Priestley's "Eudora" Cloth "Eudora" is the name of the new black dress fabric put upon the market by the Priestley's, whose famous dress goods are a household word all over the world. It is like their much esteemed Heurista cloth; indeed, it has all their merits, and a few things which they lack. It is made in black only, it is a perfect dust discluder; has extra weight and width; and, fitting easily and draped gracefully it gives a distinction to the wearer which all of Priestley's goods confer. This is their excellence, which sets them apart from all other goods. "Eudora" is stamped on "The Varanished Board," and Priestley's name is stamped on every five yards so that ladies cannot be deceived.

SCIENCE IN FARMING. ADDRESS TO THE STUDENTS OF THE ONTARIO AGRICULTURAL COLLEGE. Hon. John Dryden Points Out the Advantage of a Practical Education in Agriculture—There should be no Difference Between the Scientific and Practical Farmer.

Following is an extract from the speech delivered by Hon. John Dryden to the students of the Ontario Agricultural College at the recent closing exercises: In your studies here you have been gathering together facts and truths which have been stored in your mind for a purpose. But why gather these facts together? It is in order that you may have certain principles upon which to act, and from which you will draw your conclusions. In order that these principles and conclusions may be carried into practice.

Now, I have seen farmers, and you will meet with them also, who with an excellent scientific education, have reached similar results in another way, but it has taken them longer. You have studied two or three years; they have studied twenty or thirty years. They have reached their conclusions, first, by experience. This is a hard school, much harder than yours has been, hard as it is until I used twelve bottles and today I can honestly say Hood's Sarsaparilla has restored me to my former health." JACOB WILCOX, St. Thomas, Ontario.

Hood's Sarsaparilla Is the Only True Blood Purifier. Prominently in the public eye today. It cures when all other preparations fail. Hood's Pills the after-dinner pill and family cathartic, 50c.

PROTECTION from the grip, pneumonia, diphtheria, fever and epidemics is given by Hood's Sarsaparilla. It makes PURE BLOOD. The danger of lighting a great city exclusively by electricity and of entirely dispensing with gas was unpleasantly demonstrated the other night at Rome, when, after a tremendous thunder-clap, every electric light in the city was extinguished, leaving every street plunged in darkness. White vests and summer coats and vests very cheap at Joyce Bros.

Kingston, July 13.—Archbishop Cleary has issued a circular to the clergy of Kingston diocese, asking assistance to the Irish parliamentary party in this grave and most critical day of fortune. One paragraph reads: "Mr. Blake's cry to us for help to bring the elections to a successful issue by supplying the means of contesting a large number of doubtful constituencies and crushing out of political existence the nine traitors who have been devouring the vitals of the nation, is notoriously just and true; and it commends itself to the Irish race all the more because of his remarkable fidelity to the national cause and the brave sacrifices he has made and is still making for the benefit of Ireland. His recent contribution of \$5,000 to the election fund is an act of noble generosity, indicative of the ardor of his patriotism, which entitles him to our ready compliance with his appeal for assistance."

Seize the Opportunity At Once. When the opportunity occurs to escape from death only that we would refuse to do it. But there are many consumptive people lying on their death beds who can escape the threatened doom if they will take Miller's Emulsion of Cod Liver Oil. Some are not aware of such a preparation, and if they die it will be the result of ignorance. Those who know that Miller's Emulsion makes new blood and enables the consumptive to get strength to overcome the disease are self-destroyers if they neglect to obtain the life-giving remedy. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula, and all Lung affections. In Big Bottles 50c and \$1 at all Drug Stores.

ADVANCE IN HAY.—The price of hay has advanced in Sackville to \$8 per ton. Some farmers are even holding for a higher figure. The sudden rise is said to be due to the poor prospect for this year's crop.—St. John Sun.

Petroleum as Fuel. Engineering science will doubtless be benefited by the experiments so successfully made with petroleum on the Reading Railroad by the Baldwin Locomotive Works, using one of their Vulcan compound engines, having an unusually long, narrow fire box, as that was believed to present the most unfavorable conditions for burning oil. Three sets of tests were made, the locomotive being changed somewhat for each set, so as to concentrate the arrangement of the fire box; the total weight of the engine was 133,300 pounds and the weight on the drivers 85,650 pounds. The fire box was 129 inches long, 34 inches wide and 56 inches deep at the front, sloping down to 73 inches at the rear, where the tubes began. In what proved to be the most effective arrangement in this series of trials, the burner was placed below the fire door, just above the mud ring, and adjusted so as to spray the oil up into the fire box, the brick arch being also lowered in order to secure more space between the crown sheet and its top. Now, a preliminary trial of about six miles having demonstrated the exceptional advantages possessed by such an arrangement, a run was made with a train of 37 cars, weighing some 661 tons. On this run the quantity of water evaporated and at 212 degrees per pound of oil, as recorded, was twelve and a half pounds—and there was not only a complete absence of smoke, but none of the trouble due to shoveling coal and tending fires.

Take Care of Your Teeth. All delay of the teeth begins from without. Consequently, if the teeth's surfaces be kept scrupulously clean they cannot decay. When ought cleaning to begin? As soon as there are teeth. Let the child early acquire the habit of using a small tooth brush dipped into chalk flavored with some aromatic drug, and let it understand that the places most needing the brush are those between the teeth. This is the place where decay almost invariably appears. Mucous secretions and secretions of food are always found between the teeth after a meal, and which, if not removed with a toothpick. It is almost an art to use a toothpick. One must beware of injuring the fleshy parts, and leaving splinters, which in some cases may cause the loss of a tooth. Metal toothpicks should be altogether avoided. Those of dull and hard wood are best.—London Lancet.

A Record Breaker. A family of ten sturdy children, all under 3 1/2 years of age, is attracting a good deal of attention in Wauscha, Fla. The mother of the children, Mrs. William Webb, first bore twin triplets, and on April 4 last she gave birth to quintuplets, four girls and one boy, all of whom are said to be thriving remarkably well. It is proposed to introduce a bill into the Florida Legislature for the relief of the parents of this large and little family, as they are very poor. The local newspaper which vouches for this story, thinks Mrs. Webb's is a world's record.

Will Know More Than His Father. "Bogob," said a young fellow, "My Pat of ours' soon be knowin' more than his father does." "O'ra! never mind that," replied Dolan, "if he go ahead an' know it for sure, he'd be at only thinkin' he does."—Washington Star.

Painless Dentistry! TESTIMONIALS. The seventeen (17) teeth you extracted for me on Thursday, May 30th, at Doctor Robertson's, Charlottetown, gave me less pain than I have suffered many times in having 8 or 10 teeth pulled. I can conscientiously say you are the only one who truly extracted a tooth for me WITHOUT PAIN. Ever yours, MRS. JAS. DEVEREAUX, Kelly's Cross, May 31, 1895.
