiving there was a gathering of 500 sisters of the Benedictine Order. Several of them were Island girls who are serving in different places. She also wrote "we all go home early in December for Christmas at the priory in Covington, Louisiana, a two days trip from Kansas. This mighty Order, the world's largest, has more than 50,000 sisters and still calls for more from any part of the world for teachers and workers. Many speak no English.

Mrs. Agnes Anderson has returned to her duties in Charlottetown following an extended visit to her old home in Newfoundland after many, many years absence. She reports a wonderful trip to the old home land to see relatives and friends. Mrs. Anderson's home is here but she has been employed in the city for some years now.

Mrs. Herb Kenny has returned from a nice trip to Boston, where she spent some time with relatives and friends. "It's a nice season of the year" she said, "to visit the big city when its all decked up for Christmas."

Some very choice geese were seen in this vicinity last week. Old timers in the country still like the goose for Christmas dinner.

One day, this Belvedere smoker* opened a pack and won a 3 pc. set of Jetliner luggage!
Every hour—day and night—two Canadians find Instant Gift Coupons in their packs of Belvedere cigarettes. But most people smoke them because they like them. So, for one reason or another, you should be opening a pack of Belvedere right now. Are you?

Dickson, St. John's; Mr. J. V. O'Dea, St. John's; Mrs. M. Peddle, Corner Brook; Mrs. A. Humber, Corner Brook.

Why should our son have a newspaper route?
The living is good. Plenty of money, nice home, nice furnishings, another salary raise in sight; we've never had it so good. Why should our son manage a newspaper route?
Most any educator or businessman will tell you why in three simple words: it builds character.
Oftentimes the youngster who grows up in comfortable circumstances and who gets his weekly "handout" from dad never realizes the value of money or the efforts required to make it and manage it, until he's on his own. By then attitudes and habits are difficult to reverse.
But the newspaperboy quickly learns valuable lessons that stick. While making money on a newspaper route is important, the experience of getting-the-job-done-no-matter-what is more important. When through route management, responsibility and self-confidence are acquired at this early age, a newspaperboy has an advantage over other youngsters that no amount of money can buy.
If you're still wondering whether your son would benefit from newspaper route management, ask a community businessman or civic leader, or better still, phone our Circulation Department.
