

# Acute Glaucoma Case Found At Eldon Clinic

One acute case of glaucoma and 10 borderline cases were included among the 84 people whose eyes were examined at a clinic conducted by the Charlottetown - Paradise Eye Clubs at Eldon yesterday, it was learned last night.

The one acute case was notified to appear at the clinic this morning for immediate treatment. The other 10 persons affected will be notified later this week, a Lions spokesman said last night.

The examiners were Dr. J.P. Lantz, Southport and Dr. William Moreside, Charlottetown.

The Lions were assisted by members of the Eldon Women's Institute under the direction of Mrs. John Gill. Dr. John Gill made the necessary arrangements for the clinic to be held

there, it was stated.

Nurses who assisted — all the help volunteered — included Mrs. Betty MacNeill, Montague, Mrs. Louise MacLeod, Ulgie; Mrs. Edith Gill, Eldon and Mrs. Allison Gill, Charlottetown.

Stenographers assisting included Mrs. Elliott Ross, Miss Lona Ross and Miss D. Morrison, Belfast and Mrs. Elwood Ford, Charlottetown.

A total of 24 glaucoma victims have been discovered in the half-dozen clinics held to date, and there have been 22 people with borderline cases that will need attention it was reported. A total of 183 persons attended and were examined.

The Lions clubs' spokesman said they are closing down the clinics now until early in October.

# Souris Regatta To Feature P.E.I. Top-Of-War Contest

Expected to sponsor an entry but her name has not been announced.

Closing date for entries in the Sea Queen contest is tonight.

Two teams are entered already and the challenge is out to teams from all parts of the province. Entered are the Souris fire department team coached by Constable James Cox of the RCMP and the Souris fishermen, coached by Albert Griffin. Elmer MacDonald is chairman of the regatta.

At the same time Milton Pitt, Patrick announced there had been by far the best entry in the Sea Queen of the Sea contest, bringing the number to four. Newcomer are Cheryl Birt, daughter of Mr. and Mrs. Martin Birt, Souris, sponsored by the Souris and Prince Edward Island Fire Department. The Morel Lions Club is also

# Fire Flares On Smack; Hands Burned

Souris — Neil MacInnis of Souris had his face and hands slightly burned here yesterday morning when fire broke out in a lobster boat, used as a jobster smack by the Eastern Packing Co. The buyer, Mr. MacInnis, was the only person aboard.

Edgar Peters of Souris and Edward Gill of Charlottetown working nearby used chemicals and water to extinguish the flames which were confined to the engine. The fire was practically out when the Souris fire department arrived on a 46 foot motor launch at the dock here.

Owner of the boat is Fee Rowan of Souris.

Itself under the department of industry and natural resources. Mr. Vass said, with a possibility of an oyster hatchery at the biological station and prospects for a commercial development.

Harold Phillips asked what a commercial development would be and was told by Edgar Taylor, superintendent of the Prince Edward Island Division that the expanded to handle express along with less than carload freight. If prepaid, goods would be placed in the station at consignor's risk.

The passenger review is also 67 tickets sold at Ellerslie in 1962 and 97 in 1961.

Before closing the meeting Mr. Hase expressed his personal appreciation to those present for their assistance and provided information necessary for a tour to reach their decision. The station agent at Ellerslie is Doug LeBlanc.

AT COLEMAN Six men and one lady attended the meeting at the Coleman station where the CNR proposed to remove the passenger service provided by Mrs. Ivan MacLean. All though all present wished to have the service retained, the CNR's trucking service to the area was considered adequate for most of the year. Coleman is located about three miles from O'Leary.

The 400-square-mile West African county of Gambia has no railroad and only 65 miles of paved roads.

(Continued from page 1) costs in their application are not out of date as fishing was mentioned when in fact their oyster industry is the largest and most prolific in the province. Farming is a major factor also the biological station where 20 people are employed in general stores in the area. Nine general stores, one of whom said he shipped 18 carloads of oysters last year. Coleman is a gravel plant on Atlantic and peat developments were also mentioned by Mr. Vass as items that should be considered.

Many of those present objected to Part III as an alternative station claiming it is inconvenient in the winter when there is no road and the station is placed out in the middle of the bay is impassable in the spring, it was stated. A second alternative station at Ellerslie, is 12 miles from Ellerslie.

The area is trying to improve

HALIFAX (CP) — The weather office says a light circulation of most air was producing extensive fog along the Atlantic coast of Nova Scotia late Tuesday evening. Elsewhere in that province and in Prince Edward Island only a few clouds were reported.

In New Brunswick variable amounts of clouds lingered in the skies and a few showers were reported from the northern region. Somewhat cooler and drier air was approaching from the northwest and will pass through New Brunswick during the night setting off a few showers along its leading edge. These will be followed by clearing.

The leading edge of this cooler air together with its associated showers will pass through Nova Scotia and Prince Edward Island during the day.

Regional forecasts: Halifax and vicinity: Sunny and clear, with a few clouds in the afternoon and evening. Little change in temperature except warmer along the coast.

Northern New Brunswick: Partly cloudy with showers in the afternoon and evening. Little change in temperature. Light winds. Low-high at Kenilworth 49 and 72. New Glasgow 44 and 73. Sydney 44 and 73. Charlottetown 48 and 70.

Eastern N.B. Counties: Lower St. John River Valley: Variable cloudiness clearing in the late afternoon or evening, a few showers in the morning; a little cooler; light winds. Low-high at Montserrat 46 and 70. Fredericton 48 and 74. Saint John 45 and 68.

High tide today at Charlottetown at 8:08 a.m. and 2:29 p.m. At Rustico at 8:34 a.m. and 4:57 p.m. Summer tide eighteen minutes later than normal. Spring tides rise today at 4:30 and sets at 7:31.

# U.S. Mid West Tourists Impressed With Island

Yesterday morning the Confederation Chamber was visited by 19 travellers from southwest Minnesota and Northern Iowa. The group is on a tour sponsored by two newspapers and a radio station at New Ulm and Firmont, Minn.

The group is the 14th International "Travel Fun" tour conducted over the past few years and is headed by George Korchench, general manager of KNUJ radio station, New Ulm.

Arriving on the Island Monday night, the party consists mainly of retired businessmen, farmers and teachers. Monday night they toured Charlottetown, and after

visiting the chamber yesterday morning they visited Cavendish, Kensington and a summer residence area in the afternoon. Travelling via Wood Islands they leave this morning for Sydney, the Cabot Trail, Halifax, Peggy's Cove, Moncton, Quebec, Montreal, Ottawa and Niagara Falls.

Reports of their travels are sent back to the sponsoring newspapers, and Mr. Korchench makes radio broadcasts along the way.

Since the majority of the group are farmers, Mr. Korchench said that the group was very impressed with what they had seen of the Island.

# Experimental Farm To Try New Type Barn Hay Drier

A new-type barn hay drier, said to be one of only two of their kind in Canada, has been purchased by the Experimental Farm and will be shown in action next week when the Prince Edward Island Agriculture Department holds their annual field day there. It was learned yesterday from R.C. Parent, farm superintendent, and James Williams, who does part time work for the Agriculture Department.

The new drier comprises a large fan driven by a diesel engine that propels large quantities of air into a loft overhead where an estimated 80 tons of baled hay can be dried at one time. It is estimated by farm authorities. The air is warmed slightly by heat created by the engine.

They have built a plywood air tunnel, four feet high and

four feet wide, with slots or doors on the inside to permit circulation of air under the piles of bales, and up through them. The bales are piled on a frame so the air can circulate underneath them.

The machinery part of the installation cost a little over \$2,500, Mr. Parent said.

DIES OF BURNS SUDBURY, ONT. (CP) — Mrs. Hubert Jalbert, 83, of nearby Skead, Ont., died Monday from extensive burns suffered early last May when a candle ignited her dress as she knelt before a crucifix.

by NEIL MATTHESON

breeders have an opportunity to get into the production of pure bred seed stock for the entire country, with its past record of leading all other provinces in the percentage of top grade carcasses and its present performance, Roland W. Nason, who is in charge of livestock products grading at Moncton, told a meeting of Island swine breeders here yesterday.

The Canada department of agriculture man was speaking to the first dinner-field day ever staged by the P.E.I. Swine Breeders Association. President Sterling Willis, Kingston presided. Approximately 100 people attended.

"You are testing more sows now and the average carcass score of 81 compares with 75 for the rest of Canada," said Mr. Nason who added that 76 per cent of the best strains of livestock were developed in east with topography similar to yours."

"There will be need of closer co-operation between commercial and pure bred breeders in the future, added the Moncton man who predicted that there still be strain crossings of hogs in the future the same as there are now in poultry and corn.

Mr. Nason told the gathering that 84.7 per cent of P.E.I. hogs have graded "A" this year to date, compared with 59.4 per cent at the same time last year, and suggested that the next six months are the ones that will decide the final averages of grades. The grades always have a tendency to drop off in the last three months of the year, he noted.

Mr. Nason was introduced by L. W. Woppor, provincial livestock director and was thanked by S. C. Wright, deputy minister of agriculture, who brought greetings from the minister. Hon. Andrew MacNeil, Premier of the province, also attended a government meeting in Alberton.

HOSPITALITY The swine breeders and their wives got a most hospitable reception. They enjoyed an early late dinner served by the United Church women's group of Park Royal United Church, as heard from a dozen speakers in all. Two of the group received dove prizes of a picnic ham and a side of bacon presented by T. A. M. Gillies, Moncton who is in charge of livestock purchases in the Atlantic Provinces and

GREEN ROOM The success of the festival, Mr. MacDonald said, will be "the green room." He said this was the cabinet meeting after each performance during which they will meet with local people and other actors to discuss the day's productions. "Such gatherings are very valuable," Mr. MacDonald said, "as much can be learned when people, all talking theatre, mix together."

Commenting on the Dominion Drama Festival being chosen as the first event scheduled for the Confederation Memorial Building, Mr. MacDonald said "It was a terrific thing for us to be the first big Mac in the new theatre."

Mr. MacDonald was shown the theatre section of the Confederation Memorial Building by Dr. Frank MacNeil. "It is wonderful," said Mr. MacDonald, "to see Dr. MacNeil's dream of a memorial theatre for education Minister Dr. George Dewar and myself."

During the evening, Premier Shaw and the cabinet were guests for dinner at the home of Dr. Dewar in O'Leary.

# Production of Seed Stock Urged On Swine Breeders

Eastern Quebec for Swift Canada, and they ended the afternoon by enjoying a delicious buffet luncheon served by Canada Packers, whose plant superintendent, Joseph Molloy put on an interesting demonstration of "A" and "C" carcasses after plant manager Lloyd MacLeod had been spoken in price trends and marketing.

OTHER SPEAKERS Other speakers included R. C. Parent, superintendent of the Experimental Farm, Dr. H. H. Kelly, director of veterinary services, N. E. Ball, livestock fieldman, Canada department of agriculture, Charlottetown, T. A. M. Gillies, head Irving Murray Harbor, president of the P.E.I. Hog Quality Improvement Association, J. Lincoln Dewar, secretary P.E.I. Federation of Agriculture and R. Frank Tracey, secretary of the swine breeders association who presented the Harold Clay Memorial Trophy to Lloyd MacLeod, Bridgetown who acted on behalf of his father Norman W. MacLeod and himself, the trophy for having had a memorable show day year in advanced registry with a 96.

Hog marketing in P.E.I. are down about three per cent this far this year. Estimates are that marketings will increase in the latter part of the year, and the price will probably drop slightly in the last three months. Mr. MacLeod said.

"The demonstration of 'A' and 'C' hog carcasses indicated that the poorer carcasses returned 14 to 15 per cent less for the packers than the 'A' carcass on the same weight of carcasses. It showed each of which weighed exactly 150 pounds. The top carcass cost \$23.25 and the 504 pounds cost \$21.25 from a pig, he said.

BETTER BOARS Mr. Bell said that investigations here in the past have indicated that the best way to step up carcass grades of market

DRAMA FESTIVAL (Continued from page 1) before the cabinet at yesterday's meeting. They were from the Alberton area, the Prince Edward and the Alberton Town Council," he said. According to the premier, the representatives dealt with transportation, tourism and the general needs of the province.

Premier Shaw observed that "the citizens of Alberton were very delighted that a cabinet meeting was held in Alberton." He said it was the first time Mr. MacDonald said that the cabinet meeting was held in the outlying districts of the province.

During the cabinet, the premier and his cabinet toured most of Lady's Slipper Drive, the scenic route through the province and the Alberton Town Council. Yesterday morning, in ceremonies at Miscouche, the oysters last year. Coleman is a gravel plant on Atlantic and peat developments were also mentioned by Mr. Vass as items that should be considered.

Many of those present objected to Part III as an alternative station claiming it is inconvenient in the winter when there is no road and the station is placed out in the middle of the bay is impassable in the spring, it was stated. # High Percentage of Souris Man's Hogs Said Grade A

A Souris man, Martin Birt, has marketed the highest percentage of top grade hog carcasses in the province. The Guardian has heard about the grade. Mr. Birt has received the top grades of "A" for 85.5 per cent of 43 hogs he has marketed to date in 1963, he told The Guardian yesterday, which is a factually high percentage, never ever suggested as a possible goal by agricultural experts in the past.

All of the hogs that didn't make the "A" grade were "B," he said, with the possible exception of one animal.

The most unusual part of Mr. Birt's performance is that he does not weigh his animals. "It takes too much time weighing them," he said yesterday, "and anyway I can tell the weight good enough by looking at them." He said he gets seems to indicate he can do just that.

SPRING PARK (Continued from page 1) con. Robertson, F.A. Lange QC, Jack Smallwood and Alder Birt. Other committees formed were: property, finance, publicity, and maintenance. Meetings and music women's organizations and advisory.

Another function, which is also another of the vital steps toward the building of a new church and the formation of a congregation is provided by that of Trinity United Church, was the holding of a charter roll service at 11 a.m. last Sunday.

Rev. Robert S. Lattimer conducted the service which all members of the Spring Park congregation signed the charter roll book.

To accommodate the overflow congregation it was necessary to have many of them in the lobby of the church. During the service the soloist was Miss Arlene MacDonald, Charlottetown.

# Ever Hear of a "DIURETIC"?

Maybe not. But you should know Dodo's Kidney Pills. They're helpful all the time when you should use one. You likely understand how important it is to maintain good kidney health. Also that if the kidneys fail to function properly extra acids and waste material remain in the system. This can result in kidney stones, bladder discomfort, often followed by backache, tired

back, and a general feeling of discomfort.

When you are bothered by backache and tired feeling due to the kidney action you can depend on Dodo's Kidney Pills. They're a sure way to get your kidneys back to normal. Look for Dodo's at any drug counter.
