## Impaired Driver Fined \$200 And Has Licence Cancelled

On an impaired driving conviction, a Windsor, N.S. man was fined \$200 and costs or 30 days by Magistrate K. M. Martin in the City Police Court yesterday.

In addition, the magistrate recommended that the accused's driving license be cancelled for one year anywhere in Canada.

The Nova Scotia man formerly of Toronto had originally been charged with drunken driving following an incident Friday when the car he was driving was in a rear-end collision with another vehicle driven by a Charlottetown man. He pleaded guilty to

the lesser charge of driving while impaired.

A Greenfield man who pleaded guilty to driving while intoxicated was sentenced to seven days.

Drunk and incapable comprised the remainder of the docket. A Charlottetown man was sentenced to twenty days and a Campbell Cove man drew the same term on an old commitment. Three Charlottetown men and Dundas Centre man drew fines ranging from \$50 and costs or 10 days to five dollars and costs or two days. The seventh drunk was sent to Riverside Hospital.

## New Conference President Has Busy Year In Prospect

The busiest United Church minister in the Maritimes this year will be the Rev. A. Frank MacLean, conference president.

For the past seven years Mr. MacLean has served as pastor of Trinity congregation, Charlottetown, largest United Church in the Atlantic provinces. In Sackville last week, he took on an added responsibility when he was elected president of the Maritime Conference for the year 1959-60. He succeeds the Rev. Dr. J. D. MacLeod of Scotsburn, N.S.

The duties of a president are arduous and extensive. He must preside over the plenary sessions of the Maritime Conference annual meeting. He must chair meetings of the conference executive called for the transaction of interim business. He must coordinate the work of the many committees of conference.

It is his task to represent the conference, or the United Church of Canada in the Maritime Provinces, on such public occasions as require such representation. He must see that conference is represented at the funerals of ministers of the conference. Further, he is responsible for carry-

ing out any special duties as may be assigned by General Council or the conference.

Though not specific responsibilities, there are a number of unofficial functions which traditionally have fallen upon the shoulders of the conference president. They include visiting throughout the conference, preaching at anniversaries and church dedications, laying of cornerstones, officiating at ordaining ceremonies and many other functions.

One of three brothers who entered the ministry from Hopeville, N.S., Frank MacLean received his Arts degree from Dalhousie, and graduated from Pine Hill in 1930. He served subsequently at Andover, Edmundston, Fredericton, and Sydney before coming to Charlottetown in 1952. Two of his sons, Ian and Sandy, are candidates for the ministry. Mrs. MacLean is the former Margaret Fraser, also of Hopeville.

The president has a busy year in store for him. Countless miles will have been travelled and thousands of words preached on behalf of the Church before he delivers his presidential sermon to the 1960 conference.

## Soft Approach To Combines Is Denied By Justice Minister

MONTREAL (CP) — The federal government has no intention of adopting a "soft" approach to combines, mergers and monopolies, Justice Minister Fulton said Monday night.

In amendments to anti-combines law which the government has proposed to Parliament, he said, "We have attempted to strengthen and clarify the rules by which the interest of the public in the maintenance of the competitive system will be ensured."

He spoke at a joint banquet of the Montreal Better Business Bureau and the Montreal Advertising and Sales Executive Club.

The government, he said, believes "that a free enterprise system, depending on individual incentive spurred by competition, is the system that will yield the highest possible material standards of living and the greatest possible degree of political, economic and social freedom for the individual."

Dealing with an amendment that would forbid misleading advertising, Mr. Fulton said it is to combat the practice of a manufacturer or dealer presenting the public with a fictitious and unwarranted "regular" price "in order to make it appear that the price at which he is actually offering the product for sale is more favorable."

As an example, he said an advertiser might represent his product as selling as \$25, compared to the "regular" price of \$45.

But in fact "the regular" selling price—if indeed any "regular" selling price can be established—is much lower than the \$45 named and may even be lower than the \$25 at which the article is being advertised for sale."

Mr. Fulton said he has studied United States government regula-

tions over advertising practices and that they exercise very systematic and far-reaching influence in this field.

## SEEING CANADA ON \$50

Two young men from Montreal have set themselves the project of seeing every province of Canada on an initial capital of \$50 each and a 1936 Nash. Char-

lottetown's Mayor Edwin Johnson is shown flanked by Gerard Lemieux, 22, and Hubert Rosaire Goulet, 35. The pair call their car the "Ramblin", an Indian word

meaning mechanical difficulty, but in their first 1,500 miles it has given no trouble. After they have earned some money they plan to go on to Nova Scotia, Newfoundland, and then return to Montreal before going on to the other provinces.

## Reports On "Adventure In Citizenship" To Rotary

Colin MacMillan, who represented the Charlottetown Rotary Club at the "Adventure in Citizenship" week held recently in Ottawa, was guest speaker at the weekly luncheon meeting of the club held at the Charlottetown Hotel yesterday.

Introduced by chairman John Evans, the speaker gave a most impressive review of his experience and impressions gained during his memorable visit.

Mr. MacMillan was particularly impressed with the development of Ottawa towards that goal described by the late Prime Minister W. L. MacKenzie King—"I believe that with Ottawa's natural picturesque setting, given stately proportions and careful planning, we can have the most beautiful capital in the world." More than 200 students, chosen by various Rotary Clubs across Canada participated in the activities provided by the Rotary Club of Ottawa and approved by the various organizations and individuals concerned.

COAST TO COAST

"I was proud indeed, and realized as never before, what it is to be a Canadian, when each of us in turn was presented with citizenship papers by Prime Minister Diefenbaker, who appeared to have a thorough knowledge of localities from coast to coast. This was evident as he spoke briefly to each student about his own town or city on being introduced," Mr. MacMillan said. Hon. L. B. Pearson speaking with deep sincerity urged us to become worthy of the citizenship acquired by accepting the responsibilities that go with it.

Mr. MacMillan was particularly impressed with the informal way in which the students were received at Government House by Governor General Massey and the privilege of viewing the magnificent collection of paintings there, as well as other historic and rare items.

At a banquet at which each student sat with a member of parliament from his own constituency was one of the highlights of the many entertaining features. Mr. MacMillan sat with Mr. Heath MacQuarrie who introduced him to many other House members. Visits enjoyed included the Supreme Court while in session, buffet luncheons, dances, parliament buildings and witnessing a brilliant musical performance by the R.C.M.P.

Mr. MacMillan was thanked for his fine talk by co-chairman Arnold Calbeck.

Colin MacMillan is a Grade 12 student at St. Dunstan's University, was born in Charlottetown, the son of Dr. J. A. MacMillan and Mrs. MacMillan. He was class president last year and in addition to his scholastic attainments showed up well in athletics, including basketball, hockey and football.

## Mrs. J. Clinton Dies In City

The death occurred in the Charlottetown Hospital on Sunday, June 14th., of Mrs. James Clinton of 7 Bishop Street, Charlottetown, after a month's illness. Mrs. Clinton was in her 80th year.

A fine christian character, she gave unstintingly of her time and talents in every worthy cause, especially her kindness to the young will be cherished by many.

Mrs. Clinton was the daughter of Mr. and Mrs. James MacKearney of Sturgeon, P.E.I. She leaves to mourn one son, Artemus Clinton of Charlottetown and four daughters, Mrs. P. G. Hillier, Ottawa; Mrs. Agnes Ruthbar, Saint John, N.B.; Mrs. W. L. MacManus, Charlottetown and Hilda at home.

Two sisters also survive. They are: Mrs. Matthias Condon, Sturgeon; and Mrs. Frank MacCarron Montague. Her husband predeceased her in 1943 and a son Alfred in 1957.

The funeral will take place from the Hennessey Funeral Home on Wednesday morning to St. Dunstan's Basilica. Interment will be in the Roman Catholic Cemetery.

SCOUTER

Mrs. Malcolm (Dorothy) MacDonald, cubmaster of the 1st Charlottetown Pack and member of the Provincial training team, leaves Thursday to take the Canadian Scouters Training Course to be held at Camp Blue Springs, Ont. The course is sponsored by the Canadian General Council, Boy Scouts Association. Mrs. MacDonald was elected president of the Charlottetown Scouters Club last week. She took her Gilwell training at Millers Lake, N.S. in 1955 and since has assisted on many introductory and preliminary courses. Last year she lectured at Gilwell in Nova Scotia.

## Ship Delayed By Breakdown

The arrival of the M.V. Brian in Charlottetown has been delayed due to engine trouble, Trade Director William Partridge stated yesterday.

The ship was scheduled to call here last Wednesday and shipping officials are awaiting some word regarding her next sailing.

With the response of local shippers now "picking up" Mr. Partridge notes that there is every indication that a good trade with North Shore points will be developed by mid-summer or early fall.

It is expected that the ships' next call will have cargo for at least three firms in the city.

## RADIOACTIVE WATER

BONN, West Germany (Reuters)—Special research is being made on how to remove radioactive contamination from the rainwater drunk by hundreds of thousands of West Germans.

## Southport Man Suffers Injury

Harold MacKie of Southport was reported yesterday by officials of the Prince Edward Island Hospital to be making a satisfactory recovery following an eye injury last week.

Mr. MacKie, who is a machine operator with County Construction Limited, was struck by a piece of steel while working in the company's shop.

Doctors also report that there will be no ill effects from the accident.

## New Union Agreement Will Add Employees

ST. JOHN'S, Nfld. — Canadian National Railways, disclosing today settlement terms between its Newfoundland Coastal Steamship Services and the Brotherhood of Railway Transport and General Workers, said it intends to hire an estimated 180 to 200 more employees as an aftermath of the agreement.

Introduction of working conditions based on a 40-hour week, one of several benefits provided in the new three-year pact with the union, necessitates the increase in the working force.

Four hundred employees represented by the CBRT have been manning 13 of the CNR's Newfoundland and Labrador ports, as well as North Sydney and Halifax.

Conditions in the settlement were made public by W.T. Wilson of Montreal, vice-president of personnel for the CNR System. In addition to the 40-hour week they include an aggregate

nine per cent wage increase in three stages. Four per cent is retroactive to May 1, 1959, two and a half per cent becomes effective May 1, 1960, and the remaining two and a half per cent May 1, 1961.

Other employee benefits cover statutory holidays for personnel ashore and at sea, or compensation for them, plus health and welfare provisions.

One of the vessels in the coastal fleet is the big ferry William Carson, which sails between Port Aux Basques, Nfld., and North Sydney.

Clauses in the new settlement were forged during six weeks of friendly give-and-take conferences between representatives of the CNR and the union.

Mr. Wilson, commenting on the discussions, said they were "A perfect example of true collective bargaining being carried out in an amicable manner, and resulting in a mutually satisfactory settlement in the best tradition of labor management relations."

## P.E.I. Witnesses Send Petition

The Charlottetown Congregation of Jehovah's Witnesses learned Saturday night, June 13, that Jehovah's Witnesses in Argentina have been denied their constitutional rights of free assembly and worship. A vote of protest was taken and plans discussed to petition the Argentine Republic to correct the restrictions.

Victor Sorenson, the local congregation's presiding minister, said that in spite of many liberal advances made by the present Argentine government that ousted the dictatorial Peron regime, a few religious groups that were declared illegal by Peron have yet to be recognized by Argentine's constitutional president, Arturo Frondizi.

According to Mr. Sorenson, two different applications for recognition were denied by the "Ministry of Worship", a department of the government formed by Peron to control the registry of all non-Roman Catholic religions in the country. Furthermore, two futile appeals have been made to the present government to rescind the order denying Jehovah's Witnesses the right to register. The latest appeal was made following a new decree signed by Frondizi on February 6, 1959, giving religions full right to worship God as guaranteed by Article 14 of the Argentine Constitution.

Mr. Sorenson said the more

## Police Check On Pinballs

Two Charlottetown snack bar operators had their case adjourned for one week when they appeared before Magistrate K. M. Martin in Police Court Saturday on charges of contributing to juvenile delinquency.

A group of juveniles were brought into court to testify and two of them stated that they had received payoffs in cash after they had won a number of free games on the pinball machines.

Allison Gillis represented the defendants and a week's adjournment was granted.

A drunk and disorderly was remanded until Wednesday and a drunk and incapable was sentenced to 20 days. A speeder was fined \$50 and costs and an unlicensed driver was fined \$10 and costs. A wooden fence damage case was adjourned for one week.

More than 6,000 Jehovah's Witnesses in Argentina began circulation of a petition addressed to the president of the Argentine Republic requesting recognition under the new, liberal provisions of his government. The neighboring countries of Bolivia, Chile, Paraguay and Uruguay are circulating similar petitions to acquiesce the people of those countries, as well as Frondizi, with the condition that exists in Argentina.

## Time Change Is Accepted

Charlottetown citizens apparently accepted the change in city hall hours yesterday as civic employees went on an hour earlier basis of operation.

City Clerk John Butler said yesterday the telephones were ringing at City Hall shortly after 8 o'clock yesterday as civic employees moved into "fast" time for the summer months. He added there were several more business calls before 9 a.m. when this day would normally start.

In Summerside town employees, also are getting the benefit of longer daylight hours as the town switched over yesterday to summer time. That the women of Summerside approve of the change is indicated by the fact that the beauty parlors in the Prince County capital also have taken to the new time.

The stores, however, are generally sticking to standard time both in Summerside and Charlottetown, although most employees questioned have said they would prefer to be starting and finishing their day an hour earlier.

Rogers Hardware Ltd. in Charlottetown has been on fast time for some weeks past and has been making the change annually for the past three years. According to Thomas Rogers they have been doing it because "we think they are sensible hours and good hours and the co-operation we received from our customers has been excellent."

Chandler Bros., another city firm which changed time recently finds that it works well, "the customers co-operate and the employees are happy".

In Souris the town council feels the town should be on daylight time and councillors are asking opinions today of the two fish packing plants as leaders in a movement to summer hours. The belief has been expressed that if the packing plants change other business houses will follow suit.

It was said that both the council and the people want to be on the same time as Charlottetown as a matter of convenience to them.

In Montague the town council is meeting tonight when the matter will be considered. Alberton has no plans regarding the change.

## Court Issues Judgements Against Tax Delinquents

Judge C. St. Clair Trainor issued judgement against the property owned by nine Central Railway residents who are delinquent in the payment of school taxes in Queens County Court yesterday.

The school trustees were represented by Wilbert C. MacInnis, secretary of the board.

In the case of Louis MacEachern, seeking payment for goods sold and delivered to William C. MacInnis, judgement was handed down in favor of the plaintiff and he was awarded \$180 and costs.

Another case seeking payment for goods sold and delivered, involving the B.A. Oil Company vs. W.S. McMurtry and another, was set to be heard July 19th at 10:30 a.m. A similar case between John M. MacLean vs. Norman Gillis, in which the former is seeking payment for a quantity of lumber, was set over to a date to be fixed.

July 28th was the date set for the hearing of the case between the City of Charlottetown and Frederick Whalen, in which the city is suing for the payment of back taxes.

Of seven cases involving garnishees, clerk of the court Albert Dinnis informed His Honor that two had been settled out of court. In the remaining five three were set over until June 22nd, one to July 28th and the other to a date to be fixed.

ed down in favor of the plaintiff and he was awarded \$180 and costs.

## Major General To Visit Island

Major General Hayaud-Bin, military adviser to the High Commissioner of Pakistan in Washington, D.C. will arrive in Charlottetown this evening.

He will visit 2 Militia Group commanded by Colonel A. W. Rogers, E.D., C.D.

Major General Hayaud-Bin is enroute to H.M.C.S. Shearwater, Halifax. He expressed a desire to visit Prince Edward Island and through the military, plans are being made to extend hospitality on his short stay.

He will arrive by M.C.A. plane.
