END OF THE WORLD.—The most extraordinary prediction in regard to the end of the world that has been made in recent years comes from Professor Falb, the eminent Austrian meteorologist. According to him a comet will strike the earth on November 13, 1899, and universal chaos and dissolution will be the inevitable result. To this bold statement equally eminent scientists reply that the chance of the earth being destroyed by a comet is only about one in fifteen millions. They admit that the night of November 13, 1899, will be remarkable, for the reason that the heavens will then be ablaze with a magnificent shower of stars, but they point out that a similar display of celestial fireworks regularly occurs every 33 years, and there is no reason for supposing that the spectacle in 1899 will be more glorious or more ominous than it was in 1833 or 1866.

BIG POTATOES.—There is an exhibition at the Marshfield store by Geo. Burnett, Esq., a sample of potatoes grown on his farm, one of which weighs over 2 lbs. Making allowance for Mr. Burnett being an up-to-date scientific farmer, it surely is a happy criterion of the potato crop. Mr. Burnett in former years was a noted exhibitor and prize winner at our Local Exhibitions. But alas! Local Exhibitions seem to be a thing of the past.

To the readers of this valuable paper, the Boston Optical Co., wishes to say that for a short time all examinations of the all important organs of sight, "the eye" will be made free and glasses ground to correct all visual defects at prices within reach of the poor as well as the more fortunate. The eye-ball should be measured and after the measurements are taken, the proper glasses should be ground, and one who is not thoroughly qualified to do the work, will do you more harm than good. Therefore never neglect to consult a competent optician who is always willing to render you any assistance and advice that is necessary to give you good sight whenever there is the slightest uncertainty about the condition of your eyes, whenever you know you have eyes by any feeling of irregularity that they may reflect to the brain you should consult a fraction specialist at once. Such a specialist can be found and will make all examinations free for a short time at the Boston Optical parlors, Queen St, Ch'town.

CONCERT AT SUMMERSIDE.—Messrs. Rogers & Rogers, of Summerside and Charlottetown, have recently imported one of the largest phonographs in Canada. They kindly gave the loan of it upon its introduction into Summerside to the Library Committee for use at a concert which was hurriedly given last evening in the Market Hall. The selections from the phonograph were well rendered, and could be heard distinctly in every part of the hall, and on the streets through the open windows. The phonograph was supplemented by solos from Miss Mary Wright, a recent graduate of the Sackville academy of music, and a solo from Miss Winifred Fanning, of New York, who is now visiting Summerside, both of whom were encored, responding with new pieces; and an instrumental quartette composed of Mr. Whitney (piano) Dr. Brown and Miss McIntyre (violin) and Mr. R. E. Johnston (piccolo.) The parts of each were splendidly taken and elicited unstinted applause from the audience. The hall was filled and the concert netted \$48 to the library fund. The admission was only 10 cents, so there must have been about five hundred people present. Mr. Richard Hunt presided.

FORTY HOURS DEVOTION.—L'Impartial says the Forty Hours Devotion was held at Alberton, commencing on Sunday last and ending on Tuesday. There were present besides the pastor, Rev. Father Burke, the Revs. J. Chaisson, D. D., F. X. Gallant and J. S. D. Turbide. The entire congregation attended.

NOTICE.—To all brotherhood members of B L E, B L F, O R C, B R T, O R T: Gentlemen and brothers:—There will be a union meeting held in the B I S hall, on Kent street, on Sunday afternoon Sept. 24th, at 2 p. m., Standard time. All brotherhood members are invited to attend. The meeting will be addressed by vice-Grand Master Wilson, of the Brotherhood of Locomotive Firemen. By order of committee.

C O F—A new court of the Canadian Order of Foresters has been instituted at Hunter River. It will be known as Court Dalvey, and has the following office-bearers: J P C R—J M Nicholson; C R—G S McLeod; V C R—G W Bagnall; B S—H S Bagnall; F S—R D Bell; Treas.—Jas McPherson; Cond.—J N Crawwell; S W—J H A Selliphant; J W—J Fred Ware; S B—A Bagnall; J B—J Wonnecott; Ex Phy.—Dr A E Douglass; Fin Com.—J Beaton, W C Smith, and A Nicholson; Aud.—G S McLeod, H S Bagnall and C McKinnon; Trustees—R Waye, W Large and W Whitlock.

A VALUABLE PATENT.—Capt Frank Gallant, Postmaster at Tignish, will have on exhibition at Halifax next week a lock attachment which has been patented in Canada, Great Britain, the United States, France, Germany and Belgium. It seems to us to be a perfect fastening for valises, trunks, etc, and for vaults, safes and sliding doors it no doubt will be in great demand. This morning we were shown the lock attached to the mail bag which certainly appears to be its especial adaptation. Instead of having a lock attached to a chain on one side of a mail bag, and a bar fastened by a strap on the other side, as at present, Captain Gallant's patent brings the lock within the bar without lessening its strength and, in fact, further securing the mail bag—with less labor in closing it. We have no doubt that this outcome of the captain's ingenuity will prove to be a grand success.
