**MARRIAGES**  
**MOSER-MACKINNON** The marriage took place on January 2nd, 1959, of Louise Eileen Mac-

## Charlottetown Rotarians Enjoy "Quiz" Diversion

A quiz program created a diversion from the usual guest speaker routine of Rotary at the weekly luncheon meeting at the Charlottetown Hotel yesterday. Brian O'Meara presided and Ken Parker co-chairman.

The program was arranged by Bob Parent and dealt with the International publication of the organization, The Rotarian. The messages and the Rotarian paired to answer, was called by Bob Carruthers and 50 seconds to respond. A souvenir pocket piece was presented to each of the 15 successful contestants.

Answers given during the "quiz" indicated continuous growth of the organization with 400 new clubs organized in 51 countries and four regions last year.

Today Rotary is a world-wide service organization of more than 470,000 business and professional executives who are members of 10,040 Rotary Clubs in 111 countries on six continents.

## Business Women Observe International Night Here

The Charlottetown Business and Professional Women's Club met at the Charlottetown Hotel Feb. 16. The President, Miss Ephigene Arsenault, was in the chair.

The theme for the February meeting being "International Night" the tables were decorated with flags of many countries and the meeting opened with a message from Miss Margaret Hyndman, President of the Professional Federation of Business and Professional Women's Club.

Miss Hyndman stressed the growing interdependence of different nations of the world and urged B. and P.W. Clubs to study such topics as Trade and Economic conditions, Language, the U.N. Declaration of Human Rights.

The club decided to renew its contribution to the Unitarian Services Committee for the adoption of a schoolgirl in India, and to arrange a public meeting when Dr. Lotia Hitchmanova comes to Charlottetown again in September.

The chairman of the February program committee, Mrs. Christine Agnew introduced Club members who took their audience on a talking tour in Canada and overseas. Miss Bessie Beer told of her enjoyment of the Atlantic crossing on the S.S. Carinthia.

Mrs. Rita Bell gave impressions of travel in Scotland and England. Miss Madelyn Clark told of an Easter visit to Barcelona which included a bullfight gypsy dancers and a stay on a Mediterranean beach.

Mrs. Christine Pickard recounted some amusing incidents of her trip to Switzerland. Miss Gertrude Love spoke of beautiful scenes she visited in Ontario about the Muskoka Lakes and the Thousand Islands.

She expressed the feelings of all the travellers as she concluded, "It is thrilling to travel but it is even more wonderful to come back to one's own country."

Colored pictures of England and western Europe were shown by Miss Clark and Miss Beer. Miss Ethel Taylor thanked the speakers for a very enjoyable program.

The program committee consisted of Mrs. Christine Agnew, Mrs. Mary Fullerton, Misses Ethel Taylor, Agnes MacQuaid, Bessie Beer, Lillian Dewar and Madelyn Clark.

**Montreal Shipping Outlook Uncertain As Seaway Opens**  
By MARVEN MOSS  
Canadian Press Staff Writer  
MONTREAL (CP)—Montreal's shipping prospects for 1959 are uncertain.

At the root is that multi-million dollar engineering marvel, the St. Lawrence Seaway. Lake and ocean shippers, fearful of undercutting, have adopted a "you go first" stand on establishing rates up to this point, shrouding further what was already shaping up as a dim picture.

"Nobody dares to move," said one shipping official who asked that his name be withheld. **AFTER YOU, ALPHONSE**  
"The ocean shippers are waiting for the lake shippers to set their rates. And the lake shippers are waiting for the ocean shippers to do the same thing."

## Premier Will

(Continued from page 1)  
existence are 120 per cent above what they were in 1948 and if the proposed 20 per cent increase is allowed the rates will be 206 per cent above the 1948 rate.

Quoting from the Financial Post of November, 1958, the Premier read:  
"Canada has played a fool's game with our railroads long enough. Referring to the six annual increases since 1948 totalling 120 per cent, the article stated that these increases do not apply to all freight—only that carried at so-called "normal rates" which now move 42 per cent of freight traffic.

"The rates that move 58 per cent of Canadian freight traffic have been raised either not at all in the last ten years, or relatively little."  
The article went on to say: "The basic unfairness of this situation is pointed up by this fact: The 42 per cent traffic moving at 'normal' rates will be required to pay 73 per cent of additional revenue which the railroads need to get out of their jam with the unions."

"The worst offenders," says the article, "are the statutory grain rates, still at levels fixed 61 years ago by the Crownstap pass agreement. A third of all Canada's freight traffic moves at these rates."

"Our whole structure needs another careful examination of a sort which is probably beyond the immediate resources of the cabinet. Appointing another Royal Commission to take up where the Bugeon Commission left off may be the only answer. But to leave the present situation would be political cowardice."

**QUEEN'S VISIT**  
The Premier said the Island was to be signally honoured by a visit from Her Majesty and Prince Philip. He hoped the Queen's visit would be somewhat different from that which was made as Princess Elizabeth in 1951.

He would like to have her see her people as they actually live and work and in this connection would favor visits to farms and fishing centres as well as to some of the island's tourist spots.

He said every effort will be made for the Royal party to visit the young people of the province especially the Boy Scouts, Girl Guides and Brownies. He was disappointed that Princess Margaret was not able to visit the Island on her last trip but he has the assurance that Her Highness will include the Island in her next itinerary.

The Premier realized the strain on the Royal visitor in covering such a large country as Canada but was surprised when she spent a day on a Saskatchewan farm in preference to a visit here.

He also spoke of preparations for the 100th observance in connection with the discussion of Confederation held in Charlottetown in 1954. He said a resolution will be submitted on this matter and considerably publicity would be given it between now and 1964.

**APEC ACTIVITIES**  
The Premier spoke appreciatively of the united efforts of the Atlantic Provinces as evidenced in the APEC movement. He was pleased to see that the presidency of APEC was now held by an Islander, Dr. Frank MacKinnon. "I believe he can do an excellent job," the Premier said.

Mr. Matheson made reference to the food show held under APEC at Moncton. He was pleased to see the Island well represented. "It means a great deal to have local products exhibited where the big buyers can see them," he added.

**MUCH IN COMMON**  
The Premier felt that the three Maritimes in particular had very much in common and he was pleased with the friendly relations that have been shown in the meetings of these provinces. Newfoundland, he felt did not have so much in common with the other three provinces. "For example when we talk of northern lands, Newfoundland doesn't enter into the picture," he said.

**FALSE TEETH**  
That Loosen Need Not Embarrass  
Many wearers of false teeth have suffered real embarrassment because their loose dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

**READY FOR MOSCOW**  
LONDON (AP)—The Kremlin will get a whiff of British mothballs next week. A spokesman for a London clothes renting company outfitting Prime Minister Macmillan's party for its trip to Moscow said: "We haven't had such a rush on fur clothes since the war."

## Village, Town Co-operate To Get Fluoridation

Since July 1, 1958, the communal water supplies of the Town of Rock Island and the Village of Stanstead in the province of Quebec have been fluoridated. The population of Rock Island is about 2,500 and Stanstead about 1,000. Both communities are serviced by the same company, the International Water Company, Derby Line, Vermont.

This is an instance of international cooperation, the January 1959 issue of the Canadian Dental Journal states. The International Water Company is a private company and the great bulk of its shares are owned by the three municipal councils, namely Rock Island, Stanstead, and Derby Line, Vermont.

Readings are taken every day by the manager, and the state engineer inspects and takes readings at least twice a month. It has taken time to accomplish all this, the Journal notes, and it is hoped that better dental health will be the reward.

## Well Known Que. Ayrshire Breeder Dies

The death of Jack Black, prominent Ayrshire breeder and importer of high grade cattle of La Chute, Quebec was received last evening by Major MacRae of Central Royalty.

Mr. Black was well known both at Amherst and Charlottetown where on many occasions he presided as cattle judge. He was a consistent attendant at the Royal Winter Fair and since 1922 has failed to show on only two occasions.

The veteran Ayrshire breeder was an honorary life member of the Canadian Ayrshire Breeders' Association whose annual meeting is being held at Montreal this week.

Keith Boswell, Maritime director, along with Andrew and Arthur MacRae will attend the Montreal meeting.

## Unemployment Figures For Jan. Released

OTTAWA (CP)—Unemployment in Canada at mid-January climbed to 338,000—a post-war high for the month—as 8.9 per cent of the labor force were without jobs and seeking work.

A government statement Monday announcing that figure found some encouraging in comparing the situation with trends of past years.

But President Claude Jodoin of the Canadian Labor Congress said "despite all the qualifications and explanations, the fact remains that this is the highest unemployment figure for January since the end of the Second World War."

Again it was noted that Newfoundland has many undeveloped resources such as minerals and hydro power which the other provinces do not have.

Premier Matheson made reference to the removal of the Legislative library from the building and felt the time had now come to move the library back to its original location.

He said there were priceless records in the library that could be of tremendous value to the members of the Legislature. He asked the library committee to look into the matter and if possible to bring in a resolution to that effect during the present session.

# P.E.I. Wins 2nd Round In Curling

Ontario defeated New Brunswick 14-8 and Manitoba defeated Newfoundland 10-6.

CALGARY — Prince Edward Island defeated Quebec 11-9 Monday night in the second round of the schoolboy curling championships being played here.

By ends the results were:  
P.E.I. 102-020-120-3-11  
Quebec 030-302-001-3-9  
Two other matches were completed at press time. Northern

## Hair Stylists To Visit Here On Thursday

The Prince Edward Island Hairdressers Association, in cooperation with Jack Ramsay of Toronto, will present "Bruno", Canada's leading hair stylist in private sessions with the P.E.I. hairdressers on Thursday, February 19 at the Charlottetown Hotel.

Accompanying Bruno will be Betty Ramsay, one of Canada's outstanding hair colouring consultants and Jack Ramsay permanent waving technician. Hairdressers from all parts of the province will attend these sessions.

## 27 Are Held In Drug Raid

NEW YORK (AP)—Federal and city narcotics agents held 27 persons in custody Monday after a series of weekend raids that uncovered what the officers said was the second largest amount of heroin ever seized in the United States—more than 32 pounds of it.

The value of the pure heroin, after being cut and sold to addicts and pushers, was estimated at \$3,660,800 by Inspector Edward Carey of the police narcotics bureau.

Authorities started the lightning raids in the New York area at 8:30 Saturday night and continued until 5 a.m. Sunday. Those arrested were described by George Gaffney, regional head of the federal bureau of narcotics here, as higher-ups in the ring importing heroin from Europe.

"These are not small fry," he said, "but importers, wholesalers and distributors."  
Authorities said investigators had been working on the current case for more than two years before the net was spread Saturday night.

## Castro Becomes Cuban Premier

HAVANA (AP)—Fidel Castro stepped up to the premiership of Cuba Monday night with a vow that he would carry out his revolutionary reforms as prime minister without presidential ambitions.

"I have no aspirations to the presidency," the barded 32-year-old rebel chief said.

Again it was noted that Newfoundland has many undeveloped resources such as minerals and hydro power which the other provinces do not have.

Premier Matheson made reference to the removal of the Legislative library from the building and felt the time had now come to move the library back to its original location.

He said there were priceless records in the library that could be of tremendous value to the members of the Legislature. He asked the library committee to look into the matter and if possible to bring in a resolution to that effect during the present session.
