First Aid For Ailing Houses

RUBBING ALCOHOL ON TILE
QUESTION: How could I get rubbing alcohol stains out of asphalt tile? I've tried scouring powder and ammonia, but they don't do any good.
ANSWER: The alcohol probably deteriorated the surface of the asphalt tile. Rinse the affected area thoroughly with clear water, to remove all trace of cleaning materials, then wipe dry. Apply several coats of self-polishing wax, being sure each is completely dry before putting on next.

WATER HAMMER IN PIPES
QUESTION: Could you repeat the item you had on what to do for water hammer in pipes? I lost it. Every time we shut a faucet there is a thumping noise.
ANSWER: Water flowing in a pipe possesses momentum (the desire to continue in motion). When the flow is stopped by closing the faucet, the momentum must be taken up. Spe-

cial water hammer absorbing units or air chambers are available at plumbing supplies houses. Have your plumber install this.
Or have him attach a vertical length of pipe, about three feet long and capped at one end, so that it extends above the highest point in the pipe line in the house. Thus whenever the moving column of water is brought to a stop, it will go beyond the last facet and into the dead end extension. This will compress the air in the pipe extension and bring the water to a gentle, silent stop — the same way air brakes work.
If not corrected, the vibration of pipes caused by water hammer subjects the system to extra wear and tear, often resulting in leaks in piping or tanks.

FINISHING FLOORING
QUESTION: When we purchased this house about 10 years ago, the attic floor we put down so we could use that area for

more convenient storage, was no. 2 pine flooring. We left this "As was". I plan to use part of the attic as a sewing room, and for an occasional guest. How can the floor be finished, and made more attractive-looking?
ANSWER: Usually no. 2 flooring has large knots and surface imperfections. Any cracks between boards can be filled with plastic wood or crack filler, available at paint, hardware and variety stores; or use a mixture of sawdust and varnish to fill the cracks. Before filling the cracks vacuum all dust out. Have the floor sanded smooth and level, then wipe up all dust. Because of imperfections in the wood appearance, I recommend two or three thin coats of Top quality floor paint or floor

City Churches Plan Christmas Services

By MAUREEN DRISCOLL
Christmas has gone commercial. There's no spirit left in Christmas. Christ has gone out of Christmas. Sound familiar? They should. These are the cries of a few weebegone who begin their lament when the first Christmas carol is played or the first Christmas light appears.
But above the groans and moans angelic voices can be heard in "Silent Night" and the story of Christmas is told once more to remind the world that Christ is Christmas.
