THE DAILY EXAMINER.

MAY 7, 1894.

A TEMPORARY LOAN.

It is stated by the Patriot that an additional issue of debentures will not be made. The Government intends, it appears, to raise a "temporary loan or loans." Whether this loan or loans be in addition to the temporary and unauthorized loans now due the Merchants Bank of P. E. Island and the Merchants Bank of Halifax, the Patriot sayeth not. The Premier told his hearers at Mount Stewart that, to make ends meet, he required $100,000 in addition to the ordinary revenue of the Province. He now proposes to tax for $50,000, and to raise "a temporary loan!" We must protest, once for all against such methods of making "ends meet." This is the old-fashioned way of going to ruin. Let it be pursued but a few years longer, and we shall, minus our Provincial independence, be in the arms of Nova Scotia. According to the Premier's statement of a month ago, he will be short of revenue to the extent of $50,000 at the end of the present year. Looking at his estimates of revenue submitted to the Legislature, no man of business can come to any conclusion other than that he will, at the end of 1894, be compelled to face another deficit of from $40,000 to $50,000.

It is stated that the Government is about to start a sort of savings bank and issue Provincial stock, and thus borrow the people's money at a rate of interest not higher than 4 or 4½ per cent. If the Dominion Government will but permit this last resort, and if the people will but trust the Provincial Government, the idea may not be a bad one. But if good now, when the Provincial debt to the banks is $120,000.00, was it not also good in July, 1891, when the Government's overdraft at the banks was but $53,000 and when the Government took power to issue debentures to the amount of $185,000.00? We have always held that the issue of debentures in 1891-2 was unnecessary and wrong—that a "temporary loan" might easily have been effected and measures adopted for making ends meet and, at the same time, gradually paying off the comparatively small floating debt of that time. It is pleasing to have the Government's admission, by inference, that THE EXAMINER was right upon this point.

LOGIC EXTRAORDINARY.

There are some things which it would pay Messrs. Laurier, Cartwright, Mills, Davies & Co. to let alone. One of these things is the large amount of money in the Savings Banks of Canada. Mr. Mills and Mr. Davies both told the House of Commons this year that they were sick and tired of hearing of these deposits. No doubt, since they present an effectual bar to their political advancement. How ridiculous these men make themselves is plainly demonstrated by their statement that "the large size of these deposits was evidence of ruin!" Funny fellows these! When Sir Richard was in power in 1877, he said: "These Savings Bank Deposits ($2,600,000) are especially valuable as an evidence of prosperity." And now he and his friends say "These Savings Banks Deposits ($22,600,000) are an evidence of ruin!"

Mr. Mills has been taking some pains to look into this question. Let us refer to him particularly. He says it means that there is a "total want of opportunities for good investment." Let us see of what kind the deposits are? Mr. Mills' theory is defective in this, that the bulk of the depositors in the Post Office Savings Banks is made up of farmers and artisans, representing small sums. An analysis of the deposits during the year 1892 show that 52,891 of the deposits were from $1 up to $10; 25,141 deposits were of sums from $11 to $20, and 36,457 deposits were of sums from $21 up to $50. The average deposits was $47.52, and the average to each depositor was $201.24.

This disposes of the objection of Mr. Mills. Now, taking the opinion of Sir Richard Cartwright as to the deposits being properly regarded as a sign of national prosperity, what do we find? In the year in which he made that acknowledgment in his budget speech, the number of deposits in the savings banks were 36,126, representing a total sum of $2,639,937. It had fallen from $5,095,500 in 1872, the last year of the previous Liberal-Conservative regime. In 1879, the first year in which the Conservative Government returned to power, however, the deposits recovered to the amount of $3,105,190, and from that period to the present the savings have steadily grown as follows:

Year.	Total Deposit.	Average Am't
1880	$ 3,945,669 11	$125 80
1881	6,208,226 77	156 75
1882	9,473,661 53	184 08
1883	11,976,237 31	196 13
1884	13,245,552 64	198 63
1885	15,090,540 31	205 81
1886	17,159,372 09	212 18
1887	19,497,750 15	216 26
1888	20,689,032 62	203 44
1889	23,071,422 57	203 41
1890	21,990,653 49	195 78
1891	21,738,648 09	195 44
1892	22,298,401 65	201 24

The fact is that this constant rising of the amount of the savings of the people is a nightmare to the grit party. No wonder they are sick and tired of it.

Mr. Schurman Entertained. — Mr. David Schurman, who is about leaving Summerside for Charlottetown, was entertained at the Hotel Russ, Summerside, on Friday last by the Fo e ters of that place. There was a large attendance of the brethern and others, and the viands were excellent. Mr. Schurman has been a resident of Summerside for thirty-four years, and has been a good citizen in the fullest sense of the term. The Examiner welcomes him to Charlottetowns.

THE OPPOSITION AND TAXATION.

The Opposition have several times in the course of the session been taunted because, while admitting that taxation is necessary, they have opposed all the Government measures of taxation. A sufficient answer to this taunt lies in the fact that these measures are, one and all, unscientific, unjust and insufficient. But apart from this fact, there is abundant cause for the course pursued by the Opposition in this regard. The Government deceived the people—led them to believe at the elections that no tax would be imposed until after another election. Were the Opposition to help the Government in their many tax measures, they would leave themselves open to the charge of becoming sharers and accomplices with the Government in the imposition and practiced upon the people by Government and their faithful followers. The Opposition have done well to let the grit party in the Legislature earn all the ignominy which will surely attach to the deceit and treachery which has been practised. Let not the Opposition touch the unclean thing with so much as the tips of their fingers, but let the men who gave their views to the people last autumn on the question of taxation be branded, as they deserve to be branded, as princes of deceivers. A man's word in public matters should be as frank and truthful, and held to be as sacred, as in private transactions. If any other rule or standard were permitted for our public men we would lose all faith in honest government. This Province, if it at all values its institutions and wishes to maintain its autonomy, cannot afford to permit rank deception on the part of its public men to go unpunished. Unless the people wish to see their most sacred rights trampled in the dust, and themselves relegated politically to the condition which their forefathers enjoyed before the granting of responsible government, they will rise in their might and teach the men who now mismanage their affairs that the first requisite of a public man is truth and honesty in his dealings with the public. If this flagrant deception be condoned by the people, depend upon it, some day—and that day is not very far distant—we shall, without leave or license, be sold into union with Nova Scotia, there to be burdened with the millions of debt which that high exponent of Grit doctrine, Mr. Fielding, has managed to pile up in Nova Scotia during the time he has held sway there.

SIGNS OF THE TIMES.

It is significant that Republicans are now capturing most of the civic offices in the States. A few days ago almost every city in the important and hitherto doubtful State of Indiana returned Republican officials. Even towns which have been regarded as strongholds of the Democrats have "gone Republican." The Tribune, of South Bend, declares that "Indiana is a pretty safe Republican state for next fall." The Rule of the Democratic party in the United States will probably be as short as it can be. The wave of public opinion has apparently set in favor of the Republicans and protection.

NOTES AND COMMENTS.

—Advices from St. John's indicate the conviction, disqualification and destruction of the Whiteway Party, on account of political offences on all fours with those committed by the Grit Government and Party of this Province previous to the election of the 13th of last December.

—Many thousands heard B. Fay Mills and it is hoped that his preaching will result in much good for this community. We need not say that the results will be seen in good fruits rather than in high professions. It is, of course, too soon to look for the fruit. Time will be required to bring it to maturity.

—Referring to the Income Tax to be imposed upon the wealthy men of the United States, the Review of Reviews for May says: "As the law stands, the tax will operate in anomalous ways; its curious inequalities in practice will tend to create the sentiment among its victims that it is a form of persecution and blackmail rather than of taxation, and that it is to be evaded, if possible. Whatever its theoretical merits may be, we do not think that it could, at the present time in this country be put into successful operation."

Police Court.—The Waughn brothers, Benjamin and William, came up again this forenoon at the police court, on the three separate charges of larceny, adjourned from the 2nd May. To the charges of larceny of the accordeon belonging to William Bastian; the lady's sacque, razor, &c., belonging to S. B. Enman, and also the reefer belonging to Vernon McLeod, the two prisoners pleaded "guilty" to each charge, and were sent up for trial at the next sitting of the Supreme Court. To a charge of larceny from the residence of G. Frank Beer, the prisoner Benjamin pleaded "guilty," and William "not guilty." On this charge Benjamin was sent up for trial in the Supreme Court. Stipendiary Magistrate Hazzard, in giving judgment, said that while he was empowered by the statute to dispose of the several charges of larceny summarily, yet there were certain circumstances which made it appear to him that the offences ought to be made the subject of a prosecution by indictment. They were accordingly sent up to the Supreme Court for trial.

Special Train.—A special train arrived in the city yesterday morning at 9.30 with about sixty passengers from Summerside, who came to hear Evangelist Mills. She left on return af 10.30 o'clock last night.

SOURIS NOTES.

The non-arrival of the SS. St. Olaf has caused considerable comment among the people. As a result, the merchants have run short of flour, and have not yet received their spring supplies. Many express the opinion that the Captain, who is part owner, is too cautious, and there has been some talk of sending a schooner to Pictou to bring over the goods. The people on the Magdalen Islands must be becoming very impatient, as they have received no mail since last December.

Several schooners have left this port. Two for the Magdalen Islands, one for Newfoundland and one for St. Pierre. Several vessels have called for shelter.

The fishermen have been making good catches of herring, and the lobster factories are now in full blast.

Mr. Morrow's steam saw mill is running over hours. One of the hands blew the whistle on Thursday night at 11.30, thereby creating the impression that the long-expected St. Olaf was coming in.

Four weeks more and the breakwater will be completed. The wooden facings and a number of piles are all that remains to be done. The stone is about all in. The work is first-class throughout and reflects great credit on contractor Mellish. Last fall when the 80 ft. end was carried away by a storm it was the general impression that the work would prove a failure, but all difficulties have been successfully surmounted. The post office is in the same old place. A building such as they have at Montague bridge would be much appreciated.

The bridge to Souris West is being built. A large number of men are employed.

Mr. Kickham's new schooner and also the wrecked fishing schooner he bought and is repairing, will be ready to launch in about three or four weeks.

The roads continue to be very bad in the country, owing to the snow drifts that have not yet melted.

A couple of enjoyable dances took place during the past week.

The trains have been rather late in arriving in the evenings, owing to the bad condition of the track, and also to the fact that they have to discharge considerable freight along the line. It is expected that, now that the spring is advanced, they will be able to make the scheduled time—fifteen miles an hour.

SUCCESS IN THE SUNNY SOUTH.

It is always a source of pleasure to notice the work of distinguished Islanders abroad. After a few years of enthusiastic and successful teaching in this Province, during two of which he was Principal of the New Glasgow High School, Mr. Fred. T. Norton entered the Arts' course at Kentucky University. He took his B. A. degree last year after having made one of the most brilliant records of any student who ever graduated from the university. The high appreciation in which Mr. Norton was held was clearly shown by the choice of the Faculty and students, in appointing him valedictorian. The following from the Transylvanian, the organ of the students of Kenutcky University, relating to his success in the M. A. course, will be read with interest by Mr. Norton's numerous friends in P. E. Island:—

"Much to the regret of his many frends, Mr. Norton has withdrawn from the graduating class. The first honor of the class of 1894 in the Bible College, has been awarded to Mr. L. M. Moore, of Kentucky, whose grade of scholarship is 98 per cent. It was expected that Mr. F. T. O. Norton, of P. E. I., would have graduated this year, but he has decided to postpone his graduation on account of pressure of work. He would have been entitled to the first honor if he had not withdrawn, as his grade is a fraction over 99 per cent., the highest ever attained by a student of the Bible College."

ABSOLUTELY NOTHING LIKE IT.

If any of our readers are missing "THE MAGIC CITY" Portfolios they are making a great mistake. This is the most beautiful and complete World's Fair Series published. It is just what every family ought to have. If you are not taking it we want you to call at our office or send and get a copy. We will furnish you these samples for ten cents each without coupons, and if you do not say they are the most beautiful specimens of art printing, as well as the finest reproduction of World's Fair scenery you ever saw, we will make you a present of all the rest of the series. Now here is your chance. We want everybody to get these splendid, these magnificent portfolios. Every number becomes more beautiful and more interesting as the series progress. We are actually astonished at the splendor and completeness of the work. You must see it to appreciate its many varied and marvelous beauties. You have doubtless seen other World's Fair portfolios that pleased and interested you, but the finest of them can give you no true conception of the ravishing beauty of "THE MAGIC CITY." Get the samples, as advised, and you will never regret it.

We will supply all back numbers up to No. 13 for the regular price ten cents each and no coupons, as an inducement for you to begin now.

PERSONAL.

F. H. Pichette, of Quebec, is at the Queen Hotel.

At the Hotel Davies this forenoon were registered: Mrs Mason, D Gordon, Georgetown; H J Finch, Toronto.

Mr. Geo. A. Dixon has been elected Captain of the Rovers Bicycle Club, New Glasgow, N. S.

The Rev. B. Fay Mills ended his mission here last evening, and with Mr. Fleming and Mr. Hillis left this morning for the mainland.

Mrs. J. M. McLeod accompanied by her sister who has been visiting here left by the steamer Florida yesterday morning for her home in Bridgeport, Conn., where she will spend several months.

Mr. and Mrs. James F. Maclean left this morning by the Stanley for their home in New Glasgow, N. S., Miss Minnie Hyndman going with them.

The friends in this Province of Mr. William A. Rutherford will be glad to learn that he has been re-elected to the office of Treasurer of the City of South Bend, Indiana, by a majority of 648—the largest majority given to any of the candidates in the running.

Sir Charles Russell, who is to be a life member of the House of Peers as one of the Lords of Appeal, might have presided over the Upper House but for the circumstance that he is a Roman Catholic. Great Britain has removed most of the disqualifications imposed on members of that church, but retains the absurd anomaly that a Roman Catholic cannot be Lord High Chancellor. He can, however, be Lord Chief Justice, and this position will, it is supposed, fall to Sir Charles Russell a year or two hence, when the present chief has served out the term required for a full retiring allowance.

PROVINCIAL LEGISLATURE.

Monday, May 7.

House met at 12.

Mr. H. C. Macdonald asked the Commissioner of Public Works if a petition had been received from the inhabitants of Vernon River and vicinity, asking that the road leading from Glencoe or Vernon River Road to the Georgetown Road be changed, and if so, what action the Government intend to take in the matter.

Hon. Mr. McLean said such a petition had been received and the matter would be carefully considered after the House rose.

House went into committee on matters relating to road scales, with Mr. Robertson in the chair. The report of the committee was adopted.

At one o'clock the House took recess.

THE LATE GOV. BOYD.

An Instances of His Boundless Charity Towards All Men.

The memory of the late Hon. John Boyd, ex-Senator and at the time of his lamented death Lieutenant Governor of New Brunswick, will long be cherished by thousands because of his boundless benevolence and deep sympathy with his fellowmen. One of the last kindly acts of his life, and one that his friends love to relate, gives the key to his loving and charitable nature. With some friends he was looking over a vessel lying at her wharf in St. John, when he observed that one of the crew was suffering from a severe and harrassing cough. His honor spoke to the man took his name and promised to send him down something that would relieve him. On his return home the warm hearted Governor sent a youth down to the vessel with several bottles of Hawker's balsam, which he invariably recommended to anyone suffering from cough or cold, and always kept on hand for use when needed by any member of his own household. The sailor was cured by the remedy so thoughtfully sent to him, and will ever remember with gratitude his meeting with Lieut. Gov. Boyd.

The following testimonial of the late Governor will be read with interest:

To The Hawker Medicine Co'y:

Gentlemen:—We have used Hawker's balsam of tolu and wild cherry for coughs and colds, and can recommend it for those needing remedies for these affections, having been effectual in all the cases we know of.

John Boyd.

Hawker's tolu and wild cherry balsam is manufactured by The Hawker Medicine Co., St. John, N. B., and is a perfect cure for coughs, colds, bronchitis, hoarseness, and all forms of throat and lung troubles. 25 and 50 cents a bottle.

THE NO. 4 YOST.

In presenting to the public our No. 4 Machine, we feel that we have combined all the latest and best improvements of the most successful inventors and experienced mechanics.

The Carriage of this Machine contains many practical improvements, the usefulness of which will at once be apparent. Among those specially worthy of mention are the following:—

The new and improved Release Key, whereby the carriage can be released as well when raised as when lowered, and can be positively stopped at a given point without the allowance of a single space for momentum. This instantaneous stopping will undoubtedly be much appreciated by rapid operators.

A new arrangement for making Single, Double and Triple spaces.

A new and improved Paper Feed, which is admirable both for its simplicity and the impossibility of getting out of adjustment. A line can be written clear to the bottom of the paper.

Still another feature is the new Space Key, which has a Perpendicular Drop, the same as the rest of the keys.

Besides the improvements, this Machine and ains all the good points of our No. 1 cont No. 2 Machines.

The speed of the Yost can be limited only by the ability of the operator to find and properly strike the keys. This we guarantee.

In other words, its mechanism is contrived to respond instantly to the touch of the operator by the adoption of certain expedients, by the use of which—

1st. The touch is soft and even, and the depression slight.

2nd. The carriage feeds immediately after the type leaves the paper.

3rd. The escapement is so arranged as to be perfect and uniform.

4th. There is no ribbon movement to require attention or consume power.

5th. The arrangement of the keyboard conduces to great speed.

6th. Rapidity does not affect the alignment.

The Yost is by far the cheapest Writing Machine, because it is the most economical in respect to Inking, Supplies, Repairs, Durability, Ease of Learning, Ease of Action, Size, Weight, Beauty of Work, Speed, etc.

A Mad Baron.

Munich, May 7.

Baron Max Von Kuehlen, scion of an ancient German family, but latterly acting as director to a travelling circus, was arrested at Ludwigstadt yesterday morning. The charges are of tramping upon his sister till she was almost dead; stabbing his wife and one of the hostlers employed with the circus; dashing his five children against the side of the travelling carriage, inflicting serious injuries upon all of them; wrecking carriage used by himself and family for sleeping purposes, and stabbing five ponies to death. All these offences had been committed because a horse which had been under his sister's care had died en route. The Baron fought like a tiger in resistance of the police, and stabbed two gendarmes endeavoring to to take him into custody before he was finally secured.

The Eight-hour System.

London, May 7.

English workingmen, as usual, made their eight-hour demonstration this year on the first Sunday after May Day. All the meetings passed resolutions in favor of eight heurs labor per day. It was also resolved that workingmen could free themselves economically and socially only after getting control of the political machinery now in the hands of the capitalist class.
