NOTES AND COMMENTS.

—The tobacco factory of Mr. D. Nicholson has been closed as a result of the recent tariff tinkering.

—Halifax Herald: The Turk during the past week has given the powers a strong suggestion that if he wins a few more battles he will want the whole of Europe.

—St. John Telegraph: Every person recognizes the fact that the result of the Quebec elections is to remove the Manitoba school question from the political arena.

—It is reported that the Dartmouth Works are to be closed up. The tariff tinkerer again! What would have happened if the Liberals had fulfilled their promises and "eliminated protection from the tariff."

—Mr. Laurier promised, in the face of Parliament, that such post-election appointments of the late Government as had been sanctioned by the Governor-General should be respected. As an example of ministerial reliability, it is worthy of note that the appointment of James Yeo, Esq., of Port Hill, as Inspector of Fisheries has been cancelled by order-in-council.

—Another item in the cost to Canada of the Manitoba School Settlement has been supplied in the claim of the Manitoba Government on account of buildings erected by the Province in 1855 to the tune of one million dollars. The claim will be recognized as a matter of course. The Manitoba School Settlement, brought about by sunny ways, is a dear business for Canada!

—Senator McInnes addressed the Ottawa Board of Trade a few evenings ago in advocacy of his proposition to establish a Canadian mint. He said it was costing Canada an average of \$8,000 a year to mint a comparatively small amount of silver and copper in England, and that a Canadian mint which could give all the coin, gold, silver or copper which Canada would require could be operated at no greater expense. The Board of Trade passed a resolution heartily endorsing the Senator's idea.

—The Hants Journal reports the return to Windsor of the Archdeacon of Prince Edward Island, and says that "he speaks in the highest terms of the new steamer, the Princess, which now plies between Pictou and Charlottetown. "She is," it is added by the Archdeacon, "an iron propelled of the most improved pattern, and easily steams over 13 knots, making the trip in less than 3 1/2 hours. Her fittings are in good taste and staterooms and saloons extremely comfortable. There is also a large and well appointed smoking room on deck. A fine and uninterrupted promenade is afforded on each side the deck houses from stem to stern. With such first-class and well-fitted steamers as the Northumberland and Princess plying to P. E. Island, the Prince Rupert on the Bay of Fundy, and the Boston and Yarmouth plying between those cities, the Maritime Provinces may well feel proud of possessing passenger steamers which are second to none of their size found in the most fashionable waters of the United States." It is evident that the fact that we have such up-to-date steamers as the Northumberland and Princess will soon be noised abroad; and we may hope for a continued increase in the number of summer visitors to our hospitable Island home.

—Mr. Martin has upon the order paper the following questions:

1. Why have the services of Thomas J. Dillon, Dairy Inspector of Prince Edward Island, been dispensed with?
2. If Mr. Dillon withdrew from the service, what reasons did he give the Minister of Agriculture or any official of his department for doing so?
3. Who is to succeed Mr. Dillon?
4. What position is Mr. Woodward to occupy in the dairy service in Prince Edward Island?
5. What are Mr. Woodward's qualifications and experience in the dairy service?
6. Is he a relation of the Minister of Agriculture?

Mr. Martin also asks:
1. "Why has Charles E. McDonald (late acting light-keeper) at Fish Island, in the Province of Prince Edward Island, been removed, and when?"
2. "Was Mr. McDonald one of those recommended on the 6th day of July last for permanent appointment by the late Administration?"
3. "Did the Government on the 8th of September last, declare by Order in Council that the recommendation in Mr. McDonald's case was one from which His Excellency the Governor General did withhold his approval by his memorandum of the 8th of July last?"

INTERESTING NEWS NOTES SELECTED FOR THE EXAMINER.

It is said in Madrid that the Cuban insurgents have raised a loan of \$3,000,000 in New York.

A lad was run down by a Brooklyn trolley the other day and killed, making the 179th victim of the electric railway in that city.

It is reported that the Catholic University at Washington has received a legacy of \$150,000 from the estate of a Mr. O'Brien of New Orleans.

Mrs. Eliza Sage, of Illinois, the wife of the man who obtained a \$50 loan from his uncle, Russel Sage, of New York, last February, has attempted to commit suicide by hanging, from worry over the debt. She was found in time to save her life.

While in a somnambulist state, James Casey, 16 years of age, escaped unnoticed from his home at Newberry, Pa., attired only in his shoes and stockings and a shirt. He was found several hours later in South Williamsport, fully three miles from his home, having crossed the river in his wanderings.

The Parisians, aroused by some recent events, are beginning to ask themselves if Russia really loved France. It was a warm flirtation that the Czar kept up with the Republic for a while; but it seems to have been nothing but a flirtation so far as Russia was concerned, and France is apparently on the eve of discovering the fact.

Mrs. Lewis and Mrs. Gibson, the two widowed sisters of Cambridge, England, who discovered the Biblical manuscript on Mount Sinai, are devout Presbyterians and have just given to the Presbyterian College, located at Bloomsbury, London, the sum of \$250,000 for the purpose of moving the institution to Cambridge.

A panic was created during the services in the Slavonian Church at Bridgeport, Conn., on Sunday, owing to the decorations on a statue near the altar taking fire. Somebody shouted "fire" in the confusion and there was a general rush for the doors by the congregation. In the stampede, however, there were no serious injuries, though a number were severely crushed and several women fainted.
